

that competing LECs serve a sufficient number of business and residential customers using predominantly their own facilities in its very limited service area in Connecticut. The Connecticut Department likewise concluded that Verizon satisfies the requirements of section 271(c)(1)(A).

17. *Section 272 Compliance.* Verizon has demonstrated that it complies with the requirements of section 272. Significantly, Verizon provides evidence that it maintains the same structural separation and nondiscrimination safeguards in Connecticut as it does in New York and Massachusetts, states in which Verizon has already received section 271 authority.

18. *Public Interest Analysis.* The Commission concludes that approval of this application is consistent with the public interest. It views the public interest requirement as an opportunity to review the circumstances presented by the applications to ensure that no other relevant factors exist that would frustrate the congressional intent that markets be open, as required by the competitive checklist, and that entry will therefore serve the public interest as Congress expected. While no one factor is dispositive in this analysis, the Commission's overriding goal is to ensure that nothing undermines its conclusion that markets are open to competition.

19. Among other factors, the Commission may review the local and long distance markets to ensure that there are not unusual circumstances that would make entry contrary to the public interest under the particular circumstances of this Application. The Commission finds that, consistent with its extensive review of the competitive checklist, barriers to competitive entry in the local market have been removed and the local exchange market today is open to competition. The Commission also finds that the record confirms our view that a BOC's entry into the long distance market will benefit consumers and competition if the relevant local exchange market is open to competition consistent with the competitive checklist.

20. The Commission also finds that the performance monitoring and enforcement mechanisms developed in Connecticut, in combination with other factors, provide meaningful assurance that Verizon will continue to satisfy the requirements of section 271 after entering the long distance market.

21. *Section 271(d)(6) Enforcement Authority.* Working with the Connecticut Department, the Commission intends to monitor closely

post-entry compliance and to enforce the provisions of section 271 using the various enforcement tools Congress provided us in the Communications Act.

Federal Communications Commission.

Deputy Secretary.
