

project in order to intervene. For more information about motions to intervene, refer to the FERC website at <https://www.ferc.gov/resources/guides/how-to-intervene.asp>.

There are two ways to submit your motion to intervene. In both instances, please reference the Project docket number CP25–37–000 in your submission.

(1) You may file your motion to intervene by using the Commission's eFiling feature, which is located on the Commission's website (www.ferc.gov) under the link to Documents and Filings. New eFiling users must first create an account by clicking on "eRegister." You will be asked to select the type of filing you are making; first select "General" and then select "Intervention." The eFiling feature includes a document-less intervention option; for more information, visit <https://www.ferc.gov/docs-filing/efiling/document-less-intervention.pdf>; or

(2) You can file a paper copy of your motion to intervene, along with three copies, by mailing the documents to the address below. Your motion to intervene must reference the Project docket number CP25–37–000.

To file via USPS: Debbie-Anne A. Reese, Secretary, Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426

To file via any other courier: Debbie-Anne A. Reese, Secretary, Federal Energy Regulatory Commission, 12225 Wilkins Avenue, Rockville, Maryland 20852

The Commission encourages electronic filing of motions to intervene (option 1 above) and has eFiling staff available to assist you at (202) 502–8258 or FercOnlineSupport@ferc.gov.

Protests and motions to intervene must be served on the applicant either by mail at: Blair Lichtenwalter, Senior Director of Certificates, 1300 Main Street, Houston, Texas 77002, or by email (with a link to the document) at blairlichtenthalter@energytransfer.com. Any subsequent submissions by an intervenor must be served on the applicant and all other parties to the proceeding. Contact information for parties can be downloaded from the service list at the eService link on FERC Online. Service can be via email with a link to the document.

All timely, unopposed⁹ motions to intervene are automatically granted by operation of Rule 214(c)(1).¹⁰ Motions to intervene that are filed after the

intervention deadline are untimely, and may be denied. Any late-filed motion to intervene must show good cause for being late and must explain why the time limitation should be waived and provide justification by reference to factors set forth in Rule 214(d) of the Commission's Rules and Regulations.¹¹ A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies (paper or electronic) of all documents filed by the applicant and by all other parties.

Tracking the Proceeding

Throughout the proceeding, additional information about the project will be available from the Commission's Office of External Affairs, at (866) 208–FERC, or on the FERC website at www.ferc.gov using the "eLibrary" link as described above. The eLibrary link also provides access to the texts of all formal documents issued by the Commission, such as orders, notices, and rulemakings.

In addition, the Commission offers a free service called eSubscription which allows you to keep track of all formal issuances and submittals in specific dockets. This can reduce the amount of time you spend researching proceedings by automatically providing you with notification of these filings, document summaries, and direct links to the documents. For more information and to register, go to www.ferc.gov/docs-filing/esubscription.asp.

Intervention Deadline: 5:00 p.m. Eastern Time on January 29, 2025.

Dated: January 8, 2025.

Debbie-Anne A. Reese,
Secretary.

BILLING CODE 6717–01–P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Project Nos. 2942–057; 2984–128]

Presumpscot Hydro LLC and Dichotomy Power Maine LLC; Notice of Intent To Prepare an Environmental Assessment

On June 20, 2023, and supplemented October 31, 2023, Presumpscot Hydro LLC, and Dichotomy Power Maine LLC¹ (co-licensees) filed a Non-capacity Amendment of License for the Dundee

Project No. 2942 and Eel Weir Project No. 2984. The Dundee Project is located on the Presumpscot River in Cumberland County, Maine, and the Eel Weir Project is located at the outlet of Sebago Lake on the Presumpscot River in Cumberland County, Maine. The projects do not occupy federal lands.

The co-licensees propose to upgrade two generating units and to construct a new transformer at the Eel Weir Project. The unit upgrades would increase the authorized installed capacity from 1.80 megawatts (MW) to 1.99 MW and decrease the total hydraulic capacity of the powerhouse from 822 to 796 cubic feet per second. The co-licensees also propose modifications to the transmission lines at both the Dundee and the Eel Weir projects. Specifically, the co-licensees propose to remove the 3.5-mile-long, 11-kV primary transmission line from Eel Weir Station to Dundee Station from the Eel Weir project boundary, and construct a new transformer at the Eel Weir Station and a new 12.5-kV primary transmission line using an existing 0.62-mile-long right-of-way along the power canal, to tie into the North Windham Substation on Route 35. At the Dundee Project, the co-licensees propose to remove the 10-mile-long, 11-kV North and South Feeder Lines from the Dundee Station to Westbrook from the project boundary, and instead transmit power from the Dundee Station to the new transformer at the Eel Weir Station using the existing 3.5-mile-long, 11-kV transmission line from Dundee to Eel Weir. On December 7, 2023, the Commission issued a public notice for the proposed amendment. The notice established January 8, 2024, for filing responses to the notice. No comments or motions to intervene were received.

