

Act¹⁴ and Rule 19b-4(f)(6)¹⁵ thereunder.

A proposed rule change filed under Rule 19b-4(f)(6)¹⁶ normally does not become operative prior to 30 days after the date of the filing. However, pursuant to Rule 19b-4(f)(6)(iii),¹⁷ the Commission may designate a shorter time if such action is consistent with the protection of investors and the public interest. The Exchange has asked the Commission to waive the 30-day operative delay so that the proposed rule change may become operative upon filing. The Exchange requested the waiver because it would enable the Exchange to compete with other exchanges that have recently amended their rules to expand the levels at which orders may be grouped for STP purposes. The Exchange states that at least one such competitor exchange plans to introduce similar capabilities to market participants as early as January 9, 2023. The Exchange also states that it is currently working on technological solutions to meet this competition and to make similar offerings available to market participants as soon as possible. The Exchange expects to begin rolling out this functionality in less than 30 days from the date of filing, and thus requests waiver of the operative delay in order to promptly meet market competition. For these reasons, and because the proposed rule change does not raise any novel regulatory issues, the Commission believes that waiving the 30-day operative delay is consistent with the protection of investors and the public interest. Therefore, the Commission hereby waives the operative delay and designates the proposal operative upon filing.¹⁸

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the

Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.
