Federal Emergency Management Agency

44 CFR Part 64

[Docket ID FEMA-2015-0001; Internal Agency Docket No. FEMA-8375]

Suspension of Community Eligibility

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Final rule.

SUMMARY: This rule identifies communities where the sale of flood insurance has been authorized under the National Flood Insurance Program (NFIP) that are scheduled for suspension on the effective dates listed within this rule because of noncompliance with the floodplain management requirements of the program. If the Federal Emergency Management Agency (FEMA) receives documentation that the community has adopted the required floodplain management measures prior to the effective suspension date given in this

rule, the suspension will not occur and a notice of this will be provided by publication in the **Federal Register** on a subsequent date. Also, information identifying the current participation status of a community can be obtained from FEMA's Community Status Book (CSB). The CSB is available at <http://www.fema.gov/fema/csb.shtm>.

DATES: The effective date of each community's scheduled suspension is the third date ("Susp.") listed in the third column of the following tables.

FOR FURTHER INFORMATION CONTACT: If you want to determine whether a particular community was suspended on the suspension date or for further information, contact Bret Gates, Federal Insurance and Mitigation Administration, Federal Emergency Management Agency, 500 C Street SW., Washington, DC 20472, (202) 646-4133.

SUPPLEMENTARY INFORMATION: The NFIP enables property owners to purchase Federal flood insurance that is not otherwise generally available from private insurers. In return, communities agree to adopt and administer local floodplain management measures aimed at protecting lives and new construction from future flooding. Section 1315 of the National Flood Insurance Act of 1968, as amended, 42 U.S.C. 4022, prohibits the sale of NFIP flood insurance unless an appropriate public body adopts adequate floodplain management measures with effective enforcement measures. The communities listed in this document no longer meet that statutory requirement for compliance with program regulations, 44 CFR part 59.

Accordingly, the communities will be suspended on the effective date in the third column. As of that date, flood insurance will no longer be available in the community. We recognize that some of these communities may adopt and submit the required documentation of legally enforceable floodplain management measures after this rule is published but prior to the actual suspension date. These communities

will not be suspended and will continue to be eligible for the sale of NFIP flood insurance. A notice withdrawing the suspension of such communities will be published in the **Federal Register**.

In addition, FEMA publishes a Flood Insurance Rate Map (FIRM) that identifies the Special Flood Hazard Areas (SFHAs) in these communities. The date of the FIRM, if one has been published, is indicated in the fourth column of the table. No direct Federal financial assistance (except assistance pursuant to the Robert T. Stafford Disaster Relief and Emergency Assistance Act not in connection with a flood) may be provided for construction or acquisition of buildings in identified SFHAs for communities not participating in the NFIP and identified for more than a year on FEMA's initial FIRM for the community as having flood-prone areas (section 202(a) of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4106(a), as amended). This prohibition against certain types of Federal assistance becomes effective for the communities listed on the date shown in the last column. The Administrator finds that notice and public comment procedures under 5 U.S.C. 553(b), are impracticable and unnecessary because communities listed in this final rule have been adequately notified.

Each community receives 6-month, 90-day, and 30-day notification letters addressed to the Chief Executive Officer stating that the community will be suspended unless the required floodplain management measures are met prior to the effective suspension date. Since these notifications were made, this final rule may take effect within less than 30 days.

National Environmental Policy Act. This rule is categorically excluded from the requirements of 44 CFR part 10, Environmental Considerations. No environmental impact assessment has been prepared.

Regulatory Flexibility Act. The Administrator has determined that this

rule is exempt from the requirements of the Regulatory Flexibility Act because the National Flood Insurance Act of 1968, as amended, Section 1315, 42 U.S.C. 4022, prohibits flood insurance coverage unless an appropriate public body adopts adequate floodplain management measures with effective enforcement measures. The communities listed no longer comply with the statutory requirements, and after the effective date, flood insurance will no longer be available in the communities unless remedial action takes place.

Regulatory Classification. This final rule is not a significant regulatory action under the criteria of section 3(f) of Executive Order 12866 of September 30, 1993, Regulatory Planning and Review, 58 FR 51735.

Executive Order 13132, Federalism. This rule involves no policies that have federalism implications under Executive Order 13132.

Executive Order 12988, Civil Justice Reform. This rule meets the applicable standards of Executive Order 12988.

Paperwork Reduction Act. This rule does not involve any collection of information for purposes of the Paperwork Reduction Act, 44 U.S.C. 3501 *et seq.*

Fisheries of the Exclusive Economic Zone Off Alaska; Groundfish of the Gulf of Alaska; Groundfish of the Bering Sea and Aleutian Islands Off Alaska

AGENCY: National Marine Fisheries
Service (NMFS), National Oceanic and
Atmospheric Administration (NOAA),
Commerce.

ACTION: Final rule.

