SUPPLEMENTARY INFORMATION:

Information Collection Request Title: Maternal, Infant, and Early Childhood Home Visiting Program Quarterly Performance Report, OMB No. 0906-0016, Revision.

Abstract: This clearance request is for continued approval of the Maternal, Infant, and Early Childhood Home Visiting (MIECHV) Program Quarterly Performance Report. The MIECHV Program, administered by HRSA in partnership with the Administration for Children and Families, supports voluntary, evidence-based home visiting services during pregnancy and to parents with young children up to kindergarten entry. States, certain non-profit organizations, and Tribal entities are eligible to receive funding from the MIECHV Program and have the flexibility to tailor the program to serve the specific needs of their communities.

A 60-Day notice was published in the **Federal Register**, 86 FR 35809 (July 7, 2021). There were two public comments. These comments expressed support for proposed updates to definitions of key terms and provided suggestions to improve clarity and reduce reporting burden related to

quarterly information reporting. HRSA appreciates these comments and suggestions to the information collection. Comments also raised questions about existing guidance that do not appear to require amendments to the guidance and that HRSA therefore intends to address through technical assistance. After taking these comments into consideration, HRSA intends the following proposed revisions to Form 4:

- Form 4, Reporting guidance: Revise reporting instructions and links to reflect updated reporting requirements.
- Form 4, Definition of Key Terms: Update definitions for Table A.1.
- Form 4, Definition of Key Terms: Add definitions for Table A.2.
- Form 4, Due date: The due date will be revised to 45 days after the end of each reporting period.

HRSA requests approval to expand the use of Form 4 in order to collect quarterly performance data from awardees who receive MIECHV funding appropriated by section 9101 of the American Rescue Plan Act (Pub. L. 117-2).

Need and Proposed Use of the Information: HRSA uses quarterly performance information to demonstrate program accountability and continuously monitor and provide oversight to MIECHV Program awardees. The information is also used to provide quality improvement guidance and technical assistance to awardees and help inform the development of early childhood systems at the national, state,

and local level. HRSA seeks to revise reporting instructions and definitions of key terms and to expand the use of Form 4 in order to collect distinct quarterly performance data related to the use of American Rescue Plan Act funds. This notice is subject to the appropriation of funds, and is a contingency action taken to ensure that, should funds become available for this purpose, information can be collected in a timely manner.

Likely Respondents: MIECHV Program awardees are states, jurisdictions, and, where applicable, nonprofit organizations receiving MIECHV funding to provide home visiting services within states.

Burden Statement: Burden in this context means the time expended by persons to generate, maintain, retain, disclose, or provide the information requested. This includes the time needed to review instructions; to develop, acquire, install, and utilize technology and systems for the purpose of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; to train personnel and to be able to respond to a collection of information; to search data sources; to complete and review the collection of information; and to transmit or otherwise disclose the information. The total annual burden hours estimated for this ICR are summarized in the table below.

TOTAL ESTIMATED ANNUALIZED BURDEN HOURS

Form name	Number of respondents	Number of responses per respondent	Total responses	Average burden per response (in hours)	Total burden hours
Form 4: Section A—Quarterly Performance Report	56	8	448	24	10,752
Form 4: Section B—Quarterly Benchmark Performance Measures	10	4	40	200	8,000
Total	156	488	18,752

¹ The 10 responses for Section B are a sub-set of 56 total awardees funded through the MIECHV Program.

HRSA specifically requests comments on (1) the necessity and utility of the proposed information collection for the proper performance of the agency's functions, (2) the accuracy of the estimated burden, (3) ways to enhance the quality, utility, and clarity of the information to be collected, and (4) the use of automated collection techniques or other forms of information

technology to minimize the information collection burden.
