SUPPLEMENTARY INFORMATION:

Title: Uniform Act Certification Needs Analysis.

Background: The demand for Uniform Relocation Assistance and Real Property Acquisition Policies Act (Uniform Act) compliant real estate services is growing

rapidly. However, both public sector agencies and private sector firms are experiencing difficulty in recruiting new workers into the needed disciplines due to a lack of trained individuals. In response to these challenges, as the Lead Agency for the Uniform Act, FHWA is proposing to conduct research to examine and report upon training and certification options for right-of-way and other real estate service providers. In addition, FHWA would assess the market need for the establishment of a new certification program, which would have as a focus the development of a qualified workforce to assist agencies and private sector organizations operating under the Uniform Act.

To assess the need for a new certification program focused on the Uniform Act, the Office of Real Estate Services proposes to survey three groups as follows:

1. Licensing agencies in the 50 states, the District of Columbia, Puerto Rico, Virgin Islands and Pacific territories will be surveyed to confirm the licenses required and the associated educational and work requirements for each license. Secondary research through agency Internet web sites will be utilized to the extent possible. Primary research by telephone or e-mail to a specific agency will only be performed as required to obtain information not available on the web site, or to obtain a required clarification.

- *Respondents:* 27 agencies.

- *Frequency:* This is a one-time survey.

- *Estimated Burden:* It is estimated that the response time will be 15 minutes per agency, for a total response time of 6.75 hours.

2. Selected two and four year colleges in the 50 states, the District of Columbia, Puerto Rico, Virgin Islands and the Pacific Territories and major national organizations, associations and institutions will be surveyed to inventory and document existing Uniform Act focused real estate course offerings. Secondary research through the Internet will be used to identify institutions offering courses and to gather as much information about the courses through the institution's web site. Primary research by telephone or e-mail to institutions will be utilized only as required to obtain information not available on the institution's web site, or to obtain a required clarification.

- *Respondents:* 75 institutions, associations, and organizations.

- *Frequency:* This is a one-time survey.

- *Estimated Burden:* It is estimated that the response time will be 15

minutes per institution, for a total response time of 18.75 hours.

3. Right-of-way managers in the 50 state departments of transportation, selected city and county transportation agencies and selected private sector real estate services, engineering and consulting firms will be surveyed to assess market perception of the need for a Uniform Act focused right of way certification program. A brief survey form, with approximately 20 questions, will be utilized as an initial information gathering tool. A link to this survey form will be sent via e-mail to the respondent and the survey form will be completed on-line, with telephone follow-up only as required to obtain a clarification on information provided. In addition, as a follow-up and validation of the initial survey, a 90-minute focus group session will be held. Twenty individuals, selected from those who responded to the original survey, will meet in a focus group during, or in conjunction with a national or major regional meeting of right of way professionals, such as the American Association of State Transportation Officials (AASHTO) national right of way committee meeting.

- *Respondents:* 100 survey respondents (54 state or territory transportation agencies, and 46 selected other city and county and private sector respondents).

- *Frequency:* This will be a one-time survey and follow-up focus group meeting.

- *Estimated Total Annual Burden:* The average response time for the survey is estimated to be 30 minutes, for a total of 50 hours. In addition, it is estimated that survey follow-up by e-mail or telephone will be required of 25% of the respondents for a total of 25 respondents at an average of 10 minutes, for a total response time of 4.17 hours. Twenty individuals will attend the focus group for 90 minutes each for a total of 30 hours. The total response time for the survey, follow-up and focus group meeting will be approximately 84.2 hours. The total annual burden for the entire survey (all three groups) is estimated to be approximately 110 hours.

SUPPLEMENTARY INFORMATION:

Title: Information on Tribal Government Transportation Programs.

Abstract: FHWA proposes to fund a Synthesis project through the National Cooperative Highway Research Program. The project goal is to gather information on tribal governments' transportation programs. The information will include funding information, staffing, and administration of transportation projects and programs. Information will also be requested from tribal governments on cooperative projects with state and local governments. The information will be used to prepare a summary of how tribal transportation programs are funded and staffed, and how tribal governments administer programs with the Bureau of Indian Affairs, FHWA, and state and local governments. The information will be evaluated and best practices will be identified. The information will be shared with tribal governments and states for their use in developing and enhancing effective transportation programs for tribal governments.

Affected Public: 100 tribal government transportation staff.

Estimated Total Annual Burden Hours: The estimated average burden is 2 hours per respondent. The FHWA goal is to get information from 100 tribal governments at a minimum. The estimated total annual burden is 200 hours.

Authority: The Paperwork Reduction Act of 1995; 44 U.S.C. Chapter 35, as amended; and 49 CFR 1.48.

Issued on: April 20, 2004.
