

affected facility, or any period during which the monitoring system is inoperative. Reports are required semiannually at a minimum.

Form Numbers: None

Respondents/affected entities:

Owners or operators of electric arc furnace steelmaking facilities.

Respondent's obligation to respond: mandatory (40 CFR part 63, subpart YYYYY)

Estimated number of respondents: 91 (total).

Frequency of response: Initially, semiannually and occasionally.

Total estimated burden: 1,481 hours (per year). Burden is defined at 5 CFR 1320.03(b)

Total estimated cost: \$138,991 (per year), includes \$0 annualized capital or operation & maintenance costs.

Changes in Estimates: There is no change in the labor hours in this ICR compared to the previous ICR. This is due to two considerations: (1) The regulations have not changed over the past three years and are not anticipated to change over the next three years; and (2) the growth rate for the respondents is very low, negative or non-existent. Therefore, the labor hours in the previous ICR reflect the current burden to the respondents and are reiterated in this ICR. However, there is an increase in burden costs due to an adjustment in labor rates.

(24) *Docket ID Number:* EPA-HQ-OECA-2013-0352; *Title:* NESHAP for Industrial, Commercial, and Institutional Boilers and Process Heaters (40 CFR Part 63, Subpart DDDDD); *ICR Numbers:* EPA ICR Number 2028.08, OMB Control Number 2060-0551; *ICR Status:* This ICR is scheduled to expire on September 30, 2014.

Abstract: The standard affects new and existing industrial/commercial/institutional boilers and process heaters that are major sources of HAPs. Each owner or operator of a source affected by the standards is required to submit an initial notification that the source is subject to the standard. Each respondent submits semiannual compliance reports. Additional records and notifications depend on which subcategory the boilers or process heaters are in.

Form Numbers: None

Respondents/affected entities:

Owners and operators of industrial, commercial, and institutional boilers and process heaters.

Respondent's obligation to respond: mandatory (40 CFR part 63, subpart DDDDD)

Estimated number of respondents: 14,111 (total).

Frequency of response: Initial and annually.

Total estimated burden: 32,664 hours (per year). Burden is defined at 5 CFR 1320.03(b)

Total estimated cost: \$97,110,020 (per year), includes \$66,211,113 annualized capital or operation & maintenance costs.

Changes in Estimates: There is an increase in both respondent and Agency burden costs from the most recently approved ICR is due to an increase in the number of new or modified sources, and an adjustment in labor rates.

(25) *Docket ID Number:* EPA-HQ-OECA-2013-0298; *Title:* NESHAP for Industrial, Commercial, and Institutional Boilers Area Sources (40 CFR Part 63, Subpart JJJJJ); *ICR Numbers:* EPA ICR Number 2253.03, OMB Control Number 2060-0668; *ICR Status:* This ICR is scheduled to expire on September 30, 2014.

Abstract: The NESHAP for Industrial, Commercial, and Institutional Boilers Area Sources, at 40 CFR part 63 subpart JJJJJ (Area Boilers NESHAP) fulfills the requirements of section 112 of the Clean Air Act (CAA), which requires the United States Environmental Protection Agency (EPA) to promulgate national emission standards for industrial, commercial, and institutional boilers. Records and reports required by the NESHAP for industrial, commercial, and institutional boilers area sources are necessary to enable EPA to identify sources subject to the standards and to ensure that the standards are being achieved. Records and reports must be maintained at the facility and/or submitted to EPA. All reports are sent to the delegated state or local authority. In the event that there is no such delegated authority, the reports are sent directly to the EPA regional office.

Form Numbers: None

Respondents/affected entities:

Owners and operators of industrial, commercial, or institutional boilers.

Respondent's obligation to respond: mandatory (40 CFR part 63, subpart JJJJJ)

Estimated number of respondents: 182,671 (total).

Frequency of response: Initially, annually, and occasionally.

Total estimated burden: 2,681,826 hours (per year). Burden is defined at 5 CFR 1320.03(b)

Total estimated cost: \$406,793,797 (per year), includes \$153,122,174 annualized capital or operation & maintenance costs.

Changes in Estimates: There is an increase in both respondent and Agency burden costs from the most recently approved ICR is due to an increase in the number of new or modified sources and an adjustment in labor rates.

Dated: May 30, 2013.

Lisa C. Lund,

Director, Office of Compliance.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-9823-4]

Cross-Media Electronic Reporting: Authorized Program Revision Approval, State of Nevada

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: This notice announces EPA's approval of the State of Nevada's request to revise its National Pollutant Discharge Elimination System EPA-authorized program to allow electronic reporting.

DATES: EPA's approval is effective June 11, 2013.

FOR FURTHER INFORMATION CONTACT: Evi Huffer, U.S. Environmental Protection Agency, Office of Environmental Information, Mail Stop 2823T, 1200 Pennsylvania Avenue NW., Washington, DC 20460, (202) 566-1697, huffer.evi@epa.gov, or Karen Seeh, U.S. Environmental Protection Agency, Office of Environmental Information, Mail Stop 2823T, 1200 Pennsylvania Avenue NW., Washington, DC 20460, (202) 566-1175, seeh.karen@epa.gov.

SUPPLEMENTARY INFORMATION: On October 13, 2005, the final Cross-Media Electronic Reporting Rule (CROMERR) was published in the **Federal Register** (70 FR 59848) and codified as part 3 of title 40 of the CFR. CROMERR establishes electronic reporting as an acceptable regulatory alternative to paper reporting and establishes requirements to assure that electronic documents are as legally dependable as their paper counterparts. Subpart D of CROMERR requires that state, tribal or local government agencies that receive, or wish to begin receiving, electronic reports under their EPA-authorized programs must apply to EPA for a revision or modification of those programs and obtain EPA approval. Subpart D provides standards for such approvals based on consideration of the electronic document receiving systems that the state, tribe, or local government will use to implement the electronic reporting. Additionally, § 3.1000(b) through (e) of 40 CFR part 3, subpart D provides special procedures for program revisions and modifications to allow electronic reporting, to be used at the

option of the state, tribe or local government in place of procedures available under existing program-specific authorization regulations. An application submitted under the subpart D procedures must show that the state, tribe or local government has sufficient legal authority to implement the electronic reporting components of the programs covered by the application and will use electronic document receiving systems that meet the applicable subpart D requirements.

