BILLING CODE 6210-01-S

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Request for Grant Applications for a Demonstration Project for the Medical Reserve Corps, Citizens Corps, USA Freedom Corps

AGENCY: Department of Health and Human Services, Office of the Secretary, Office of Public Health and Science, Office of the Surgeon General.

ACTION: Notice.

SUMMARY: To provide funding for a demonstration project to demonstrate approaches to establishment of community-based, citizen volunteer Medical Reserve Corps units. Small grants will provide funding to community-based organizations, under the terms of cooperative agreements. The small grants will facilitate start-up of Medical Reserve Corps units and provide information to the Federal Government that will provide insights into best practices in such areas as: (1) Structure and organization, (2) recruitment and verification of credentials, (3) community-level partnership building, (4) competency levels for effective action, (5) training, (6) risk assessment, and (7) strategy development and planning.

Authority: This program is authorized by Section 301 of the Public Health Service Act, as amended, 42 U.S.C.; and, funded under Pub. L. 107-116, Title II, January 10, 2002.

The community-based, volunteer Medical Reserve Corps units are intended to supplement existing

community emergency medical response systems as well as contribute to meeting the public health needs of the community throughout the year. They are not intended to replace or substitute for local, existing emergency response systems. The Medical Reserve Corps should help provide surge capacity during the initial hours following an emergency before assistance from other geographic localities may arrive.

The Medical Reserve Corps will provide an organized framework which will attract volunteers and provide them with skills needed to work effectively in emergency situations. It will help to ensure that the volunteers from Medical Reserve Corps units are deployed locally in a manner that is fully planned and coordinated with broader emergency response plans of the communities in which they are located. Moreover, the Medical Reserve Corps will serve as a mechanism for helping to ensure that volunteers have appropriate credentials for assignments which they will undertake when the Medical Reserve Corps is activated. The Medical Reserve Corps will help facilitate not only coordinated action but provide a greater predictability in volunteer resource capability when and where such services are needed.

The establishment of community-based volunteer Medical Reserve Corps units throughout the Nation will help meet the goal of enabling communities in the United States to be better prepared to respond to emergencies and urgent public health needs. It is anticipated that these community-based Medical Reserve Corps units will grow in number and in quality across the country.

The Medical Reserve Corps demonstration project grants programs will be supported through the cooperative agreement mechanism. This will enable a collaborative relationship between the grantee, the local Medical Reserve Corps unit and the Department of Health and Human Services' (HHS) Office of the Surgeon General. The Office of the Surgeon General will coordinate, through a private-sector contractor(s), technical assistance needed for the implementation, conduct, and assessment of program activities. The Office of the Surgeon General will provide necessary oversight of the program.

Specifically, the Federal Government plans to support the development of Medical Reserve Corps units by:

1. Developing and disseminating a guide, entitled *Medical Reserve Corps—A Guide for Local Officials*, for
