

Under the Proposed Action, DHS and its Components would continue ongoing RDT&E activities, but on a nationwide scale. The Proposed Action also includes the nationwide use and operation of C-UAS, outside of a testing environment, to conduct training and operational activities, such as law enforcement and security. The Proposed Action includes all elements related to the training, operation, maintenance, and use of C-UAS, including mitigation. This would allow DHS to continue its current testing of C-UAS while also enabling DHS and its Components to use C-UAS in an operational setting to support mission requirements.

Potential impacts for this Proposed Action would be associated with the testing, operation, and use of C-UAS, including supporting systems, and mobilization to a needed location, if applicable. All C-UAS currently in use by DHS are either ground- or vehicle-mounted. C-UAS maintenance would occur in existing DHS facilities using standard tools and materials, and in accordance with standard operating procedures for equipment maintenance.

DHS has decided to prepare a PEA for this Proposed Action to assist agency planning, decision making, and establish standard best management practices. This notice starts the scoping process for the PEA and solicits information regarding important environmental issues and alternatives that should be considered in the PEA. Additionally, DHS will use the scoping process to identify and eliminate from detailed analysis issues that are not significant or that have been analyzed by prior environmental review. DHS also invites agencies with jurisdiction by law and/or special expertise with respect to environmental issues of this Proposed Action to formally cooperate with DHS in preparation of the PEA.

The PEA analyses will also support compliance with other environmental statutes (e.g., National Historic Preservation Act, Endangered Species Act, Clean Air Act, etc.).

Request for Comments: Federal agencies; Tribal, state, and local governments; the public; and other interested parties are requested to comment on the important issues to be considered in the PEA. Comments must be provided by April 7, 2025. For information on how to submit, see the **ADDRESSES** section above. A mailing address to submit hardcopy comments can be provided upon request.
