

rockfish to one fish, the establishment of voluntary no-take marine reserves, and the 2004 regulation restricting spear and recreational fishing for rockfish to periods when fisheries are open for lingcod and hatchery Chinook salmon. We recognize that the petitioner believes that WDFW could enact regulations to further protect Puget Sound rockfish stocks. However, the fishing regulations the petitioner criticizes represent a reduction from previous fishing levels, and do not portend an increasing threat due to fishing bycatch and mortality.

The petitioner is particularly concerned that the production of hatchery Chinook salmon in Puget Sound negatively affects rockfish stocks through the competition for limited food resources. The petitioner also feels that harvest directed at hatchery Chinook salmon results in significant bycatch of rockfish. However, he has presented no information in the petition to provide support for these contentions.

#### Petition Finding

After reviewing the information contained in the petition, as well as information readily available to our scientists, we determine that the petition fails to present substantial scientific or commercial information indicating the petitioned actions may be warranted.

**AGENCIES:** Department of Defense (DOD), General Services Administration (GSA), and National Aeronautics and Space Administration (NASA).

**ACTION:** Notice of request for public comments regarding an extension to an existing OMB clearance (9000-0138).

**SUMMARY:** Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the Federal Acquisition Regulation (FAR) Secretariat has submitted to the Office of Management and Budget (OMB) a request to review and approve an extension to a currently approved information collection requirement concerning contract financing. A request for public comments was published in the **Federal Register** at 72 FR 31815, June 8, 2007. No comments were received.

**Public comments are particularly invited on:** Whether this collection of information is necessary for the proper performance of functions of the FAR, and whether it will have practical utility; whether our estimate of the public burden of this collection of information is accurate, and based on valid assumptions and methodology; ways to enhance the quality, utility, and clarity of the information to be collected; and ways in which we can minimize the burden of the collection of information on those who are to respond, through the use of appropriate technological collection techniques or other forms of information technology.

**DATES:** Submit comments on or before November 5, 2007.

**ADDRESSES:** Submit comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to: FAR Desk Officer, OMB, Room 10102, NEOB, Washington, DC

**SUPPLEMENTARY INFORMATION:**

**A. Purpose**

The Federal Acquisition Streamlining Act (FASA) of 1994, Pub. L. 103-355, provided authorities that streamlined the acquisition process and minimize burdensome Government-unique requirements. Sections 2001 and 2051 of FASA substantially changed the statutory authorities for Government financing of contracts. Sections 2001(f) and 2051(e) provide specific authority for Government financing of purchases of commercial items, and sections 2001(b) and 2051(b) substantially revised the authority for Government financing of purchases of non-commercial items.

Sections 2001(f) and 2051(e) provide specific authority for Government financing of purchases of commercial items. These paragraphs authorize the Government to provide contract financing with certain limitations.

Sections 2001(b) and 2051(b) also amended the authority for Government financing of non-commercial purchases by authorizing financing on the basis of certain classes of measures of performance.

To implement these changes, DOD, NASA, and GSA amended the FAR by revising Subparts 32.0, 32.1, and 32.5; by adding new Subparts 32.2 and 32.10; and by adding new clauses to 52.232.

The coverage enables the Government to provide financing to assist in the performance of contracts for commercial items and provide financing for non-commercial items based on contractor performance.

**B. Annual Reporting Burden**

Public reporting burden for this collection of information is estimated to average 2 hours per request for commercial financing and 2 hours per request for performance-based financing, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

The annual reporting burden for commercial financing is estimated as follows:

*Respondents:* 1,000.

*Responses Per Respondent:* 5.

*Total Responses:* 5,000.

*Hours Per Response:* 2.

*Total Burden Hours:* 10,000.

The annual reporting burden for performance-based financing is estimated as follows:

*Respondents:* 500.

*Responses Per Respondent:* 12.

*Total Responses:* 6,000.

*Hours Per Response:* 2.

*Total Burden Hours:* 12,000.

*Obtaining Copies of Proposals:*

Requesters may obtain a copy of the information collection documents from the General Services Administration, Regulatory Secretariat (VIR), 1800 F Street, NW, Room 4035, Washington, DC 20405, telephone (202) 501-4755. **SUPPLEMENTARY INFORMATION:**

**A. Purpose**

This information collection complies with Section 6002 of the Resource Conservation and Recovery Act (RCRA) (42 U.S.C. 6962). RCRA requires the Environmental Protection Agency (EPA) to designate items which are or can be produced with recovered materials. RCRA further requires agencies to develop affirmative procurement programs to ensure that items composed of recovered materials will be purchased to the maximum extent practicable. Affirmative procurement programs required under RCRA must contain, as a minimum (1) a recovered materials preference program and an agency promotion program for the preference program; (2) a program for requiring estimates of the total percentage of recovered materials used in the performance of a contract, certification of minimum recovered material content actually used, where appropriate, and reasonable verification procedures for estimates and certifications; and (3) annual review and monitoring of the effectiveness of an agency's affirmative procurement program.

The items for which EPA has designated minimum recovered material content standards are grouped into eight categories: (1) construction products, (2) landscaping products, (3) nonpaper office products, (4) paper and paper products, (5) park and recreation products, (6) transportation products, (7) vehicular products, and (8) miscellaneous products. The FAR rule also permits agencies to obtain pre-award information from offerors regarding the content of items which the agency has designated as requiring minimum percentages of recovered materials. There are presently no known agency designated items.

In accordance with RCRA, the information collection applies to acquisitions requiring minimum percentages of recovered materials, when the price of the item exceeds \$10,000 or when the aggregate amount paid for the item or functionally
