BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Project No. 2487-048]

Hydro Power, Inc., Albany Engineering Corporation; Notice of Application for Transfer of License and Soliciting Comments, Motions To Intervene, and Protests

On September 22, 2020, Hydro Power, Inc. (transferor) and Albany Engineering Corporation (transferee) filed a joint application for the transfer of license of the Hoosick Falls Hydroelectric Project No. 2487. The project is located on the Hoosick Falls, Rensselaer County, New York.

The applicants seek Commission approval to transfer the license for the Hoosick Falls Hydroelectric Project from the transferor to the transferee.

Applicants Contact: For transferor and transferee: Mr. James A. Besha, P.E., Albany Engineering Corporation, 5 Washington Square, Albany, NY 12205, Phone: (518) 456-7712 Ext. 402, Fax: (518) 456-8451, Email: jim@albanyengineering.com.

FERC Contact: Anumzziatta Purchiaroni, (202) 502-6191, anumzziatta.purchiaroni@ferc.gov.

Deadline for filing comments, motions to intervene, and protests: 30 days from the date that the Commission issues this notice. The Commission strongly encourages electronic filing. Please file comments, motions to intervene, and protests using the Commission's eFiling system at <http://www.ferc.gov/docs-filing/efiling.asp>. Commenters can submit brief comments up to 6,000 characters, without prior registration,

using the eComment system at <http://www.ferc.gov/docs-filing/ecomment.asp>. You must include your name and contact information at the end of your comments. For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov, (866) 208-3676 (toll free), or (202) 502-8659 (TTY).

In lieu of electronic filing, you may submit a paper copy. Submissions sent via U.S. Postal Service must be addressed to, Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 888 First Street NE, Room 1A, Washington, DC 20426. Submissions sent via any other carrier must be addressed to, Kimberly D. Bose, Secretary, Federal Energy Regulatory Commission, 12225 Wilkins Avenue, Rockville, Maryland 20852. The first page of any filing should include docket number P-2487-048. Comments emailed to Commission staff are not considered part of the Commission record.

Dated: October 26, 2020.

Kimberly D. Bose,

Secretary.

BILLING CODE 6717-01-P

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OECA-2013-0346; FRL-10016-44-OMS]

Information Collection Request Submitted to OMB for Review and Approval; Comment Request; NESHAP for Area Sources: Acrylic and Modacrylic Fibers Production, Carbon Black Production, Chemical Manufacturing: Chromium Compounds, Flexible Polyurethane Foam Production and Fabrication, Lead Acid Battery Manufacturing, and Wood Preserving (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) has submitted an information collection request (ICR), NESHAP for Area Sources: Acrylic and Modacrylic Fibers Production, Carbon Black Production, Chemical Manufacturing: Chromium Compounds, Flexible Polyurethane Foam Production and Fabrication, Lead Acid Battery Manufacturing, and Wood Preserving (EPA ICR Number 2256.06, OMB Control Number 2060-0598), to the Office of Management and Budget (OMB) for review and approval in

accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through December 31, 2020. Public comments were previously requested, via the **Federal Register**, on May 12, 2020 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An agency may neither conduct nor sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted either on or before November 30, 2020.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA-HQ-OECA-2013-0346, online using www.regulations.gov (our preferred method), by email to a-and-r-docket@epa.gov, or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460. EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI), or other information whose disclosure is restricted by statute.

Submit written comments and recommendations to OMB for the proposed information collection within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

FOR FURTHER INFORMATION CONTACT: Patrick Yellin, Monitoring, Assistance, and Media Programs Division, Office of Compliance, Mail Code 2227A, Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460; telephone number: (202) 564-2970; fax number: (202) 564-0050; email address: yellin.patrick@epa.gov.

SUPPLEMENTARY INFORMATION: Supporting documents which explain in detail the information that the EPA will be collecting are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov, or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202-566-1744. For additional

information about EPA's public docket, visit: <http://www.epa.gov/dockets>.

Abstract: EPA established NESHAP for seven area source categories. The requirements for two area source categories (Flexible Polyurethane Foam Production and Flexible Polyurethane Foam Fabrication) are combined in one Subpart. These standards include emissions limitations and work practice requirements for new and existing plants based on the *generally-available* control technology or management practices (GACT) for each area source category. Potential respondents include two existing acrylic and modacrylic production facility, one existing carbon black production plant, two existing chromium product manufacturing facilities, 500 existing flexible polyurethane foam production and fabrication facilities, 41 existing lead acid battery manufacturing facilities, and 393 existing wood preserving facilities. The total annual responses attributable to this ICR for existing sources are two one-time notifications; some existing facilities may be required to prepare a startup, shutdown, and malfunction plan, perform additional monitoring and recordkeeping, and/or conduct an initial performance test. The owner or operator of a new area source would be required to comply with all requirements of the General Provisions (40 CFR part 63, subpart A).

Form Numbers: None.

