

- Section 418.76(k)(2), to address the requirement for instructions to be prepared by the interdisciplinary group.
- Section 418.104(c), to include reference to 45 CFR parts 160 and 164.
- Section 418.106(b)(1)(iii), to address this requirement to allow a physician assistant to order drugs in accordance with state scope of practice requirements and hospice policy.
- Section 418.110(d)(2), to address the regulatory Life Safety Code (LSC) waiver requirement.

- Section 418.110(d)(3), to address the requirement that the provisions of the adopted edition of the LSC do not apply in a State if we find that a fire and safety code imposed by State law adequately protects patients in hospices.
- Section 418.110(e)(2), to address the Health Care Facilities Code waiver allowance.

In addition to the standards review, we also reviewed CHAP's comparable survey processes, which were conducted as described in section III. of this notice, and yielded the following areas where, as of the date of this notice, CHAP has completed revising its survey processes to demonstrate that it uses survey processes that are comparable to state survey agency processes by:

- Revising CHAP's surveyor guide to include comparable guidance relating to situations that might require discontinuation or refusal to conduct exit conference activities or share with CMS additional materials that are used by CHAP hospice program surveyors.
- Revising CHAP's surveyor guidance to be comparable with Appendix M related to inpatient hospice care.
- Revising CHAP's surveyor guide to include comparable guidance on reviewing personnel records for training requirements.
- Revising CHAP's Hospice Accreditation Processes and resources to include the applicable sections of the Health Care Facilities Code (HCFC) and National Fire Protection Agency (NFPA 101) in accordance with § 418.110.
- Ensuring that all Hospice LSC surveyors have received comparable, adequate training or have sufficient experience to make them qualified to survey health care facilities to both the 2012 editions of LSC and HCFC, and 2013 edition of the Fire Safety Evaluation System NFPA 101A Fire Safety for Health Care Occupancies.

- Revising CHAP's survey process to require pre-survey preparation to include review of the 2012 editions of the LSC and HCFC.

- Revising CHAP's LSC Survey Checklist and LSC citation documentation process to ensure all applicable regulations, LSC/HCFC sections, and CHAP standards are referenced in the survey report and provide surveyor training, as necessary.

B. Term of Approval

Based on our review and observations described in section III. of this final notice, we approve CHAP as a national accreditation organization for hospices that request participation in the Medicare program, effective November 20, 2024 through November 20, 2029.