This notice identifies Commission staff's intention to prepare an environmental assessment (EA) for the project.² Commission staff plans to issue an EA by May 5, 2025. Revisions to the schedule may be made as appropriate. The EA will be issued for a 30-day comment period. All comments filed on the EA will be reviewed by staff and considered in the Commission's final decision on the proceeding.

The Commission's Office of Public Participation (OPP) supports meaningful public engagement and participation in Commission proceedings. OPP can help members of the public, including landowners, environmental justice communities, Tribal members, and

⁹ The applicant has 15 days from the submittal of a motion to intervene to file a written objection to the intervention.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP25-5-000]

Columbia Gas Transmission, LLC; Notice of Schedule for the Preparation of an Environmental Assessment for the Line 4010 Abandonment Project

On October 10, 2024, Columbia Gas Transmission, LLC filed an application in Docket No. CP25-5-000 requesting authorization pursuant to section 7(b) of the Natural Gas Act to abandon certain natural gas pipeline facilities. The proposed project is known as the Line 4010 Abandonment Project (Project) and would abandon in place and by removal 13.2 miles of the Line 4010 pipeline and all related appurtenances in Jefferson and Clarion Counties, Pennsylvania.

On October 24, 2024, the Federal Energy Regulatory Commission (Commission or FERC) issued its *Notice of Application and Establishing Intervention Deadline* (Notice of Application) for the Project. Among other things, that notice alerted agencies issuing Federal authorizations of the requirement to complete all necessary reviews and to reach a final decision on a request for a Federal authorization within 90 days of the date of issuance of the Commission staff's environmental document for the Project.

This notice identifies Commission staff's intention to prepare an environmental assessment (EA) for the Project and the planned schedule for the completion of the environmental review.¹

¹ In accordance with the Council on Environmental Quality's regulations, the unique identification number for documents relating to this environmental review is EAXX-019-20-000-1731407889. 40 CFR 1501.5(c)(4) (2024).

Schedule for Environmental Review

Issuance of EA—May 16, 2025
90-day Federal Authorization Decision

Deadline²—August 14, 2025

If a schedule change becomes necessary, additional notice will be provided so that the relevant agencies are kept informed of the Project's progress.

Project Description

The Line 4010 Abandonment Project would abandon about 13.7 miles of 6-inch-diameter pipeline in Jefferson and Clarion Counties, Pennsylvania and abandon above ground facilities, including ten meter-stations, five mainline valves, and related appurtenances along Line 4010, also in Jefferson and Clarion Counties. The proposed Project would allow Columbia to comply with an order issued on April 22, 2022, by the United States Department of Transportation's Pipeline and Hazardous Materials Safety Administration (PHMSA) in response to an operating incident on Line 4010. Columbia determined that abandoning Line 4010 is the most prudent response given the pipeline's age, condition, and the PHMSA order.

Background

On November 19, 2024, the Commission issued a "Notice of Scoping Period Requesting Comments on Environmental Issues for the Proposed Line 4010 Abandonment Project and Notice of Public Scoping Session" (Notice of Scoping). The Notice of Scoping was sent to affected landowners; Federal, State, and local government agencies; elected officials; environmental and public interest groups; Native American tribes; other interested parties; and local libraries and newspapers. In response to the Notice of Scoping, the Commission received comments from U.S. Environmental Protection Agency, Region 3. Region 3 did not have any comments at this time regarding the Project. All substantive comments will be addressed in the EA.

Additional Information

In order to receive notification of the issuance of the EA and to keep track of formal issuances and submittals in specific dockets, the Commission offers

² The Commission's deadline applies to the decisions of other Federal agencies, and state agencies acting under federally delegated authority, that are responsible for Federal authorizations, permits, and other approvals necessary for proposed projects under the Natural Gas Act. Per 18 CFR 157.22(a), the Commission's deadline for other agency's decisions applies unless a schedule is otherwise established by Federal law.

a free service called eSubscription. This service provides automatic notification of filings made to subscribed dockets, document summaries, and direct links to the documents. Go to <https://www.ferc.gov/ferc-online/overview> to register for eSubscription.

The Commission's Office of Public Participation (OPP) supports meaningful public engagement and participation in Commission proceedings. OPP can help members of the public, including landowners, environmental justice communities, Tribal members and others, access publicly available information and navigate Commission processes. For public inquiries and assistance with making filings such as interventions, comments, or requests for rehearing, the public is encouraged to contact OPP at (202) 502-6595 or *OPP@ferc.gov*.

Additional information about the Project is available from the Commission's Office of External Affairs at (866) 208-FERC or on the FERC website (www.ferc.gov). Using the "eLibrary" link, select "General Search" from the eLibrary menu, enter the selected date range and "Docket Number" excluding the last three digits (*i.e.*, CP25-5), and follow the instructions. For assistance with access to eLibrary, the helpline can be reached at (866) 208-3676, TTY (202) 502-8659, or at *FERCOnlineSupport@ferc.gov*. The eLibrary link on the FERC website also provides access to the texts of formal documents issued by the Commission, such as orders, notices, and rule makings.