Respondents/affected entities: Acrylic and modacrylic fibers production, carbon black production, chemical manufacturing; chromium compounds, flexible polyurethane foam production and fabrication, lead acid battery manufacturing, and wood preserving facilities.

Respondent's obligation to respond: Mandatory (40 CFR part 63, subparts LLLLLL, MMMMMM, NNNNNN, OOOOOO, PPPPPP, and QQQQQQ).

Estimated number of respondents: 939 (total).

Frequency of response: Initially, semiannually, and occasionally.

Total estimated burden: 5,730 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$671,000 (per year), which includes no annualized capital/startup and/or operation & maintenance costs.

Changes in the Estimates: There is a decrease in burden from the most-recently approved ICR due to an adjustment. The decrease is due to a decrease in the number of sources as a result of data gathered as part of recent rulemaking efforts related to 40 CFR 63, Subpart P, NESHAP for Lead Acid Battery Manufacturing Area

Sources. Additionally, we have adjusted the number of respondents for 40 CFR 63, Subpart LLLLLL and 40 CFR 63, Subpart MMMMMM to each reflect one additional source. This change is based on our review of facilities with EIS IDs reporting under Subparts LLLLLL and MMMMMM in the EPA's ECHO database. The overall result is a decrease in the number of respondents and the burden hours.

Courtney Kerwin,

Director, Regulatory Support Division.

BILLING CODE 6560-50-P

ENVIRONMENTAL PROTECTION AGENCY

[FRL-10016-27-OA]

Notification of Public Meetings of the Science Advisory Board Radiation Advisory Committee Augmented for the Review of Revision 2 of the Multi-Agency Radiation Survey and Site Investigation Manual (MARSSIM) (Draft for Public Comment)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA or Agency) Science Advisory Board (SAB) Staff Office announces two meetings of the Radiation Advisory Committee (RAC) Augmented for the Review of Revision 2 of the Multi-Agency Radiation Survey and Site Investigation Manual (Draft for Public Comment) (MARSSIM). A public teleconference will be held as a preparatory meeting for the RAC-augmented MARSSIM Panel to receive an Agency briefing, review charge questions, and to hear public comments on Revision 2 of MARSSIM (Draft for Public Comment). This will be followed by a virtual public meeting for the Panel to peer review Revision 2 of MARSSIM (Draft for Public Comment).

DATES: The public teleconference will be held on Thursday, December 3, 2020, from 1:00 p.m. to 5:00 p.m. (Eastern Standard Time). The public meeting will be held remotely via webcast and teleconference on January 11-14, 2021 (Monday-Thursday), from 12:00 p.m. to 5:00 p.m. (Eastern Standard Time).

ADDRESSES: The public teleconference will be held by telephone only. The public virtual meeting will be conducted via webcast and teleconference.

FOR FURTHER INFORMATION CONTACT: Any member of the public wishing further

information regarding these meetings may contact Dr. Diana Wong, Designated Federal Officer (DFO), SAB Staff Office, via email at wong.diana-M@epa.gov. General information concerning the EPA Science Advisory Board can be found at the EPA SAB website at <http://www.epa.gov/sab>.

SUPPLEMENTARY INFORMATION: The SAB was established pursuant to the Environmental Research, Development, and Demonstration Authorization Act (ERDAA) codified at 42 U.S.C. 4365, to provide independent scientific and technical advice to the Administrator on the technical basis for Agency positions and regulations. The SAB is a Federal Advisory Committee chartered under the Federal Advisory Committee Act (FACA), 5 U.S.C., App. 2. The SAB will comply with the provisions of FACA and all appropriate SAB Staff Office procedural policies. Pursuant to FACA and EPA policy, notice is hereby given that the SAB RAC—augmented MARSSIM Panel will hold a public teleconference and a public virtual peer review meeting. The purpose of the teleconference is for the Panel to receive an Agency briefing, review charge questions, and to hear public comments on Revision 2 of the Multi-Agency Radiation Survey and Site Investigation Manual (MARSSIM) (Draft for Public Comment). The purpose of the public virtual review meeting is for the Panel to conduct a peer review on Revision 2 of MARSSIM (Draft for Public Comment). This SAB panel will provide advice to the Administrator through the chartered SAB.

Background: EPA's Office of Air and Radiation (OAR) requested that the SAB conduct a peer review on Revision 2 of Multi-Agency Radiation Survey and Site Investigation Manual (MARSSIM) (Draft for Public Comment). MARSSIM was originally developed by the technical staffs of the four Federal agencies having authority for control of radioactive materials: DoD, DOE, EPA, and NRC (60 FR 12555; March 7, 1995). The four agencies issued Revision 1 to MARSSIM in August 2000, and additional edits to Revision 1 in June 2001. MARSSIM has not been updated since 2001; updates prior to 2001 primarily consisted of minor non-technical edits. Revision 2 updates the science, clarifies methods, and implements lessons learned from over 20 years of the document's use in industry.

MARSSIM provides information on planning, conducting, evaluating, and documenting environmental radiological surveys of surface soil and building surfaces for demonstrating
