L. 96-193) (hereinafter referred to as "the Act") and Title 14, Code of Federal Regulations (CFR), part 150. SUPPLEMENTARY INFORMATION: This notice announces that the FAA is reviewing a proposed Noise Compatibility Program for Camarillo Airport which will be approved or disapproved on or before May 4, 2001. This notice also announces the availability of this program for public review and comment.

An airport operator who has submitted Noise Exposure Maps that are found by the FAA to be in compliance with the requirements of Title 14, CFR, part 150, promulgated pursuant to Title I of the Act, may submit a Noise Compatibility Program for FAA approval which sets forth in the measures the operator has taken or proposes for the reduction of existing noncompatible uses and for the

prevention of the introduction of additional noncompatible uses.

The FAA has formally received the Noise Compatibility Program for Camarillo Municipal Airport, effective on September 6, 2001. It is requested that the FAA review this material and that the noise mitigation measures, to be implemented jointly by the airport and surrounding communities, be approved as a Noise Compatibility Program under section 104(b) of the Act. Preliminary review of the submitted material indicates that it conforms to the requirements for the submittal of Noise Compatibility Programs, but that further review will be necessary prior to approval or disapproval of the program. The formal review period, limited by law to a maximum of 180 days, will be completed on or before, May 4, 2001.

The FAA's detailed evaluation will be conducted under the provisions of Title 14, CFR part 150, § 150.33. The primary considerations in the evaluation process are whether the proposed measures reduce the level of aviation safety, create an undue burden on interstate or foreign commerce, or are reasonably consistent with obtaining the goal of reducing existing noncompatible land uses and preventing the introduction of additional noncompatible land uses.

Interested persons are invited to comment on the proposed program with specific reference to these factors. All comments, other than those properly addressed to local land use authorities, will be considered by the FAA to the extent practicable.
