SUPPLEMENTARY INFORMATION: EPA submitted the following ICR to OMB for review and approval in accordance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), and the procedures in 5 CFR 1320.12. *Prior Public Notice:* Pursuant to 5 CFR 1320.8(d), EPA announced and provided a 60-day public comment period on the information collection activities as described in this ICR (78 FR 36774, June 19, 2013). EPA received two public comments which are posted in the docket EPA-HQ-OPP-2013-0287 for this action. This notice allows for an additional 30 days for public comments.

ICR Status: This is a renewal for a currently approved ICR. This ICR is currently scheduled to expire on February 28, 2014. Under the PRA, an Agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register**, are listed in 40 CFR part 9 and are included on the related collection instrument or form, if applicable.

Abstract: Pesticide registrants are required by statute to pay an annual registration maintenance fee for all products registered under Section 3 and Section 24(c) of the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA). In addition, the Pesticide Registration Improvement Act (PRIA) amended FIFRA in 2004 to create a registration service fee system for applications for specific pesticide registration, amended registration, and associated tolerance actions (Section 33). This ICR specifically covers the activities related to the collection of the annual registration maintenance fees, the registration service fees and the burden associated with the submission of requests for fees to be waived.

Form Numbers: EPA Form 8570-30—Pesticide Registration Fee Filing Form.

Respondents/affected entities: Entities potentially affected by this ICR are pesticide and other agricultural chemical manufacturers, other basic inorganic chemical manufacturers, other basic organic chemical manufacturers, and regulators of agricultural marketing commodities.

Respondent's obligation to respond: Responses to this collection of information are required to obtain or retain a benefit (i.e., registration of a pesticide).

Estimated number of respondents: 1744

Frequency of response: Annual and on occasion.

Total estimated annual burden: 7,907 hours. Burden is defined at 5 CFR 1320.3(b).

Total estimated annual cost: \$535,728 For both programs.

Changes in the Estimates: The total annual respondent burden increased by 342 hours for the Pesticide Product Maintenance fees program and also increased 303 hours for the Pesticide Registration Service Fee waivers compared with that identified in the ICR currently approved by OMB. This increase reflects a slight increase in the number of requests submitted to the agency. This change is an adjustment.

Information Collection Request Submitted to OMB for Review and Approval; Comment Request; Clean Water Act Section 404 State-Assumed Programs (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency has submitted an information collection request (ICR), "Clean Water Act Section 404 State-Assumed Programs (Renewal)" to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*). This is a proposed extension of the ICR, which is currently approved through January 31, 2014. Public comments on the ICR renewal were requested via the **Federal Register** (78 FR 62629) published on October 22, 2013, during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An Agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before February 28, 2014.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA-

HQ-OW-2005-0023, to (1) EPA online using www.regulations.gov (our preferred method), by email ow-docket@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW., Washington, DC 20460, and (2) OMB via email to oir_submission@omb.eop.gov. Address comments to OMB Desk Officer for EPA.

EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

EPA ICR Number: 0220.12.

OMB Control Number: 2040-0168.

Abstract: Section 404(g) of the Clean Water Act (CWA) authorizes States [and Tribes] to assume the section 404 permit program for discharges of dredged or fill material into certain Waters of the U.S. This ICR covers the collection of information EPA needs to perform its program approval and oversight responsibilities and the State/Tribe needs to establish and implement its program.

Form Numbers: None.

Respondents/affected entities: Entities potentially affected by this action are those States/Tribes requesting assumption of the CWA section 404 permit program; States/Tribes with approved assumed programs; and permit applicants in States/Tribes with assumed programs.

Respondent's obligation to respond: Required to obtain or retain a benefit (40 CFR 233).

Estimated number of respondents: EPA anticipates 2 States/Tribes will

request program assumption; there will be approximately 14,000 permit applications (3,500 applications per state); and 4 States/Tribes which have assumed the program (the two current programs and potentially two who may be approved under this ICR) which will submit an annual report.

Frequency of response: States/Tribes will respond one time to request assumption and once the program is approved they will respond annually for the annual permit and annual report; permit applicants will respond one time when requesting a permit.

Total estimated burden: The public reporting and recordkeeping burden for this collection of information is estimated to be 90,960 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: Costs to states for assumed Section 404 permit programs will vary widely by state and permit, however there are \$0 capital or operation & maintenance costs.

Changes in the Estimates: There is a decrease of 10,400 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This decrease is because the estimated number of permits reviewed by a state per year decreased. This decrease is based on the experience of the state of New Jersey, due in part to a change in the economy and to a recalculation in the number of permits estimated. There was an increase in the number of hours spent reviewing each permit, due to an increase in the number of times applicants requested a review of mitigation options. The estimate used here is a weighted average of Michigan's and New Jersey's estimates.

EPA ICR #: 1808.07.

OMB Control #: 2020-0007.

Abstract: The Environmental Protection Agency's (EPA's) regulations at 40 CFR part 8, Environmental Impact Assessment of Nongovernmental Activities in Antarctica (Rule), were promulgated pursuant to the Antarctic Science, Tourism, and Conservation Act of 1996 (Act), 16 U.S.C. 2401 *et seq.*, as amended, 16 U.S.C. 2403a, which implements the Protocol on Environmental Protection (Protocol) to the Antarctic Treaty of 1959 (Treaty). The Rule provides for assessment of the environmental impacts of nongovernmental activities in Antarctica, including tourism, for which the United States is required to give advance notice under Paragraph 5 of Article VII of the Treaty, and for coordination of the review of information regarding environmental impact assessments received from other Parties under the Protocol. Persons subject to the Rule must prepare environmental documentation to support the operator's determination regarding the level of environmental impact of the proposed expedition. The Protocol and the Rule also require an operator to employ procedures to assess and provide a regular and verifiable record of the actual impacts of an activity which proceeds on the basis of an Initial Environmental Evaluation (IEE) or Comprehensive Environmental Evaluation (CEE).

Form Numbers: None.

Respondents/affected entities: Private operators.

Respondent's obligation to respond: Mandatory (40 CFR part 8).

Estimated number of respondents: 18.

Frequency of response: Annual.

Total estimated burden: 1,254 hours.

Total estimated cost: \$100,575 (per year) includes \$3,390 annualized capital or operation & maintenance costs.

Changes in Estimates: There is a decrease of 454 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This decrease is the result of a change to the level of environmental documentation EPA anticipates the operators will submit as well as an anticipated decrease of operators submitting documentation.
