DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Economic Surveys of the Commercial and Charter Harvesting Sectors of Federally Managed Fisheries.

The Department of Commerce will submit the following information collection request to the Office of Management and Budget (OMB) for review and clearance in accordance with the Paperwork Reduction Act of 1995, on or after the date of publication of this notice. We invite the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. Public comments were previously requested via the **Federal Register** on December 6, 2021(86 FR 69017) during a 60-day comment period. This notice allows for an additional 30 days for public comments.

Agency: National Oceanic and Atmospheric Administration (NOAA), Commerce.

Title: Economic Surveys of the Commercial and Charter Harvesting Sectors of Federally Managed Fisheries.

OMB Control Number: 0648–XXXX.

Form Number(s): None.

Type of Request: Regular submission (a new collection).

Number of Respondents: 15,600.

Average Hours per Response: 1.03.

Estimated Total Burden Hours: 17,100.

Needs and Uses: This request is for a new hybrid-generic clearance for economic information collections (*i.e.*, surveys) for the commercial and charter harvesting sectors of federally managed fisheries. Once approved, this clearance will allow the National Oceanic & Atmospheric Administration's National Marine Fisheries Service (NMFS) to:

1. Conduct charter sector surveys similar to those it had conducted under previously approved but now discontinued collections.

2. As needed, conduct under the hybrid-generic clearance, commercial sector surveys currently approved under OMB Control Number 0648–0773 as that clearance approaches its expiration date or as changes to those surveys become necessary; and

3. Conduct additional commercial and/or charter sector surveys.

The requested hybrid-generic clearance is for information from the commercial and charter harvesting sectors. That information includes different components of operating costs/ expenditures, earnings, employment, ownership, vessel characteristics, effort/ gear descriptors, and demographic information. NMFS or its contractors would collect that information principally from the owners and operators of fishing vessel that participated in the commercial and/or charter harvesting sectors.

NMFS and Regional Fishery Management Council economist would use these data to monitor, explain and predict changes in the economic performance and impacts of federally managed fisheries. Those uses of the data would allow more than cursory efforts to comply with or support a variety of laws (*e.g.* The Magnuson-Stevens Fishery Conservation and Management Act), Executive Orders (EOs), and NOAA strategies and policies. In addition, those uses of the data would contribute to a well-informed, science-based fisheries conservation and management decisions making process, which should increase the net benefits to the Nation.

Affected Public: Individuals or households and Business or other for-profit organizations.

Frequency: Up to twice every two years.

Respondent's Obligation: Voluntary.

Legal Authority: The Magnuson-Stevens Fishery Conservation and Management Act.

This information collection request may be viewed at www.reginfo.gov. Follow the instructions to view the Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function and entering the title of the collection.

SUPPLEMENTARY INFORMATION: CPSC seeks to renew the following currently approved collection of information:

Title: Third Party Conformity Assessment Body Registration Form.

OMB Number: 3041–0143.

Type of Review: Renewal of collection.

Frequency of Response: On occasion.

Affected Public: Third party conformity assessment bodies seeking acceptance of accreditation or continuing accreditation.

Estimated Burden: The CPSC estimates the burden of the collection of information in CPSC Form 223 is as follows:

ESTIMATED ANNUAL REPORTING BURDEN

Activity	Number of respondents	Frequency of responses	Total annual responses	Hours per response	Total hours
Initial Registration	26	1	26	1	26
Re-Registration	303	1	303	1	303
Changes in Information	2	1	2	0.25	0.5
Total					329.5

These estimates are based on the following information:

- Based on applications received from FY 2013 to date, we estimate the number of third party conformity assessment bodies who would register each year for the next 3 years would be 26.
- Under 16 CFR part 1112, third party conformity assessment bodies are required to resubmit CPSC Form 223 every 2 years. As all third party

conformity assessment bodies have not submitted their first CPSC Form 223s at the same time, only about half would be expected to resubmit a CPSC Form 223 in any 1 year. As of August 2022, 606 third party conformity assessment bodies have registered with CPSC. Approximately half (303) of these firms would be required to re-register with CPSC each year.

- Under 16 CFR part 1112, third party conformity assessment bodies are

required to ensure that the information submitted on CPSC Form 223 is current and must submit a new CPSC Form 223 whenever the information changes. Based on current experience with third party conformity assessment bodies, we estimate that two third party conformity assessment bodies will make revisions per year to update their information. A change in information is a change that does not require review of laboratory accreditation documents, such as scope
