

with minimal risks of exceeding the ICCAT-allocated quota.

Delays in increasing these retention limits would adversely affect those General and Charter/Headboat category vessels that would otherwise have an opportunity to harvest more than the default retention limit of one BFT per day and may exacerbate the problem of low catch rates and quota rollovers. Limited opportunities to harvest the respective quotas may have negative social and economic impacts for U.S. fishermen that depend upon catching the available quota within the time periods designated in the Consolidated HMS FMP. Adjustment of the retention limit needs to be effective January 1, 2012, to minimize any unnecessary disruption in fishing patterns and for the impacted sectors to benefit from the adjustments so as to not preclude fishing opportunities for fishermen who have access to the fishery only during this time period. Therefore, the AA finds good cause under 5 U.S.C. 553(b)(B) to waive prior notice and the opportunity for public comment. For these reasons, there is good cause under 5 U.S.C. 553(d) to waive the 30-day delay in effectiveness.

This action is being taken under 50 CFR 635.23(a)(4) and is exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 971 *et seq.* and 1801 *et seq.*

Dated: December 6, 2011.

Steven Thur,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

RIN 0648-XA857

Fisheries of the Exclusive Economic Zone Off Alaska; Sculpins in the Bering Sea Subarea of the Bering Sea and Aleutian Islands Management Area

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; apportionment of reserves; request for comments.

SUMMARY: NMFS apportions amounts of the non-specified reserve to the initial total allowable catch of sculpins in the

Bering Sea subarea of the Bering Sea and Aleutian Islands management area. This action is necessary to allow fishing operations to continue. It is intended to promote the goals and objectives of the fishery management plan for the Bering Sea and Aleutian Islands management area.

DATES: Effective December 6, 2011 through 2400 hrs, Alaska local time, December 31, 2011. Comments must be received at the following address no later than 4:30 p.m., Alaska local time, December 21, 2011.

ADDRESSES: You may submit comments on this document, identified by NOAA-NMFS-2011-0283, by any of the following methods:

- **Electronic Submission:** Submit all electronic public comments via the Federal e-Rulemaking Portal <http://www.regulations.gov>. To submit comments via the e-Rulemaking Portal, first click the "submit a comment" icon, then enter NOAA-NMFS-2011-0283 in the keyword search. Locate the document you wish to comment on from the resulting list and click on the "Submit a Comment" icon on that line.

- **Mail:** Address written comments to Glenn Merrill, Assistant Regional Administrator, Sustainable Fisheries Division, Alaska Region NMFS, Attn: Ellen Sebastian. Mail comments to P.O. Box 21668, Juneau, AK 99802-1668.

- **Fax:** Address written comments to Glenn Merrill, Assistant Regional Administrator, Sustainable Fisheries Division, Alaska Region NMFS, Attn: Ellen Sebastian. Fax comments to (907) 586-7557.

- **Hand delivery to the Federal Building:** Address written comments to Glenn Merrill, Assistant Regional Administrator, Sustainable Fisheries Division, Alaska Region NMFS, Attn: Ellen Sebastian. Deliver comments to 709 West 9th Street, Room 420A, Juneau, AK.

Instructions: Comments must be submitted by one of the above methods to ensure that the comments are received, documented, and considered by NMFS. Comments sent by any other method, to any other address or individual, or received after the end of the comment period, may not be considered. All comments received are a part of the public record and will generally be posted for public viewing on <http://www.regulations.gov> without change. All personal identifying information (e.g., name, address) submitted voluntarily by the sender will be publicly accessible. Do not submit confidential business information, or otherwise sensitive or protected information. NMFS will accept

anonymous comments (enter "N/A" in the required fields if you wish to remain anonymous). Attachments to electronic comments will be accepted in Microsoft Word or Excel, WordPerfect, or Adobe PDF file formats only.

FOR FURTHER INFORMATION CONTACT:

Mary Furuness, (907) 586-7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the Bering Sea and Aleutian Islands (BSAI) exclusive economic zone according to the Fishery Management Plan for Groundfish of the Bering Sea and Aleutian Islands Management Area (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

The 2011 initial total allowable catch (ITAC) of sculpins in the Bering Sea subarea was established as 4,420 metric tons (mt) by the final 2011 and 2012 harvest specifications for groundfish of the BSAI (76 FR 11139, March 1, 2011). In accordance with § 679.20(a)(3) the Regional Administrator, Alaska Region, NMFS, has reviewed the most current available data and finds that the ITAC for sculpins in the Bering Sea subarea needs to be supplemented from the non-specified reserve in order to promote efficiency in the utilization of fishery resources in the BSAI and allow fishing operations to continue.

Therefore, in accordance with § 679.20(b)(3), NMFS apportions from the non-specified reserve of groundfish 780 mt to the sculpins ITAC in the Bering Sea subarea. This apportionment is consistent with § 679.20(b)(1)(i) and does not result in overfishing of a target species because the revised ITAC is equal to or less than the specifications of the acceptable biological catch in the final 2011 and 2012 harvest specifications for groundfish in the BSAI (76 FR 11139, March 1, 2011).

The harvest specification for the 2011 sculpins ITAC included in the harvest specifications for groundfish in the BSAI is revised as follows: 5,200 mt for sculpins in the Bering Sea subarea.

