

The purpose of the March 11 and March 25 meetings is to bring Project 25 Compliance Assessment Program stakeholders together to discuss what the process will be to assess software based test tools for the Project 25 Compliance Assessment Program. Currently, hardware based test tools require calibration of their output, but software test tools are not explicitly covered. The IEEE-12207-2007 standard will be used as a basis of discussion for the meetings. The results of these and potential subsequent discussions will be used in the development of an addendum to the NIST Handbook 153-2008 to specifically cover the validation of software based test tools.

There is no charge for participation for either meeting. For the first meeting, the registration deadline is March 4, 2009. For the second meeting, because of meeting room restrictions, advance registration is mandatory and limited to three representatives from any one organization. There will be no on-site, same-day registration. The registration deadline for the second meeting is March 13, 2009. A teleconference bridge will be provided for the second meeting for those stakeholders that wish to participate but cannot attend in person.

Anyone wishing to attend the first meeting must register by close of business March 4, 2009, in order to participate. Please submit your name, e-mail address and phone number to Mr. Andrew Thiessen and he will provide you with the logistics information for the meeting. Mr. Thiessen's email address is andrew@its.blrdoc.gov and his phone number is (303) 497-4427.
