SUPPLEMENTARY INFORMATION: The total number of responses and burden hours associated with the renewal are the same as those in the currently approved Information Collection.

Title: Regulations Governing Inspection Certification of Fresh & Processed Fruits, Vegetables, & Other Products.

OMB Number: 0581–0125.

Expiration Date of Approval: March 31, 2022.

Type of Request: Extension of a currently approved information collection.

Abstract: The Agricultural Marketing Act of 1946, (7 U.S.C. 1621–1627) as amended authorizes the Agricultural Marketing Service, Specialty Crops Program, Specialty Crops Inspection Division to provide inspection and certification of the quality and condition of agricultural products. The Specialty Crops Inspection Division provides a nationwide inspection, grading, and auditing service for fresh and processed fruits, vegetables, and other products for shippers, importers, processors, sellers, buyers, and other financially interested parties on a user-fee basis. Services are voluntary and made available only upon request or when specified by a special program or contract. Information is needed to carry out the inspection, grading, or auditing services, including: the name and location of the person or company requesting service; the type and location of product to be inspected/audited; the type of service requested; and, information that identifies the product or type and scope of audit requested. This is a request for renewal of the currently approved OMB 0581–0125 Regulations Governing Inspection Certification of Fresh & Processed Fruits, Vegetables, & Other Products.

Estimate of Burden: Public reporting burden for this collection is estimated to average 0.13 hours per response.

Respondents: Business or other for-profit or nonprofit organization, farm, or Federal, State, local or Tribal government.

Estimated Number of Respondents: 60,000.

Estimated Total Annual Responses: 194,176.

Estimated Number of Responses per Respondent: 3.24.

Estimated Total Annual Burden on Respondents: 25,282 hours.

Comments are invited on: (1) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical use; (2) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or forms of information technology.

All responses to this notice will be summarized and included in the request for Office of Management and Budget approval. All comments will become a matter of public record, including any personal information provided.

Erin Morris,

Associate Administrator, Agricultural Marketing Service.

SUPPLEMENTARY INFORMATION:

Title: Imports of Live Fish, Fertilized Eggs, and Gametes from Tilapia Lake Virus-Susceptible Species.

OMB Control Number: 0579–0473.

Type of Request: Extension of approval of an information collection.

Abstract: Under the Animal Health Protection Act (7 U.S.C. 8301 *et seq.*), the Animal and Plant Health Inspection Service (APHIS) of the U.S. Department of Agriculture (USDA) is authorized, among other things, to prohibit or restrict the importation and interstate movement of animals and animal products to prevent the introduction into and dissemination within the United States of livestock diseases and pests. To carry out this mission, APHIS regulates the importation of animals and animal products into the United States.

The U.S. aquaculture industry experienced an outbreak of tilapia lake virus (TiLV) in March 2019, and APHIS

determined that the introduction and establishment of TiLV posed a serious threat to U.S. agriculture. Subsequently, APHIS published a Federal Order¹ in November 2019 placing certain import requirements on all live fish, fertilized eggs, and gametes from TiLV-susceptible species imported from all countries. At this time, the Federal Order remains in effect. These imported items must be accompanied by a USDA-issued import permit, an official veterinary health certificate, and evidence of a U.S. veterinary inspection before being allowed entry into the United States.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities, as described, for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

- (1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;
- (2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;
- (3) Enhance the quality, utility, and clarity of the information to be collected; and

- (4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; *e.g.*, permitting electronic submission of responses.

Estimate of burden: The public burden for this collection of information is estimated to average 0.86 hours per response.

Respondents: State animal health officials, importers, and veterinarians.

Estimated annual number of respondents: 57.

Estimated annual number of responses per respondent: 2.

Estimated annual number of responses: 114.

Estimated total annual burden on respondents: 98 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Order Renewing Temporary Denial of Export Privileges, Quicksilver Manufacturing, Inc., 8209 Market St. #A173, Wilmington, NC 28411; Rapid Cut LLC, 8209 Market St. #A173, Wilmington, NC 28411; US Prototype, Inc., 8209 Market St. #A173, Wilmington, NC 28411

Pursuant to section 766.24 of the Export Administration Regulations, 15 CFR parts 730–774 (2021) (“EAR” or “the Regulations”),¹ I hereby grant the request of the Office of Export Enforcement (“OEE”) to renew the temporary denial order (“TDO”) issued in this matter on June 7, 2022. I find that renewal of this order is necessary in the public interest to prevent an imminent violation of the Regulations.

I. Procedural History

On June 7, 2022, an order was issued denying the export privileges under the Regulations of Quicksilver Manufacturing, Inc. (“Quicksilver”), Rapid Cut LLC (“Rapid Cut”), and US Prototype, Inc. (“US Prototype”) (collectively Respondents) for a period of 180 days on the ground that issuance of the order was necessary in the public interest to prevent an imminent violation of the Regulations. The order was issued *ex parte* pursuant to section

¹ On August 13, 2018, the President signed into law the John S. McCain National Defense Authorization Act for Fiscal Year 2019, which includes the Export Control Reform Act of 2018, 50 U.S.C. 4801–4852 (“ECRA”). While Section 1766 of ECRA repeals the provisions of the Export Administration Act, 50 U.S.C. App. 2401 *et seq.* (“EAA”), (except for three sections which are inapplicable here), section 1768 of ECRA provides, in pertinent part, that all orders, rules, regulations, and other forms of administrative action that were made or issued under the EAA, including as continued in effect pursuant to the International Emergency Economic Powers Act, 50 U.S.C. 1701 *et seq.* (“IEEPA”), and were in effect as of ECRA’s date of enactment (August 13, 2018), shall continue in effect according to their terms until modified, superseded, set aside, or revoked through action undertaken pursuant to the authority provided under ECRA. Moreover, section 1761(a)(5) of ECRA authorizes the issuance of temporary denial orders. 50 U.S.C. 4820(a)(5).
