2. The total dollar amount obligated for the services under the contract, and the funding source for the contract;

5. Whether the contract is a personal services contract; and
6. Whether the contract was awarded on a non-competitive basis.

The NRC will analyze the data in the inventory for the purpose of determining if its contract labor is being used in an effective and appropriate manner and if the mix of federal employees and contractors in the agency is effectively balanced. The NRC developed the inventory by pulling data from the Federal Procurement Data System—Next Generation. The inventory does not include contractor proprietary or sensitive information.
