Any person desiring to intervene or to protest in any of the above proceedings must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214) on or before 5 p.m. Eastern time on the specified comment date. It is not necessary to separately intervene again in a subdocket related to a compliance filing if you have previously

intervened in the same docket. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant. In reference to filings initiating a new proceeding, interventions or protests submitted on or before the comment deadline need not be served on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper, using the FERC Online links at <http://www.ferc.gov>. To facilitate electronic service, persons with Internet access who will eFile a document and/or be listed as a contact for an intervenor must create and validate an eRegistration account using the eRegistration link. Select the eFiling link to log on and submit the intervention or protests.

Persons unable to file electronically should submit an original and 14 copies of the intervention or protest to the Federal Energy Regulatory Commission, 888 First St., NE., Washington, DC 20426.

The filings in the above proceedings are accessible in the Commission's eLibrary system by clicking on the appropriate link in the above list. They are also available for review in the Commission's Public Reference Room in Washington, DC. There is an eSubscription link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail FERCOnlineSupport@ferc.gov, or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

BP West Coast Products LLC and ExxonMobil Oil Corporation, Complainants, v. SFPP, L.P., Respondent; Notice of Complaint

August 11, 2008.

Take notice that on August 8, 2008, BP West Coast Products LLC and

ExxonMobil Oil Corporation (Complainants) tendered for filing a complaint against the rates of SFPP, L.P. (SFPP), in effect as of the date of complaint. Complainants request that the Commission set the proceeding for hearing and investigation; appoint a settlement judge to supervise settlement negotiations; terminate SFPP's collection of excess profits from shippers and consumers; establish just and reasonable rates; require the payment of reparations, with interest, compounded quarterly, starting two years before the date of complaint for all rates; not permit "indexing forward" of the resulting rates; and award such other relief as is necessary and appropriate under the Interstate Commerce Act.

Complainants state that copies of the complaint were served on SFPP.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. The Respondent's answer and all interventions, or protests must be filed on or before the comment date. The Respondent's answer, motions to intervene, and protests must be served on the Complainants.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 14 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the "eLibrary" link and is available for review in the Commission's Public Reference Room in Washington, DC. [Project No. 2535-110]

South Carolina Electric & Gas Company; Notice of Availability of Environmental Assessment

August 8, 2008.

An environmental assessment (EA) is available for public review. The EA was prepared for an application filed by South Carolina Electric & Gas Company on October 26, 2007, requesting the Commission's authorization to permit the Columbia County Water and Sewerage System (Columbia) to increase the maximum allowable rate of water withdrawn from the Stevens Creek Project reservoir from 10 to 47.1 million gallons per day.

The EA evaluates the environmental impacts that would result from permitting Columbia to withdraw additional water from the Stevens Creek reservoir. The proposal would include no construction activity because the existing facilities are sufficient to allow the increase in water withdrawn. The EA finds that approval of the application would not constitute a major federal action significantly affecting the quality of the human environment.

A copy of the EA is attached to a Commission order titled "Order Modifying and Approving Non-Project Use of Project Lands and Waters," issued August 8, 2008, and is available for review at the Commission in the Public Reference Room, or it may be viewed on the Commission's Web site at <http://www.ferc.gov> using the eLibrary link. Enter the docket number "P-2535" in the docket field to access the document. For assistance, call toll-free 1-(866)-208-3372 or (202) 502-8659 (for TTY).

[Project No. 459-226]

Union Electric Company, dba AmerenUE; Notice of Availability of Environmental Assessment

August 8, 2008.

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission) regulations, 18 CFR part 380 (Order No. 486, 52 FR 47897), the Office of Energy Projects has reviewed an application for non-project use of project lands and waters at the Osage Project (FERC No. 459) and has prepared an Environmental Assessment (EA) for the proposed non-project use. The non-project use of project lands and waters is located near mile marker 31.2+3.3 on the Big Niangua Arm of the Lake of the Ozarks, in Camden County, Missouri. The Osage Project is located in Benton, Camden, Miller, and Morgan counties, Missouri.

In the application, Union Electric Company, dba AmerenUE requests Commission approval to authorize Lake Development LLC to construct 12 boat docks with 384 covered boat slips and 36 personal watercraft slips. The EA contains Commission staff's analysis of the probable environmental impacts of the proposal and concludes that approving the licensee's application, with staff's recommended environmental measures, would not constitute a major federal action significantly affecting the quality of the human environment.

The EA is attached to a Commission order titled "Order Modifying and Approving Non-Project Use of Project Lands and Waters," which was issued August 7, 2008, and is available for review and reproduction at the Commission's Public Reference Room, located at 888 First Street, NE., Room 2A, Washington, DC 20426. The EA may also be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link.
