Title: NESHAP for Vinyl Chloride (Renewal).

ICR Numbers: EPA ICR Number 0186.12, OMB Control Number 2060-0071.

ICR Status: This ICR is scheduled to expire on May 31, 2011. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, are displayed either by publication in the **Federal Register** or by other

appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

Abstract: The affected entities are subject to the General Provisions of the NESHAP at 40 CFR part 61, subpart A, and any changes, or additions to the General Provisions specified at 40 CFR part 61, subpart F.

Owners or operators of the affected facilities must submit a one-time-only report of any physical or operational changes, initial performance tests, and periodic reports and results. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. Reports, at a minimum, are required quarterly.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 60 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Owners or operators of vinyl chloride production facilities.

Estimated Number of Respondents: 28.

Frequency of Response: Initially, quarterly and on occasion.

Estimated Total Annual Hour Burden: 11,826.

Estimated Total Annual Cost: \$2,369,531, which includes \$1,109,531 in labor costs, no capital/startup costs and \$1,260,000 in operation and maintenance (O&M) costs.

Changes in the Estimates: There is no change in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This is due to two considerations. First, the regulations have not changed over

the past three years and are not anticipated to change over the next three years. Secondly, the growth rate for the respondents is very low, negative, or non-existent. It should be noted that there is an apparent increase of one hour in respondent labor hours. This is due to the retention of decimal places in the Table 1 calculations and final rounding.

The capital/startup and operation and maintenance costs remain the same. The increase in cost to respondents is due to updating of the labor rates to reflect the most recent available estimates.

Dated: April 4, 2011.

Director, Collection Strategies Division.

Notice

In accordance with Section 309(a) of the Clean Air Act, EPA is required to make its comments on EISs issued by other Federal agencies public. Historically, EPA met this mandate by publishing weekly notices of availability of EPA comments, which includes a brief summary of EPA's comment letters, in the **Federal Register**. Since February 2008, EPA has included its comment letters on EISs on its Web site at: <http://www.epa.gov/compliance/nepa/eisdata.html>. Including the entire EIS comment letters on the Web site satisfies the Section 309(a) requirement to make EPA's comments on EISs available to the public. Accordingly, on March 31, 2010, EPA discontinued the publication of the notice of availability of EPA comments in the **Federal Register**.
