I. Funding Opportunity Description

Purpose of Program: The purpose of the Demonstration Grants for Indian Children program is to provide financial assistance to projects to develop, test, and demonstrate the effectiveness of services and programs to improve the educational opportunities and achievement of preschool, elementary, and secondary Indian students. To meet the purposes of the No Child Left Behind Act of 2001, this program will focus project services on increasing school readiness skills of three- and four-year-old American Indian and Alaska Native children; and enabling American Indian and Alaska Native high school graduates to transition successfully to postsecondary education by increasing their competency and skills in challenging subject matter, including mathematics and science.

Priorities: In accordance with 34 CFR 75.105(b)(2)(ii), these absolute priorities are from the regulations for this program (34 CFR 263.21(c)(1) and (3)).

Absolute Priorities: For FY 2004 these priorities are absolute priorities. Under 34 CFR 75.105(c)(3), we consider only applications that meet one or both of these priorities. These priorities are:

Absolute Priority 1. School readiness projects that provide age appropriate educational programs and language skills to three- and four-year-old Indian students to prepare them for successful entry into school at the kindergarten level.

Absolute Priority 2. College preparatory programs for secondary school students designed to increase competency and skills in challenging subject matter, including mathematics and science, to enable Indian students to transition successfully to postsecondary education.

Competitive Preference Priorities: Within the absolute priorities, we give competitive preference to applicants that address the following priorities.

Competitive Preference Priority 1. In accordance with 34 CFR

75.105(b)(2)(iv), this priority is from section 7121 of the Elementary and Secondary Education Act of 1965, as amended (ESEA), 20 U.S.C. 7441(d)(1)(B). Five (5) competitive preference points will be awarded to an application that presents a plan for combining two or more of the activities described in section 7121(c) of the ESEA over a period of more than one year.

Competitive Preference Priority 2. In accordance with 34 CFR

75.105(b)(2)(iv), this priority is from section 7143 of the ESEA, 20 U.S.C. 7473. Five (5) competitive preference points will be awarded to an application submitted by an Indian tribe, Indian organization, or Indian institution of higher education, including a consortium of any of these entities with other eligible entities. An application from a consortium of eligible entities that meets the requirements of 34 CFR 75.127 through 75.129 and includes an Indian tribe, Indian organization, or Indian institution of higher education will be considered eligible to receive the five (5) priority points.

These competitive preference points are in addition to the five competitive preference points that may be given under Competitive Preference Priority 1.

Note: The consortium agreement, signed by all parties, must be submitted with the application in order to be considered a consortium application. Letters of support do not meet the consortium requirements. The Secretary will reject any application that does not meet these requirements.

Pilot Project for Electronic Submission of Applications

We are continuing to expand our pilot project for electronic submission of applications to include additional formula grant programs and additional discretionary grant competitions. The Demonstration Grants for Indian Children program—CFDA Number 84.299A—is one of the programs included in the pilot project. If you are an applicant under the Demonstration Grants for Indian Children program, you may submit your application to us in either electronic or paper format.

The pilot project involves the use of the Electronic Grant Application System (e-Application). If you use e-Application, you will be entering data online while completing your application. You may not e-mail an electronic copy of a grant application to us. If you participate in this voluntary pilot project by submitting an application electronically, the data you

enter online will be saved into a database. We request your participation in e-Application. We shall continue to evaluate its success and solicit suggestions for its improvement.

If you participate in e-Application, please note the following:

- Your participation is voluntary.
- When you enter the e-Application system, you will find information about its hours of operation. We strongly recommend that you not wait until the application deadline date to initiate an e-Application package.
- You will not receive additional point value because you submit a grant application in electronic format, nor will we penalize you if you submit an application in paper format.
- You may submit all documents electronically, including the Application for Federal Education Assistance (ED 424), Budget Information—Non-Construction Programs (ED 524), and all necessary assurances and certifications.
- Your e-Application must comply with any page limit requirements described in this notice.

• After you electronically submit your application, you will receive an automatic acknowledgement, which will include a PR/Award number (an identifying number unique to your application).

• Within three working days after submitting your electronic application, fax a signed copy of the Application for Federal Education Assistance (ED 424) to the Application Control Center after following these steps:

1. Print ED 424 from e-Application.
2. The institution's Authorizing Representative must sign this form.
3. Place the PR/Award number in the upper right-hand corner of the hard copy signature page of the ED 424.
4. Fax the signed ED 424 to the Application Control Center at (202) 260-1349.

• We may request that you give us original signatures on all other forms at a later date.

Application Deadline Date Extension in Case of System Unavailability: If you elect to participate in the e-Application pilot for the Demonstration Grants for Indian Children program and you are prevented from submitting your application on the application deadline date because the e-Application system is unavailable, we will grant you an extension of one business day in order to transmit your application electronically, by mail, or by hand delivery. We will grant this extension if—

1. You are a registered user of e-Application, and have initiated an e-Application for this competition; and

2. (a) The e-Application system is unavailable for 60 minutes or more between the hours of 8:30 a.m. and 3:30 p.m., Washington, DC time, on the application deadline date; or

(b) The e-Application system is unavailable for any period of time during the last hour of operation (that is, for any period of time between 3:30 p.m. and 4:30 p.m., Washington, DC time) on the application deadline date.

We must acknowledge and confirm these periods of unavailability before granting you an extension. To request this extension or to confirm our acknowledgment of any system unavailability, you may contact either (1) the person listed elsewhere in this notice under **FOR FURTHER INFORMATION CONTACT** (see VII. Agency Contact) or (2) the e-GRANTS help desk at 1-888-336-8930.

Under the selection criteria "Quality of project services" and "Quality of the project evaluation," we will consider the extent to which the applicant demonstrates a strong capacity to provide reliable data on these indicators.

All grantees will be expected to submit, as part of their performance report, information documenting their progress with regard to these performance measures.

DEPARTMENT OF ENERGY

National Energy Technology Laboratory; Notice of Availability of a Funding Opportunity Announcement

AGENCY: National Energy Technology Laboratory, Department of Energy (DOE).

ACTION: Notice of availability of a funding opportunity announcement.

SUMMARY: Notice is hereby given of the intent to issue Funding Opportunity Announcement No. DE-PS26-04NT42067 entitled "Pilot Scale Demonstrations of Cost Effective NO_x Control for Coal-Fired Electric Utility Boilers in Response to Multi-Pollutant Legislation". The Department of Energy (DOE), National Energy Technology Laboratory (NETL), through its Innovations for Existing Plants (IEP) Program is seeking applications for cost-shared research and development of advanced pulverized coal NO_x control technologies at the pilot-scale and field testing-scale. The focus of these technologies is to reduce energy consumption and balance of plant issues and improve the associated capital and operating costs while burning a high volatile bituminous coal when compared to current state-of-the-art NO_x control technologies. This
