

2. Improvement of Capital Availability and Accessibility Through Existing and New Programs

- Continue ongoing federal financing programs, such as the Small Business Administration 7(a), 504 and Community Express programs and the Department of the Treasury's Community Development Financial Institutions Fund that have increased capital accessibility for minority businesses and other under-served communities.

- Implement a National Capital Access program, which allows banks and other financial institutions to make loans to higher-risk borrowers.

- Develop a national mezzanine-financing program.

3. Provision of Expanded Access to Management and Technical Assistance

- Tie existing and new financing vehicles to technical and management assistance appropriate for the type of firm receiving the financing.

- Focus provision of services to businesses with \$100,000 or more in annual revenues, as businesses of this size are responsible for approximately 95 percent of all employees retained by minority firms and nearly 92 percent of minority business revenues.

- Develop tiering mechanisms for provision of management and technical assistance services promoting increased efficiency and innovation within the minority business community.

- Create best practices and performance measurements for service providers.

4. Integration of the Investment Community, Minority Entrepreneurs, and the Federal Government

- Coordinate federal programs supporting minority business financing and increase minority business utilization of these programs.

- Support existing mechanisms for integrating entrepreneurs with financial institutions, especially with respect to venture capital.

- Promote increased collaborations between institutions with experience and expertise investing and lending to the minority business community and mainstream institutions.

For additional background on MBDA's proposals, please go to MBDA's Web site at <http://www.mbda.gov>. In particular, the Agency would like to receive any suggestions on additional approaches or options that may be included in a final report. If respondents believe that the identified issues are impractical or present serious difficulties in implementation, please note this in the comments.

The comments received will be reviewed for applicability to the issues addressed. MBDA will consider only those comments that address (1) existing successful models that could be enhanced and replicated, and (2) where there is sufficient interest within MBDA to adopt the comments, or there exists the likelihood of creating such interest. If any comments received meet the criteria, they will be included within the final report.
