

OVW will gather information through an electronic online survey tool about trauma informed services. This information will assist OVW in the implementation of grant programs that are authorized to support victim services and will also benefit other communities that want to consider using funds to support similar services.

In addition, OVW will be able to provide more effective training and technical to grantees on implementing trauma informed services.

(5) *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond/reply:* It is estimated that it will take the approximately 800 respondents (victim service organizations currently or previously funded through grant programs authorized by VAWA and administered by OVW) approximately 30 minutes to complete the survey. The survey will include 10 questions about the respondents' understanding of trauma informed services and interventions, how trauma informed services and interventions are being implemented, successes and challenges of utilizing trauma informed services and interventions, and a survey of best practices. The survey will include a combination of multiple choice questions and questions involving a rating scale as well one or two narrative questions.

(6) *An estimate of the total public burden (in hours) associated with the collection:* The total annual hour burden to complete the data collection forms is 400 hours, that is approximately 800 respondents with an estimated completion time for the form being 30 minutes.
