

deposits from countable income, so that SSI benefits replace the amount deposited. As a result, an SSI beneficiary does not have to divert scarce resources from living expenses in order to save.

Nonfederally supported IDA or "IDA-like" programs have emerged in a number of states. These programs usually permit an individual to save for one or more purposes in addition to the three mentioned above, such as transportation. The exclusions that apply to federally-supported IDAs normally do not extend to these programs.

5. Ordinarily, a plan for achieving self-support (PASS) must specify an employment goal (section 1633(d) of the Act), which refers to getting a particular kind of job or starting a particular business. For the YTPD, SSA will approve an otherwise satisfactory PASS that has either career exploration or postsecondary education as its goal. If the goal is postsecondary education, the PASS must provide for developing a work goal at least one year prior to completion of the degree requirements.

Income that an individual uses for PASS expenses does not count when SSA determines SSI eligibility and payment amount. Assets that an individual uses for PASS expenses do not count as resources when SSA determines SSI eligibility.

Evaluation

The seven YTPD projects will collect data for each participant regarding identifying information, educational and vocational background, services provided, education/work attempts, and outcomes and use of the alternative SSI program rules. Each YTPD project will use the data to evaluate the effectiveness of alternative SSI program rules. In addition, SSA will award a separate contract to evaluate the overall success of the YTPD, aid YTPD projects in their evaluation activities, conduct a process evaluation, and assess cost-effectiveness. The evaluation contractor is to conduct a net-outcomes and process evaluation which will provide information on the effectiveness of interventions, including the effectiveness of alternative SSI program rules, and the feasibility of using different types of comparison groups. It also will collect the project-level data and prepare methodology for measuring transition services and adult outcomes for youth with disabilities.
