BILLING CODE 4910–22–P

DEPARTMENT OF TRANSPORTATION

Federal Highway Administration

[Docket No. FHWA–2018–0022]

Agency Information Collection Activities: Request for Comments for the Renewal of a Previously Approved Information Collection

AGENCY: Federal Highway Administration (FHWA), DOT.

ACTION: Notice and request for comments.

SUMMARY: In compliance with the Paperwork Reduction Act (PRA) of 1995, this notice announces that FHWA will submit the collection of information described below to the Office of Management and Budget (OMB) for review and comment. The **Federal Register** Notice with a 60-day comment period soliciting comments on the following collection of information was published on February 21, 2018. The PRA submission describes the nature of the information collection and its expected cost and burden.

DATES: Please submit comments by July 5, 2018.

ADDRESSES: You may submit comments identified by DOT Docket ID Number FHWA 2018–0022, by any of the following methods:

Website: For access to the docket to read background documents or comments received go to the Federal eRulemaking Portal: Go to <http://www.regulations.gov>. Follow the online instructions for submitting comments.

Fax: 1–202–493–2251.

Mail: Docket Management Facility, U.S. Department of Transportation, West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue SE, Washington, DC 20590–0001.

Hand Delivery or Courier: U.S. Department of Transportation, West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue SE, Washington, DC 20590, between 9 a.m. and 5 p.m. ET, Monday through Friday, except Federal holidays.

FOR FURTHER INFORMATION CONTACT: Mark Glaze, 202 366–4053, Office of Natural Environment, Federal Highway Administration, Department of Transportation, 1200 New Jersey Avenue SE, Washington, DC 20590, Monday through Friday, except Federal holidays.

SUPPLEMENTARY INFORMATION:

Title: Congestion Mitigation and Air Quality Improvement (CMAQ) Program.

OMB Control Number: 2125–0614.

Background: Section 1113 of the Moving Ahead for Progress in the 21st Century Act (MAP–21) calls for an Evaluation and Assessment of CMAQ Projects. The statute calls for the identification and analysis of a representative sample of CMAQ projects and the development and population of a database that describes the impacts of the program both on traffic congestion levels and air quality. To establish and maintain this database, the FHWA is requesting States to submit annual reports on their CMAQ investments that cover projected air quality benefits, financial information, a brief description of projects, and several other factors outlined in the Interim Program Guidance for the CMAQ program. States are requested to provide the end of year summary reports via the automated system provided through FHWA by the first day of March of each year, covering the prior Federal fiscal year.

Respondents: 51 (each State DOT, and Washington DC).

Frequency: Annually.

Estimated Average Burden per Response: 125 hours per annual report.

Estimated Total Annual Burden Hours: 6,375 hours.

Public Comments Invited: You are asked to comment on any aspect of this information collection, including: (1) Whether the proposed collection of information is necessary for the U.S. DOT's performance, including whether the information will have practical utility; (2) the accuracy of the U.S. DOT's estimate of the burden of the proposed information collection; (3) ways to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burden could be minimized, including the use of electronic technology, without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB's clearance of this information collection.

Authority: The Paperwork Reduction Act of 1995; 44 U.S.C. Chapter 35, as amended; and 49 CFR 1.48.

Issued on: May 25, 2018.

Michael Howell,

Information Collection Officer.

SUPPLEMENTARY INFORMATION:

Title: Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery.

Background: The information collection activity will garner

qualitative customer and stakeholder feedback in an efficient, timely manner, in accordance with the Administration's commitment to improving service delivery. By qualitative feedback we mean information that provides useful insights on perceptions and opinions, but are not statistical surveys that yield quantitative results that can be generalized to the population of study. This feedback will provide insights into customer or stakeholder perceptions, experiences and expectations, provide an early warning of issues with service, or focus attention on areas where communication, training or changes in operations might improve delivery of products or services. These collections will allow for ongoing, collaborative and actionable communications between the Agency and its customers and stakeholders. It will also allow feedback to contribute directly to the improvement of program management.

