Title: Information Collection In Support of Grant Programs Authorized by the Neotropical Migratory Bird Conservation Act of 2000.

Approval Number: 1018-0113.

Service Form Number(s): N/A.

Description and Use: Congress passed Neotropical Migratory Bird Conservation Act (Act) in 2000, having the following purposes:

- (1) To perpetuate healthy populations of neotropical migratory birds;
- (2) to assist in the conservation of neotropical migratory birds by supporting conservation initiatives in the United States, Latin America, and the Caribbean; and
- (3) to provide financial resources and to foster international cooperation for those initiatives.

The Act establishes “* * * a program to provide financial assistance for projects to promote the conservation of neotropical birds.” (Sec. 5(a)). Section 5(c) “Project Proposals” describes the information to be included in a project proposal.

Proposals for funding will be submitted in response to the call for proposals posted on the Division of Bird Habitat Conservation website. These proposals will be reviewed for completeness and eligibility by staff of the Division, and then distributed to the Advisory Group referenced in Sec. 7(b) of the Act. The Advisory Group will then make a recommendation to the Secretary of the Interior regarding which of these proposals should be funded. The Secretary or her designee will make the final decision. All proposals will be kept on file at the Division. Information collected under this program will be used to respond to such needs as: GPRA reporting, SF 424s, grant agreements, budget reports and justification, public and private requests for information, data provided to other programs for databases on similar programs, Congressional inquiries and reports required by the Act. This is a new collection.

In summary, information collection under these programs is required to obtain a benefit, *i.e.*, a cash reimbursable grant that is given competitively to some applicants based on eligibility and relative scale of

resource values involved in the projects. The information collection is subject to the Paperwork Reduction Act requirements for such activity, which includes soliciting comments from the general public regarding the nature and burden imposed by the collection.

Dated: January 2, 2002.

Information Collection Officer, U.S. Fish and Wildlife Service.

SUPPLEMENTARY INFORMATION: *General:* Comments regarding this survey were received as a result of the survey being published in the **Federal Register**, Volume 65, Number 206, pages 63606-63617, October 24, 2000. We received 54 comments from 3 respondents. Most comments pertained to minor textual changes to improve clarity, while others addressed specific questions, use of survey data, and implementation of the survey. Comments regarding textual changes were used in revising the survey to the extent possible.

Written Comments:

Issue 1: One response suggested that Part A, question 12 and Part B, question 9 fail to address interstate boating facility needs.

Response: The survey instrument is designed to allow States to assess their boating access needs. The U.S. Fish and Wildlife Service will use the results of the State surveys to create a comprehensive national boating access needs assessment to address interstate access needs.

Issue 2: We received one comment suggesting that Part A, question 18 requesting subjective comments pertaining to recreational boating was too broad and should be limited to transient boating facilities. Similar comments were made regarding Part B, question 13; Part C, question 12; and Part D, question 23.

Response: Reducing subjective comments to only those concerning transient facilities is too limiting. However, we do agree that subjective comments must remain focused on facility issues. In response to this comment, we added the word “facilities” after “recreational boating” in the questions.

Issue 3: Two comments identified faulty numbering of questions in the survey instrument.

Response: We revised the numbering of the questions in all Parts of the survey.

Issue 4: One respondent suggested an answer for Part B, question 10 be revised to include portable toilet dump
