

online user account must first be established. CARES will leverage an existing FAA Single Sign-On (SSO) capability known as MyAccess. MyAccess will be used to generate online public user accounts, and also serve as part of the user account sign-on and authentication process after a user account has been created.

As an alternative to the web-based services, public users will still be permitted to send in paper forms directly to the Registry office via conventional mail services. These paper forms will be revised to collect the email address of the public user to help streamline processing of the public users' request. The modified paper forms will supersede all prior forms.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

Notice of Receipt and Request for Review of Noise Compatibility Program

AGENCY: Federal Aviation Administration, DOT.

ACTION: Notice of receipt and request for review of noise compatibility program.

SUMMARY: The Federal Aviation Administration (FAA) announces that it is reviewing a proposed noise compatibility program that was submitted for Newark Liberty International Airport by The Port Authority of New York and New Jersey. This program was submitted subsequent to a determination by FAA that associated noise exposure maps

submitted for Newark Liberty International Airport were in compliance with applicable requirements, effective January 15, 2019. The proposed noise compatibility program will be approved or disapproved on or before February 15, 2023. This notice also announces the availability of this noise compatibility program for public review and comment.

DATES: The effective date of start of FAA's review of the noise compatibility program is August 19, 2022. The public comment period ends October 18, 2022.

FOR FURTHER INFORMATION CONTACT: Andrew Brooks, Regional Environmental Program Manager, Airports Division, Federal Aviation Administration, 1 Aviation Plaza, Room 516, Jamaica, NY 11434. Phone Number: 718-553-2511. Comments on the proposed noise compatibility program should also be submitted to the above office.

SUPPLEMENTARY INFORMATION: This notice announces that the FAA is reviewing a proposed noise compatibility program (NCP) for Newark Liberty International Airport which will be approved or disapproved on or before February 15, 2023. This notice also announces the availability of this program for public review and comment.

An airport operator who has submitted noise exposure maps (NEM) that are found by FAA to be in compliance with the requirements of title 49, chapter 475 of the United States Code (U.S.C.) (Aviation Safety and Noise Abatement Act, hereinafter referred to as "the Act") and Title 14, Code of Federal Regulations (CFR) part 150 (14 CFR 150), promulgated pursuant to the Act, may submit a noise compatibility program for FAA approval which sets forth the measures the operator has taken or proposes to reduce existing non-compatible uses and prevent the introduction of additional non-compatible uses. The FAA previously determined that the NEMs for Newark Liberty International Airport were in compliance with applicable requirements under 14 CFR 150, effective January 15, 2019 (Noise Exposure Map Notice for Newark Liberty International Airport, Newark, New Jersey, volume 84, **Federal Register**, pages 27183-4, June 11, 2019).

The FAA has formally received the NCP for Newark Liberty International Airport on August 8, 2022. The airport operator has requested that the FAA review this material and that the noise mitigation measures, to be implemented jointly by the airport and surrounding

communities, be approved as a NCP under section 47504 of the Act. Preliminary review of the submitted material indicates that it conforms to the requirements for the submittal of NCPs, but that further review will be necessary prior to approval or disapproval of the program for Newark Liberty International Airport. The formal review period, limited by law to a maximum of 180 days, was initiated on August 19, 2022 and will be completed on or before February 15, 2023.

The FAA's detailed evaluation will be conducted under the provisions of 14 CFR 150.33. The primary considerations in the evaluation process are whether the proposed measures may reduce the level of aviation safety, create an undue burden on interstate or foreign commerce, or be reasonably consistent with obtaining the goal of reducing existing non-compatible land uses and preventing the introduction of additional non-compatible land uses.

Interested persons are invited to comment on the proposed program with specific reference to these factors. All comments, other than those properly addressed to local land use authorities, will be considered by the FAA to the extent practicable. Copies of the proposed NCP for Newark Liberty International Airport are available for examination online at http://panynjpart150.com/EWR_FNCP.asp.

The Port Authority of New York and New Jersey has also made a hard copy of the document available for review at the EWR Redevelopment Program Community Outreach Office, located at 79 West Jersey Street, Elizabeth, New Jersey. Interested parties can contact the office at (732) 258-1801 or via email at anewewr@panynj.gov to arrange for a review.

Questions regarding this notice may be directed to the individual named above under the heading, **FOR FURTHER INFORMATION CONTACT**.

Issued in Jamaica, NY, on August 19, 2022.

Director, Airports Division, Eastern Region.

SUPPLEMENTARY INFORMATION:

I. Public Participation and Request for Comments

FMCSA encourages you to participate by submitting comments and related materials.

Submitting Comments

If you submit a comment, please include the docket number for this notice (FMCSA–2022–0127), indicate the specific section of this document to which the comment applies, and provide a reason for suggestions or recommendations. You may submit your comments and material online or by fax, mail, or hand delivery, but please use only one of these means. FMCSA recommends that you include your name and a mailing address, an email address, or a phone number in the body of your document so the Agency can contact you if it has questions regarding your submission.