On October 10, 2012, the Nevada Division of Environmental Protection (NDEP) submitted an application titled "Network Discharge Monitoring Report System" for revision of its EPA-authorized authorized Part 123 program under title 40 CFR. EPA reviewed NDEP's request to revise its EPA-authorized Part 123—National Pollutant Discharge Elimination System program and, based on this review, EPA determined that the application met the standards for approval of authorized program revision set out in 40 CFR part 3, subpart D. In accordance with 40 CFR 3.1000(d), this notice of EPA's decision to approve Nevada's request to revise its Part 123—National Pollutant Discharge Elimination System program to allow electronic reporting under 40 CFR part 122 is being published in the **Federal Register**.

NDEP was notified of EPA's determination to approve its application with respect to the authorized program listed above.

Dated: June 3, 2013.

Andrew Battin,

Director, Office of Information Collection.

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-ORD-2013-0188; FRL 9818-4]

Human Studies Review Board Advisory Committee

AGENCY: Environmental Protection Agency (EPA).

ACTION: Request for Nominations to the Human Studies Review Board (HSRB) Advisory Committee.

SUMMARY: The U.S. Environmental Protection Agency (EPA) invites nominations from a diverse range of qualified candidates with expertise in bioethics, biostatistics and human health risk assessment to be considered for appointment to its Human Studies Review Board (HSRB) advisory committee. Anticipated vacancies will

be filled by September 1, 2013. Sources in addition to this **Federal Register** Notice may also be utilized in the solicitation of nominees.

Background: On February 6, 2006, the Agency published a final rule for the protection of human subjects in research that called for creating a new, independent human studies review board (*i.e.*, HSRB). The HSRB is a federal advisory committee operating in accordance with the Federal Advisory Committee Act (FACA) 5 U.S.C. App. 2 § 9 (Pub. L. 92-463). The HSRB provides advice, information, and recommendations to EPA on issues related to scientific and ethical aspects of human subjects research. The major objectives of the HSRB are to provide advice and recommendations on: (1) Research proposals and protocols that include human subjects; (2) reports of completed research with human subjects; and (3) how to strengthen EPA's programs for protection of human subjects of research. The HSRB reports to the EPA Administrator through EPA's Science Advisor. General information concerning the HSRB, including its charter, current membership, and activities can be found on the EPA Web site at <http://www.epa.gov/osa/hsrb/>.

HSRB members serve as special government employees or regular government employees. Members are appointed by the EPA Administrator for either two or three year terms with the possibility of reappointment for additional terms, with a maximum of six years of service. The HSRB usually meets up to four times a year and the typical workload for HSRB members is approximately 40 to 50 hours per meeting, including the time spent at the meeting. Responsibilities of HSRB members include reviewing extensive background materials prior to meetings of the Board, preparing draft responses to Agency charge questions, attending Board meetings, participating in the discussion and deliberations at these meetings, drafting assigned sections of meeting reports, and helping to finalize Board reports. EPA compensates special government employees for their time and provides reimbursement for travel and other incidental expenses associated with official government business. EPA values and welcomes diversity. In an effort to obtain nominations of diverse candidates, EPA encourages nominations of women and men of all racial and ethnic groups.

The qualifications of nominees for membership on the HSRB will be assessed in terms of the specific expertise sought for the HSRB. Qualified nominees who agree to be considered further will be included in a "Short

List". The Short List of nominee names and biographical sketches will be posted for 14 calendar days for public comment on the HSRB Web site: <http://www.epa.gov/osa/hsrb/index.htm>. The public will be encouraged to provide additional information about the nominees that EPA should consider. At the completion of the comment period, EPA will select new Board members from the Short List. Candidates not selected for HSRB membership at this time may be considered for HSRB membership as vacancies arise in the future or for service as consultants to the HSRB. The Agency estimates that the names of Short List candidates will be posted in July 2013. However, please be advised that this is an approximate time frame and the date is subject to change. If you have any questions concerning posting of Short List candidates on the HSRB Web site, please consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

Members of the HSRB are subject to the provisions of 5 CFR part 2634, Executive Branch Financial Disclosure, as supplemented by the EPA in 5 CFR part 6401. In anticipation of this requirement, each nominee will be asked to submit confidential financial information that fully discloses, among other financial interests, the candidate's employment, stocks and bonds, and where applicable, sources of research support. The information provided is strictly confidential and will not be disclosed to the public. Before a candidate is considered further for service on the HSRB, EPA will evaluate each candidate to assess whether there is any conflict of financial interest, appearance of a lack of impartiality, or prior involvement with matters likely to be reviewed by the Board.

Nominations will be evaluated on the basis of several criteria, including: the professional background, expertise and experience that would contribute to the diversity of perspectives of the committee; interpersonal, verbal and written communication skills and other attributes that would contribute to the HSRB's collaborative process; consensus building skills; absence of any financial conflicts of interest or the appearance of a lack of impartiality, or lack of independence, or bias; and the availability to attend meetings and administrative sessions, participate in teleconferences, develop policy recommendations to the Administrator, and prepare recommendations and advice in reports.

Nominations should include a resume or curriculum vitae providing the nominee's educational background, qualifications, leadership positions in
