

Technological and administrative changes necessitate that a new toll-free telephone number and a new, more sophisticated routing system be operational by January 1, 2005. This entails collecting administrative information from each of the 144 crisis

centers currently participating in the network (e.g., location, hours of operation, call capacity, non-English language capability) and programming the data into a new routing system to ensure that each caller is linked to the nearest and most appropriate crisis

center. The form developed to secure this information requests only factual information that is essential to the design of the routing system.

The following table is the estimated hour burden:

| Number of respondents | Responses/ respondent | Burden/ response (hrs.) | Total burden hours |
|-----------------------|--------------------------|-------------------------------|--------------------------|
| 144 | 1 | .17 | 24.50 |

Emergency approval is being requested because SAMHSA does not want to risk the possibility of disrupting the functioning of the national suicide prevention hotline network, and the subsequent possibility that even one individual who tries calling a non-working hotline might ultimately take his/her own life.

Written comments and recommendations concerning the proposed information collection should be sent within two weeks of this notice to: John Kraemer, Human Resources and Housing Branch, Office of Management and Budget, New Executive Office Building, Room 10235, Washington, DC 20503; due to potential delays in OMB's receipt and processing of mail sent through the U.S. Postal Service, respondents are encouraged to submit comments by fax to: 202-395-6974.

Dated: November 4, 2004.

Patricia S. Bransford,

Acting Executive Officer, SAMHSA.
