

CARB's requirements are inconsistent with section 202(a). Thus, I cannot find that California's 2007 California EMD standards are inconsistent with section 202(a) of the Act. Accordingly, I hereby grant the waiver requested by California.

This decision will affect not only persons in California but also the manufacturers outside the State who must comply with California's requirements in order to produce motor vehicles for sale in California. For this reason, I hereby determine and find that this is a final action of national applicability.

Under section 307(b)(1) of the Act, judicial review of this final action may be sought only in the United States Court of Appeal for the District of Columbia Circuit. Petitions for review must be filed by March 6, 2006. Under section 307(b)(2) of the Act, judicial review of this final action may not be obtained in subsequent enforcement proceedings.

As with past waiver decisions, this action is not a rule as defined by Executive Order 12866. Therefore, it is exempt from review by the Office of Management and Budget as required for rules and regulations by Executive Order 12866.

In addition, this action is not a rule as defined in the Regulatory Flexibility Act, 5 U.S.C. sec. 601(2). Therefore, EPA has not prepared a supporting regulatory flexibility analysis addressing the impact of this action on small business entities.

Finally, the Administrator has delegated the authority to make determinations regarding waivers of Federal preemption under section 209(b) of the Act to the Assistant Administrator for Air and Radiation.

Dated: December 22, 2005.

William L. Wehrum,

Acting Assistant Administrator, Office of Air and Radiation.

Minor and Specialty Crops Integrated Pest Management (IPM) Special Projects; Request for Proposals

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA's Office of Prevention, Pesticides and Toxic Substances (OPPTS) announces the availability of

up to \$615,000 to address critical pest management needs of U.S. minor and specialty crop growers. The Agency anticipates funding up to five projects. The project period of performance is 3 years, with the possibility of extension. Proposed projects should address minor and specialty crop producers' critical pest management needs and demonstrate the importance and relevancy of the project to implementation of the Food Quality Protection Act (FQPA). This request for proposal was developed in response to recommendations made by the Committee to Advise on Reassessment and Transition (CARAT), a joint EPA and U.S. Department of Agriculture-sponsored federal advisory committee established to advise on the implementation of the FQPA, that the Agency facilitate the transition to reduced-risk pest management approaches for minor and specialty crops. You may access the full text of the grant announcement at <http://www.epa.gov/pesticides/grants/index.htm>.

DATES: Proposals must be postmarked on or before February 21, 2006.

II. Background

The Office of Pesticide Programs (OPP) is entrusted with the responsibility of ensuring the safety of the American food supply, protection and education of those who apply or are exposed to pesticides occupationally or through use of products, and the general protection of the environment and special ecosystems from potential risks posed by pesticides.

The PPDC was established under the Federal Advisory Committee Act (FACA), Public Law 92-463, in September 1995 for a 2 year-term and has been renewed every 2 years since that time. PPDC provides advice and recommendations to OPP on a broad range of pesticide regulatory, policy, and program implementation issues that are associated with evaluating and reducing risks from the use of pesticides. The following sectors are represented on the PPDC: Pesticide industry and trade associations; environmental and public interest and consumer groups; farm worker organizations; pesticide user, grower, and commodity groups; Federal and State, local, and tribal governments; the
