POSTAL SERVICE

Transfer of Additional Post Office Box Locations to Competitive Fee Groups

AGENCY: Postal Service™.

ACTION: Notice with opportunity for comments.

SUMMARY: The Postal Service hereby provides notice that Post Office Box™ service for approximately 1,625 locations will be reassigned from their market-dominant fee groups to competitive fee groups.

DATES: *Effective date:* August 27, 2014.

ADDRESSES: Please address all written comments regarding this notice to United States Postal Service, Retail Services, Room 6801, 475 L'Enfant Plaza SW., Washington, DC 20260-5013.

FOR FURTHER INFORMATION CONTACT:

Direct questions or comments to: Frank Ippolito, Retail Services, frank.p.ippolito@usps.gov, 202-268-4681; or

David Rubin, General Counsel, david.h.rubin@usps.gov, 202-268-2986.

SUPPLEMENTARY INFORMATION: Locations providing Post Office Box service are classified as competitive or market-dominant and assigned to fee groups based upon the Post Office location and other criteria. Competitive fee groups provide more services than market-dominant ones, and have somewhat higher fees.

In May 2011, a *Request of the United States Postal Service* was filed with the Postal Regulatory Commission (PRC) to transfer approximately 6,800 PO Box locations from market-dominant to competitive fee groups, PRC Docket No. MC2011-25. Documents pertinent to that proceeding are available at www.prc.gov, Docket No. MC2011-25. At that time, the Postal Service advised the PRC that a **Federal Register** notice would be filed when future PO Box locations are transferred.

Since the original filing, the Postal Service expanded the competitive service to an additional location, *see* 79 FR 60928-60929 (Oct. 2, 2013), and is now expanding to additional locations. Competitive Post Office Box service includes several enhancements such as: electronic notification of the receipt of mail, use of an alternate street address

format, signature on file for delivery of certain accountable mail, and additional hours of access and/or earlier availability of mail in some locations.

Since 2011, the Postal Service has expanded its use of competitive data to identify locations that qualify for reassignment to competitive status. This analysis identified approximately 1,625 locations which are eligible to be classified as competitive and assigned to a competitive Post Office Box fee group. These include Puerto Rican locations with nearby competitors that were omitted in 2011 but are included now. A list of affected locations, with the associated ZIP Codes, is provided in the Appendix to this notice.

Attorney, Legal Policy & Legislative Advice.

Appendix

Transfer of Additional Post Office Box Locations to Competitive Fee Group—ZIP Code Listing

The following is a list of the locations which are described in the Notice above as qualifying for reassignment from market-dominant to competitive fee groups. The list is sorted by ZIP Code in ascending numerical order with geographical breaks and headers. As indicated by the column headings, this list provides the ZIP Code of the affected PO Boxes (ZIP), the office name of the location (OFFICE NAME), the city where the PO Boxes are located (CITY), the current market-dominant fee group (CFG), and the new competitive fee group (NFG).

Please note that there are more ZIP Codes than locations being moved to competitive fee groups, because some locations serve more than one ZIP Code. These locations can be identified whenever multiple ZIP Codes are listed for a single office name.

SECURITIES AND EXCHANGE COMMISSION

Proposed Collection; Comment Request

Upon Written Request, Copies Available From: U.S. Securities and Exchange Commission, Office of Investor Education and Advocacy, Washington, DC 20549-0213.

Extension:

Rule 15g-9; SEC File No. 270-325, OMB Control No. 3235-0385.

Notice is hereby given that pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), the Securities and Exchange Commission ("Commission") is soliciting comment on the collection of information described below. The Commission plans to submit this existing collection of information to the Office of Management and Budget for extension and approval.

Section 15(c)(2) of the Securities Exchange Act of 1934 (15 U.S.C. 78a *et*

seq.) (the "Exchange Act") authorizes the Commission to promulgate rules that prescribe means reasonably designed to prevent fraudulent, deceptive, or manipulative practices in connection with over-the-counter ("OTC") securities transactions. Pursuant to this authority, the Commission in 1989 adopted Rule 15a-6, which was subsequently redesignated as Rule 15g-9, 17 CFR 240.15g-9 (the "Rule"). The Rule requires broker-dealers to produce a written suitability determination for, and to obtain a written customer agreement to, certain recommended transactions in penny stocks that are not registered on a national securities exchange, and whose issuers do not meet certain minimum financial standards. The Rule is intended to prevent the indiscriminate use by broker-dealers of fraudulent, high pressure telephone sales campaigns to sell penny stocks to unsophisticated customers.

The Commission staff estimates that there are approximately 221 broker-dealers subject to the Rule. The burden of the Rule on a respondent varies widely depending on the frequency with which new customers are solicited. On the average for all respondents, the staff has estimated that respondents process three new customers per week, or approximately 156 new customer suitability determinations per year. We also estimate that a broker-dealer would expend approximately one-half hour per new customer in obtaining, reviewing, and processing (including transmitting to the customer) the information required by Rule 15g-9, and each respondent would consequently spend 78 hours annually (156 customers $\times$.5 hours) obtaining the information required in the rule. We determined, based on the estimate of 221 broker-dealer respondents, that the current annual burden of Rule 15g-9 is 17,238 hours (221 respondents $\times$ 78 hours).

Written comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimates of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information on respondents; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Consideration will be given to comments and suggestions submitted in
