

level of analysis conducted and resources needed to inspect the BHC and to assign the consolidated R and F ratings should be commensurate with the level of risk posed by the subsidiary depository institution(s) to the federal safety net and the level of risk posed by the BHC to the subsidiary depository institution(s). The report of examination by, and other information obtained from, the functional and primary bank regulators should provide the basis for the consolidated R and F ratings. On-site work, to the extent it involves areas that are the primary responsibility of the functional or primary bank regulator, should be coordinated with and, if possible, conducted by, those regulators. Examination staff should concentrate their independent analysis for the R and F ratings around activities and risk management conducted by the parent company and non-functionally regulated nondepository subsidiaries, as well as around activities and risk management functions that are related to the subsidiary depository institution(s), for example, audit functions for the depository institution(s) and compliance with 23A.

Examination staff will be required to make an independent assessment of the impact of the parent company and nondepository subsidiary(ies) on the subsidiary depository institution(s) in order to assign the I rating.

By order of the Board of Governors of the Federal Reserve System, July 20, 2004.
