

required by the Commission's February 16, 1999, Final Order Establishing Rates, Terms and Conditions of Transmission Services in City of College Station, Texas, 86 with the FERC ¶ 61,165 (1999)

TPMA states that it will provide transmission service to the City of College Station (College Station) under the terms and conditions of TPMA's currently effective Public Utility Commission of Texas (Texas Commission) tariff for wholesale transmission services.

TPMA also states that, since January 1, 2000, it has been providing transmission service to College Station for the postage stamp rates contained in its currently effective Texas Commission tariff. TPMA states that it will continue to charge College Station those rates, subject to an adjustment for regulatory expenses associated with the proceeding in Docket No. TX96-2-000. TPMA attaches a pro forma tariff sheet, which provides College Station the option of reimbursing TPMA for those regulatory expenses through either a lump sum payment payable 30 days after the tariff sheet's effectiveness, or through thirty-six (36) equal monthly payments to be made over the three-year period following the effectiveness of the tariff sheet.