Feedback collected under this generic clearance will provide useful information, but it will not yield data that can be generalized to the overall population. This type of generic clearance for qualitative information will not be used for quantitative information collections that are designed to yield reliably actionable results, such as monitoring trends over time or documenting program performance. Such data uses require more rigorous designs that address: The target population to which generalizations will be made, the sampling frame, the sample design (including stratification and clustering), the precision requirements or power calculations that justify the proposed sample size, the expected response rate, methods for assessing potential non-response bias, the protocols for data collection, and any testing procedures that were or will be undertaken prior to fielding the study. Depending on the degree of influence the results are likely to have, such collections may still be eligible for submission for other generic mechanisms that are designed to yield quantitative results. Below we provide FHWA's projected average estimates for the next three years:

Respondents: State and local governments, highway industry organizations, and the general public.

Estimated Average Annual Burden: The burden hours per response will vary with each survey; however, we estimate an average burden of 15 minutes for each survey.

Estimated Total Annual Burden Hours: We estimate that FHWA will survey approximately 21,000 respondents annually during the next 3

years. Therefore, the estimated total annual burden is 5,200 hours.

Authority: The Paperwork Reduction Act of 1995; 44 U.S.C. Chapter 35, as amended; and 49 CFR 1.48.

Issued on: May 25, 2018.

Michael Howell,

Information Collection Officer.

BILLING CODE 4910-22-P

DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket Number FRA-2018-0033]

Petition for Waiver of Compliance

Under part 211 of Title 49 of the Code of Federal Regulations (CFR), this provides the public notice that on March 30, 2018, Michigan State Trust for Railway Preservation, Inc. (MSTP) petitioned the Federal Railroad Administration (FRA) for a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR 240.201(d). FRA assigned the petition Docket Number FRA-2018-0033.

MSTP seeks a waiver of compliance from 49 CFR 240.201(d) which states, "After December 31, 1991, no railroad shall permit or require any person to operate a locomotive in any class of locomotive or train service unless that person has been certified as a qualified locomotive engineer and issued a certificate that complies with § 240.223." MSTP desires to conduct a "Hands on the Throttle Program," which would allow "non-certified" individuals to operate a locomotive as a "Student Locomotive Engineer."

MSTP is a non-profit educational corporation which owns and operates steam locomotives. The organization is located at the steam locomotive repair facility in Owosso, Michigan, and connected to the tracks of the Great Lakes Central Railway (GLC). The MSTP does not own or control any trackage, except for the track leads going to the repair shop building and museum.

As proposed, MSTP will verify that each participant possesses a valid state issued motor vehicle license, and will have a certified locomotive engineer in the cab at all times. The operations will be conducted on GLC designated tracks during daylight hours with only one locomotive movement at a time, operate at restricted speed, communication will be maintained through the GCL dispatcher, and be afforded blue flag and derail protection. The locomotive will be inspected daily, receive a new

brake test per participant, and public highway grade crossings will not be involved. MSTP believes that this waiver will enable it to generate needed interest and revenue to teach steam technology to future generations. MSTP also believes these operations will not pose any safety concerns to the public at large.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at www.regulations.gov and in person at the U.S. Department of Transportation's (DOT) Docket Operations Facility, 1200 New Jersey Ave. SE, W12-140, Washington, DC 20590. The Docket Operations Facility is open from 9 a.m. to 5 p.m., Monday through Friday, except Federal Holidays.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested parties desire an opportunity for oral comment and a public hearing, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

All communications concerning these proceedings should identify the appropriate docket number and may be submitted by any of the following methods:

- **Website:** <http://www.regulations.gov>. Follow the online instructions for submitting comments.
- **Fax:** 202-493-2251.
- **Mail:** Docket Operations Facility, U.S. Department of Transportation, 1200 New Jersey Avenue SE, W12-140, Washington, DC 20590.
- **Hand Delivery:** 1200 New Jersey Avenue SE, Room W12-140, Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal Holidays.

Communications received by July 19, 2018 will be considered by FRA before final action is taken. Comments received after that date will be considered if practicable. Anyone can search the electronic form of any written communications and comments received into any of our dockets by the name of the individual submitting the comment (or signing the document, if submitted on behalf of an association, business, labor union, etc.). Under 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its processes. DOT posts these comments, without edit, including any personal information the commenter provides, to www.regulations.gov, as described in
