amended by the Every Student Succeeds Act (ESSA) (20 U.S.C. 7171-7176) is to create community learning centers that provide academic enrichment opportunities for children, particularly students who attend high poverty and low-performing schools, to meet State and local student standards in core academic subjects, to offer students a broad array of enrichment activities that can complement their regular academic programs, and to offer literacy and other educational services to the families of participating children. Present in all 50 states, the District of Columbia, Puerto Rico, U.S. Virgin Islands, and the Bureau of Indian Education, academic enrichment and youth development programs are designed to enhance participants' well-being and academic success. The Department of Education (ED) is requesting authorization for an extension to collect data for 21st CCLC programs. The core purpose is to collect information on the performance indicators associated with the 21st CCLC program to report to Congress annually on the implementation and progress of 21st CCLC projects. All elements collected serve to meet the reporting requirements of the GPRAs. These metrics delivered in the form of an Annual Performance Report (APR) are the primary way the federal government determines the success and progress of the 21st CCLC program based on the statutory requirements.
