DEPARTMENT OF HOMELAND SECURITY

Office of the Secretary

Published Privacy Impact Assessments on the Web

AGENCY: Privacy Office, DHS.

ACTION: Notice of publication of Privacy Impact Assessments (PIA).

SUMMARY: The Privacy Office of the Department of Homeland Security (DHS or Department) is making available fifteen new or updated PIAs on various programs and systems in DHS. These assessments were approved and published on the Privacy Office's Web site between March 1, 2012 and May 31, 2012.

DATES: The PIAs will be available on the DHS Web site until October 1, 2012, after which they may be obtained by contacting the DHS Privacy Office (contact information below).

FOR FURTHER INFORMATION CONTACT:

Mary Ellen Callahan, Chief Privacy Officer, Department of Homeland Security, Washington, DC 20528, or email: pia@hq.dhs.gov.

SUPPLEMENTARY INFORMATION: Between March 1, 2012 and May 31, 2012, the Department's Chief Privacy Officer approved and published fifteen Privacy Impact Assessments (PIAs) on the DHS Privacy Office Web site, www.dhs.gov/privacy, under the link for "Privacy Impact Assessments." These PIAs cover fifteen separate DHS programs and systems. Below is a short summary of those programs and systems, indicating the responsible DHS component and the date on which the PIA was approved. Additional information can be found on the Web site or by contacting the Privacy Office.

System: DHS/USSS/PIA-009 Field Investigative Reporting System (FIRS).

Component: United States Secret Service (USSS).

Date of approval: March 7, 2012.

The USSS has created the Field Investigative Reporting System (FIRS). The USSS's Criminal Investigative Division is the business owner of FIRS. FIRS consists of seven applications for the reporting of law enforcement activities that fall within the USSS's jurisdiction, such as investigating counterfeiting and electronic crimes.

The USSS completed this PIA because FIRS is a new system that contains PII about the subjects of criminal investigations.

System: DHS/NPPD/PIA-010(a) Federal Protective Service (FPS) Dispatch Incident Records Management System Update.

Component: National Protection and Programs Directorate (NPPD).

Date of approval: March 13, 2012.

The PIA updates the NPPD's FPS Dispatch and Incident Record Management Systems to add the Field Interview Report (FIR) system to its suite of records management systems and to include administrative changes to the existing PIA. FPS uses the FIR system to collect and analyze information from field interviews, contacts, and stops at protected federal facilities around the country that have been identified as a significant vulnerability. NPPD updated this PIA because this new FIR system provides a new mechanism to collect additional/new PII about members of the public.

System: DHS/MGMT/PIA-006 Email Secure Gateway (EMSG).

Component: Directorate for Management.

Date of approval: March 22, 2012.

The Department manages and operates the EMSG, which is used by all DHS email users. This service was previously managed under the DHS Directory Services Electronic Mail System. EMSG handles email traffic in, out, and between DHS, its components, and the Internet, and provides a directory of users' official contact information. This PIA was conducted to assess the risk associated with the PII that is received and processed within the EMSG system. This PIA does not cover the PII that may be contained within the body of an email or attachment.

System: DHS/FEMA/PIA-021 Advanced Call Center Network (ACCN) Platform.

Component: Federal Emergency Management Agency (FEMA).

Date of approval: March 4, 2012.

FEMA, Office of Response and Recovery, Recovery Directorate, Individual Assistance Division, operates the ACCN Platform. ACCN provides intelligent call routing for FEMA's National Processing and Service Centers in support of disaster survivors who are applicants for FEMA individual assistance ("individual assistance disaster applicants"). The purpose of this system is to provide applicants requesting assistance under the Robert T. Stafford Disaster Relief and Emergency Assistance Act, the highest quality of technology and support

services. FEMA conducted this PIA because ACCN uses individual assistance disaster applicants' PII to provide status updates regarding their individual assistance disaster application.

System: DHS/FEMA/PIA-022 Student Training/Exercise Application and Registration Records (STARRS).

Component: FEMA.

Date of approval: March 29, 2011.

FEMA collects, uses, maintains, retrieves, and disseminates STARRS of training sponsors, hosts, and attendees and conducts numerous training and exercise programs/systems, including conferences and seminars hosted by FEMA, in support of its mission. These programs collect PII to register individuals for the respective training and exercise programs/systems; coordinate field exercises; and support the general administration of all registration, training, and exercise delivery and course evaluation for FEMA employees, contractors, members of the first responder community, and others. Where possible, FEMA's training and exercise programs/systems collect non-sensitive PII such as contact information, business card information, biographies, and phone lists; however some programs and systems collect Sensitive PII (SPII) such as Social Security Numbers, performance information, financial information, name plus date of birth, and medical information because of the nature of the training or exercise program. This PIA documents how FEMA collects, uses, maintains, retrieves, and disseminates both PII and SPII in support of its training and exercise missions.

System: DHS/USSS/PIA-010

Enterprise Investigative System (EIS).

Component: USSS.

Date of approval: March 30, 2012.

The USSS uses EIS to collect information about ongoing and resolved investigative cases and about individuals seeking access to USSS-protected events. EIS is a compilation of six applications that reside on the USSS mainframe computer system. These applications are used collectively to protect the integrity of the nation's financial systems and are managed by several entities within the Office of Investigations. This PIA was conducted because EIS collects PII.

System: DHS/ICE/PIA-006(b) Data Analysis and Research for Trade Transparency System (DARTTS) Update.

Component: Immigration and Customs Enforcement (ICE).

Date of approval: April 2, 2012.

The original PIA for DARTTS was published in October 2008, and re-