SUMMARY: NMFS issues regulations to
implement Amendment 100 to the
Fishery Management Plan for
Groundfish of the Bering Sea and
Aleutian Islands Management Area
(BSAI FMP) and Amendment 91 to the
Fishery Management Plan for
Groundfish of the Gulf of Alaska (GOA
FMP). This final rule adds regulations to
improve reporting of grenadiers, limit
retention of grenadiers, and prevent
direct fishing for grenadiers by federally
permitted groundfish fishermen. This
final rule is necessary to limit and
monitor the incidental catch of
grenadiers in the groundfish fisheries.
This action is intended to promote the
goals and objectives of the Magnuson-
Stevens Fishery Conservation and
Management Act, the FMPs, and other
applicable law.

DATES: Effective April 6, 2015.

ADDRESSES: Electronic copies of

SUPPLEMENTARY INFORMATION: This final
rule implements Amendment 100 to the
BSAI FMP and Amendment 91 to the
GOA FMP, collectively Amendments
100/91. NMFS published a notice of
availability for Amendments 100/91 on
May 5, 2014 (79 FR 25558). The
comment period on Amendments 100/
91 ended on July 7, 2014. NMFS
published a proposed rule to implement
Amendments 100/91 on May 14, 2014
(79 FR 27557). The comment period on
the proposed rule ended on June 13,
2014. NMFS approved Amendments
100/91 on August 4, 2014. Additional
detail on this action is provided in the
notice of availability for Amendment
100/91 (79 FR 25558, May 5, 2014) and
the proposed rule (79 FR 27557, May 14,
2014). NMFS received three comment
letters on Amendments 100/91 and the
proposed rule.

NMFS manages groundfish fisheries
in the exclusive economic zone off
Alaska under the BSAI FMP and GOA
FMP. The North Pacific Fishery
Management Council (Council)
prepared the FMPs under the authority
of the Magnuson-Stevens Fishery
Conservation and Management Act
(Magnuson-Stevens Act), 16 U.S.C.
1801, *et seq.* Regulations governing U.S.
fisheries and implementing the FMPs
appear at 50 CFR parts 600 and 679.

Background

The groundfish fisheries in the BSAI
and GOA incidentally catch grenadiers
(family *Macrouridae*) while harvesting
other groundfish species. Grenadiers
caught off Alaska are comprised of three
species: Giant grenadiers (*Albatrossia*
pectoralis), Pacific grenadiers

(*Coryphaenoides acrolepis*), and popeye
greandiers (*Coryphaenoides cinereus*).
More than 90 percent of all grenadiers
incidentally caught or obtained in
surveys are giant grenadiers. Pacific
grenadiers and popeye grenadiers
typically occur at depths greater than
most commercial fisheries or surveys
and are rarely encountered (see Section
3.2 of the Analysis for additional detail).

For many years, the Council has
considered how best to classify
grenadiers in the FMPs. As explained in
Section 1.2 of the Analysis (see
ADDRESSES), from 1980 to 2010,
grenadiers were included in the FMPs
in the nonspecified species category.
Nonspecified species were defined as a
residual category of species and species
groups which had no current or
foreseeable economic value or
ecological importance, which were
taken in the groundfish fishery as
incidental catch and were in no
apparent danger of depletion, and for
which virtually no data existed that
would allow population assessments.

In 2010, the Council recommended
and NMFS removed the nonspecified
species category from the FMPs when
the FMPs were revised to meet the
requirements of the Magnuson-Stevens
Act as amended by the Magnuson-
Stevens Fishery Conservation and
Management Reauthorization Act of
2007 (Pub. L. 109-479). The amended
Magnuson-Stevens Act required NMFS
and the Council to establish annual
catch limits (ACLs) and accountability
measures (AMs) for fisheries in the
FMP. The Council recommended and
NMFS implemented Amendment 96 to
the BSAI FMP and Amendment 87 to
the GOA FMP to meet these
requirements (Amendments 96/87, 75
FR 61639, October 6, 2010). The
nonspecified species, including
grenadiers, were removed from the
FMPs because these species were too
poorly understood to set ACLs and AMs
or to develop a management regime.

Amendments 96/87 also amended the
FMPs to organize the species remaining
in the FMPs according to the National
Standard 1 guidelines (§ 600.310). In the
National Standard 1 guidelines, NMFS
recommends two categories for species
in an FMP: "Stocks in the fishery" and
"ecosystem component (EC) species."

"Stocks in the fishery" are defined in
the National Standard 1 guidelines
(§ 600.310(d)(2)). "Stocks in the fishery"
include (1) stocks that are targeted, and
retained for sale or personal use; (2)
stocks that are not directly targeted but
are taken incidentally in other directed
fisheries, and are retained for sale or
personal use; and (3) stocks not targeted
or retained but are taken as incidental