To submit your comment online, go to www.regulations.gov and put the docket number (“FMCSA–2022–0127”) in the “Keyword” box, and click “Search.” When the new screen appears, click on the “Comment” button and type your comment into the text box in the following screen. Choose whether you are submitting your comment as an individual or on behalf of a third party and then submit. If you submit your comments by mail or hand delivery, submit them in an unbound format, no larger than 8½ by 11 inches, suitable for

copying and electronic filing. If you submit comments by mail and would like to know that they reached the facility, please enclose a stamped, self-addressed postcard or envelope. FMCSA will consider all comments and material received during the comment period.

II. Legal Basis

FMCSA has authority under 49 U.S.C. 31136(e) and 31315(b) to grant exemptions from FMCSRs. FMCSA must publish a notice of each exemption request in the **Federal Register** (49 CFR 381.315(a)). The Agency must provide the public an opportunity to inspect the information relevant to the application, including any safety analyses that have been conducted. The Agency must provide an opportunity for public comment on the request.

The Agency reviews safety analyses and public comments submitted and determines whether granting the exemption would likely achieve a level of safety equivalent to, or greater than, the level that would be achieved by the current regulation (49 CFR 381.305). The Agency must publish its decision in the **Federal Register** (49 CFR 381.315(b)) with the reasons for denying or granting the application and, if granted, the name of the person or class of persons receiving the exemption and the regulatory provision from which the exemption is granted. The notice must specify the effective period and explain the terms and conditions of the exemption. The exemption may be renewed (49 CFR 381.300(b)).

III. Applicant’s Request

The Trucking Alliance applied for “an exemption from 49 CFR 382.107 to amend the definition of actual knowledge to include the employer’s knowledge of a driver’s positive hair test, which would require such results be reported to the FMCSA Drug and Alcohol Clearinghouse (“Clearinghouse”) and to inquiring carriers as required to comply with 49 CFR 391.23.”

A copy of The Trucking Alliance’s application for exemption is available for review in the docket for this notice.

IV. Statutory Requirements for FMCSA’s Drug and Alcohol Testing Program

FMCSA drug and alcohol use and testing regulations are authorized by the Omnibus Transportation Employee Testing Act of 1991 (OTETA) (Pub. L. 102–143, Title V, 105 Stat. 917, at 952, codified at 49 U.S.C. 31306). Section 31306(c)(2) requires that DOT follow the Department of Health and Human Services’ (HHS) Mandatory Guidelines

for technical and scientific testing issues. Thus, while DOT has discretion concerning many aspects of the regulations governing testing in the transportation industries' regulated programs, DOT and FMCSA must follow the HHS Mandatory Guidelines for the laboratory standards and procedures used for regulated testing. Therefore, allowing the use of a non-DOT drug test to serve as the basis for an actual knowledge report under 49 CFR part 382 is contrary to OTETA.

FMCSA notes that in section 5402(b) of the Fixing America's Surface Transportation Act (FAST Act) (Pub. L. 114–94, 129 Stat. 1548, codified at 49 U.S.C. 31306 note) (Dec. 4, 2015)), Congress required that the U.S. Department of Health and Human Services (HHS) “not later than one year after . . . this Act, . . . issue scientific and technical guidelines for hair testing as a method of detecting the use of a controlled substance for purposes of section 31306 of title 49, United States Code.” The FAST Act also amended OTETA by adding a requirement that FMCSA’s drug and alcohol testing regulations permit the use of hair testing as an acceptable alternative to urine testing for pre-employment drug testing, and for random drug testing when the driver was subject to pre-employment hair testing (49 U.S.C. 31306(b)(1)(B)). The Conference Report accompanying the FAST Act noted that “[t]he FMCSA has informed the conferees, and the conferees agree that *nothing in section 5402 authorizes the use of hair testing as an alternative to urine tests until the U.S. Department of Health and Human Services establishes federal standards for hair testing*” (emphasis added). [H.R. Rep. 114–357, at 506 (Dec. 1, 2015)]

HHS issued proposed Mandatory Guidelines for Federal Workplace Drug Testing Using Hair (HMG) in 2020 (85 FR 56108 (September 10, 2020)). However, HHS has not yet issued a final version of the HMG.

V. Request for Comments

In accordance with 49 U.S.C. 31315(b), FMCSA requests public comment from all interested persons on The Trucking Alliance’s application for an exemption from 49 CFR 382.107. All comments received before the close of business on the comment closing date indicated at the beginning of this notice will be considered and will be available for examination in the docket at the location listed under the Addresses section of this notice. Comments received after the comment closing date will be filed in the public docket and will be considered to the extent practicable. In addition to late

comments, FMCSA will also continue to file, in the public docket, relevant information that becomes available after the comment closing date. Interested persons should continue to examine the public docket for new material.

Associate Administrator for Policy.
