SUPPLEMENTARY INFORMATION: The DOL, as part of continuing efforts to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies an opportunity to comment on proposed and/or continuing collections of information before submitting them to the OMB for final approval. This program helps to ensure requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements can be properly assessed.

This ICR seeks to extend PRA authority for the Coal Mine Operator Response to Schedule for Submission of Additional Evidence (Form CM–2970) and Operator Response to Notice of Claim (Form CM–2970a) information collection. The OWCP, Division of Coal Mine Workers' Compensation (DCMWC) administers the Black Lung Benefits Act (30 U.S.C. 901 *et seq.*), which provides benefits to coal miners totally disabled due to pneumoconiosis and their surviving dependents. When the DCMWC makes a preliminary analysis of a claimant's eligibility for benefits, and if a coal mine operator has been identified as potentially liable for payment of those benefits, the responsible operator is notified of the preliminary analysis. Regulations codified at 20 CFR part 725 require that a coal mine operator be identified and notified of potential liability as early in

the adjudication process as possible. Forms CM–2790 and CM–2970a are used for claims filed after January 19, 2001, and indicate that the coal mine operator will submit additional evidence or respond to the notice of claim. Black Lung Benefits Act section 426 authorizes this information collection. See 30 U.S.C. 936.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless the OMB under the PRA approves it and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6.

Interested parties are encouraged to provide comments to the contact shown in the **ADDRESSES** section. Written comments will receive consideration, and summarized and included in the request for OMB approval of the final ICR. In order to help ensure appropriate consideration, comments should mention 1240–0033.

Submitted comments will also be a matter of public record for this ICR and posted on the internet, without redaction. The DOL encourages commenters not to include personally identifiable information, confidential business data, or other sensitive statements/information in any comments.

The DOL is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility.
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used.
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of responses.