Classification

This action responds to the best available information recently obtained from the fishery. The Assistant Administrator for Fisheries, NOAA, (AA) finds good cause to waive the requirement to provide prior notice and opportunity for public comment pursuant to the authority set forth at 5 U.S.C. 553(b)(B) and

§ 679.20(b)(3)(iii)(A) as such a requirement is impracticable and contrary to the public interest. This requirement is impracticable and contrary to the public interest as it would prevent NMFS from responding to the most recent fisheries data in a timely fashion and would delay the apportionment of the non-specified reserves of groundfish to the sculpins fishery in the Bering Sea subarea. Immediate notification is necessary to allow for the orderly conduct and efficient operation of this fishery, to allow the industry to plan for the fishing season, and to avoid potential disruption to the fishing fleet and processors. NMFS was unable to publish a notice providing time for public comment because the most recent, relevant data only became available as of November 30, 2011.

The AA also finds good cause to waive the 30-day delay in the effective date of this action under 5 U.S.C. 553(d)(3). This finding is based upon the reasons provided above for waiver of prior notice and opportunity for public comment.

Under § 679.20(b)(3)(iii), interested persons are invited to submit written comments on this action (see **ADDRESSES**) until December 21, 2011.

This action is required by § 679.20 and is exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 1801, *et seq.*

Dated: December 5, 2011.

Steven Thur,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

RIN 0648-XA858

Fisheries of the Exclusive Economic Zone Off Alaska; Reallocation of Pacific Cod in the Bering Sea and Aleutian Islands Management Area

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule; reallocation.

SUMMARY: NMFS is reallocating the projected unused amounts of Pacific cod total allowable catch (TAC) from catcher

vessels using trawl gear and jig gear sectors to American Fisheries Act (AFA) trawl catcher/processors and catcher/processors using hook-and-line gear in the Bering Sea and Aleutian Islands management area (BSAI). This action is necessary to allow the 2011 TAC of Pacific cod to be harvested.

DATES: Effective December 9, 2011, through 2400 hrs, Alaska local time (A.l.t.), December 31, 2011.

FOR FURTHER INFORMATION CONTACT: Mary Furuness, (907) 586-7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the BSAI according to the Fishery Management Plan for Groundfish of the Bering Sea and Aleutian Islands Management Area (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

The C season apportionment of the 2011 Pacific cod TAC specified for vessels using trawl gear in the BSAI is 5,458 metric tons (mt) for the period 1200 hrs, A.l.t., June 10, 2011, through 1200 hrs, A.l.t., November 1, 2011, as established by the final 2011 and 2012 harvest specifications for groundfish in the BSAI (76 FR 11139, March 1, 2011) and subsequent reallocation (76 FR 54137, August 31, 2011).

The Administrator, Alaska Region, NMFS (Regional Administrator) has determined that trawl catcher vessels will not be able to harvest 2,500 mt of the C season apportionment of the 2011 Pacific cod TAC allocated to those vessels under § 679.20(a)(7)(ii)(A)(9). The Regional Administrator has determined that the projected unharvested amount is unlikely to be harvested by any of the other sectors described in § 679.20(a)(7)(iii)(A). On October 24, 2011, NMFS prohibited directed fishing for Pacific cod by vessels using pot gear in the BSAI to limit incidental catch of octopus (76 FR 66655, October 27, 2011). Therefore, in accordance with § 679.20(a)(7)(iii)(A), NMFS apportions from the C season trawl catcher vessel apportionment 1,750 mt of Pacific cod to the B season apportionment for AFA trawl catcher/processors apportionment and 750 mt to the B season apportionment for catcher/processors using hook-and-line gear.

The C season apportionment of the 2011 Pacific cod TAC specified for jig gear in the BSAI is 570 mt for the period 1200 hrs, A.l.t., August 31, 2011, through 1200 hrs, A.l.t., December 31,

2011, as established by the final 2011 and 2012 harvest specifications for groundfish in the BSAI (76 FR 11139, March 1, 2011).

The Regional Administrator has determined that the jig gear sector will not be able to harvest 370 mt of the C season apportionment of the 2011 Pacific cod TAC allocated to those vessels under § 679.20(a)(7)(ii)(A)(1). The Regional Administrator has determined that the projected unharvested amount is unlikely to be harvested by any of the other sectors described in § 679.20(a)(7)(iii)(A). Therefore, in accordance with § 679.20(a)(7)(iii)(A), NMFS apportions from the C season jig gear apportionment 370 mt of Pacific cod to the B season apportionment for catcher/processors using hook-and-line gear.

The harvest specifications for Pacific cod included in the final 2011 harvest specifications for groundfish in the BSAI (76 FR 11139, March 1, 2011) are revised as follows: 2,958 mt for catcher vessels using trawl gear and 200 mt for jig gear to the C season apportionments and 2,920 mt for AFA trawl catcher/processors and 49,499 mt for catcher/processors using hook-and-line gear to the B season apportionments.

Classification

This action responds to the best available information recently obtained from the fishery. The Assistant Administrator for Fisheries, NOAA (AA), finds good cause to waive the requirement to provide prior notice and opportunity for public comment pursuant to the authority set forth at 5 U.S.C. 553(b)(B) as such requirement is impracticable and contrary to the public interest. This requirement is impracticable and contrary to the public interest as it would prevent NMFS from responding to the most recent fisheries data in a timely fashion and would delay the reallocation of Pacific cod specified from trawl catcher vessels and jig gear to AFA trawl catcher/processors and catcher/processors using hook-and-line gear. Since fisheries are currently open, it is important to immediately inform the industry as to the revised allocations. Immediate notification is necessary to allow for the orderly conduct and efficient operation of this fishery, to allow the industry to plan for the fishing season, and to avoid potential disruption to the fishing fleet as well as processors. NMFS was unable to publish a notice providing time for public comment because the most recent, relevant data only became available as of December 1, 2011.

The AA also finds good cause to waive the 30-day delay in the effective
