SUPPLEMENTARY INFORMATION: EPA approves state and local permitting authorities to administer the operating permit program set forth in title V of the Clean Air Act, 42 U.S.C. 7661-7661f. DAQEM administers a fully approved title V operating permit program. The Clean Air Act affords EPA the opportunity for a 45-day period to review, and object to as appropriate, operating permits proposed by permitting authorities. Section 505(b)(2) of the act authorizes any person to petition the EPA Administrator within 60 days after the expiration of this review period to object to a state operating permit if EPA has not done so. Petitions must be based on objections to the permit that were raised with reasonable specificity during the public comment period provided by the state, unless the petitioner demonstrates that it was impracticable to raise these issues during the comment period or the grounds for the issues arose after this period.

DAQEM submitted the proposed permit to EPA on June 3, 2003. EPA received the petition to object to the permit on August 29, 2003, prior to the deadline for section 505(b)(2) petitions.

On September 22, 2005, the Administrator issued an order denying in full the petition submitted by Robert Hall. The order explains the reasons behind EPA's decisions to grant or deny each issue.
