DEPARTMENT OF COMMERCE

[Docket No. 021007231–2231–01]

Privacy Act of 1974: System of Records

AGENCY: Department of Commerce.

ACTION: Notice of a new System of Records: Commerce/NOAA System-15: Alaska Region-North Pacific Groundfish Observer Program: Certified Domestic Observer Final Evaluations.

SUMMARY: This notice announces the Department's proposal for a new system of records under the Privacy Act. The system is entitled "Commerce/NOAA System-15: Alaska Region—North Pacific Groundfish Observer Program: Certified Domestic Observer Final Evaluations." The National Oceanic and Atmospheric Administration, National Marine Fisheries Service (NMFS) is creating a new system of records for monitoring the performance of observers in the North Pacific groundfish fisheries. All observers hired by contractors and deployed on board vessels and at shoreside processing facilities that participate in the Alaska groundfish fisheries must satisfactorily execute their duties according to NMFS standards of observer conduct. This record system is designed to: (1) Monitor the performance of these observers; (2) ensure satisfactory compliance with NMFS standards of observer conduct; and (3) continue the

collection of data for the management of the North Pacific groundfish fisheries.

DATES: The system will become effective without further notice on November 15, 2002 unless comments dictate otherwise.

Written comments must be submitted on or before November 15, 2002.

ADDRESSES: Comments should be sent to Sue Salvesson, Assistant Regional Administrator for Sustainable Fisheries, Alaska Region, National Marine Fisheries Service, P.O. Box 21668, Juneau, Alaska 99802, *Attn:* Lori Gravel, or delivered to the Federal Building, 709 West 9th Street, Juneau, Alaska, 99802.

FOR FURTHER INFORMATION CONTACT: Bridget Mansfield, 907-586-7228.

SUPPLEMENTARY INFORMATION: Pursuant to the implementation of the North Pacific Groundfish Observer Program (50 CFR 679.50), contractors hiring and deploying observers on board vessels and at shoreside processing facilities that participate in the Alaska groundfish fisheries are required to monitor observers' performance to ensure satisfactory execution of duties by observers and observer conformance with NMFS standards of observer conduct. This monitoring is best accomplished through access to the observer performance evaluations conducted by NMFS for each completed deployment by each observer. A new system of records is being created by NMFS, Alaska Region, to maintain this monitoring. This record system will be listed under Commerce/NOAA System 15-Alaska Region—North Pacific Groundfish Observer Program: Certified Domestic Observer Final Evaluations.

NMFS finds no probable or potential adverse effects of the proposal on the privacy of individuals. To minimize the risk of unauthorized access to the system of records, electronic data will be stored securely with access limited to those NMFS employees whose official duties require access. Paper copies of records are made to fax information to the contractors included in this system of records. The paper copies are maintained in personnel folders in locked file cabinets in rooms accessible only to authorized personnel.
