

APHIS and the facility must agree on all parameters, such as time, routing, and conveyance, by which the consignment will move from the port of entry or points of origin in the United States to the treatment facility. If APHIS and the facility cannot reach agreement in advance on these parameters then no consignments may be moved to that facility until an agreement has been reached.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

7 CFR Part 1260

[No. AMS–LPS–15–0084]

Amendment to the Beef Promotion and Research Rules and Regulations; Withdrawal

AGENCY: Agricultural Marketing Service, USDA.

ACTION: Withdrawal of proposed rule.

SUMMARY: This document informs the public that the Agricultural Marketing Service (AMS) of the U.S. Department of Agriculture (USDA) is withdrawing the proposed rule published in the **Federal Register** (81 FR 14022) on March 16, 2016, regarding the Beef Promotion and Research Order (Order) established under the Beef Promotion and Research Act of 1985 (Act). The proposed rule is being withdrawn because of an error noted in the formula determining the assessment rate on imported veal carcass weight and to provide the calculation to establish the assessment rate on importer veal and veal products.

DATES: The proposed rule published on March 26, 2016 (81 FR 14022), is withdrawn.

FOR FURTHER INFORMATION CONTACT: Michael Dinkel, Agricultural Marketing Specialist; Research and Promotion Division, Room 2610–S; Livestock, Poultry, and Seed Program; AMS, USDA, STOP 0249; 1400 Independence Avenue SW., Washington, DC 20250–0249; facsimile 202/720–1125; telephone 301/352–7497, or by email at Michael.Dinkel@ams.usda.gov.

SUPPLEMENTARY INFORMATION:

Background

The Act authorized the establishment of a national beef promotion and research program. The final Order was published in the **Federal Register** (51 FR 21632) on July 18, 1986, and the collection of assessments began on October 1, 1986. The program is administered by the Cattlemen's Beef Promotion and Research Board, appointed by the Secretary of Agriculture from industry nominations, and composed of 100 cattle producers and importers. The program is funded by a \$1-per-head assessment on producer marketing of cattle in the U.S. and on imported cattle, as well as an equivalent amount on imported beef and beef products. The U.S. Customs and Border Protection Service collects assessments from importers.

On March 16, 2016, AMS published in the **Federal Register** (81 FR 14022) a proposed rule amending the Order established under the Act to add Harmonized Tariff Schedule (HTS) codes for veal and veal products not currently covered under the Order and to update the carcass weight for imported veal carcasses used to determine the assessment rate for imported veal and veal products.

Following publication, AMS discovered an error in the carcass weight of imported veal carcasses used to determine the assessment rate for imported veal and veal products. The correct weight used to calculate the assessment rate was published as 151 pounds, but the correct weight is 154 pounds. In addition, the industry recently requested the formula for how the assessment rate for imported veal and veal products is calculated. As a result of both the discovered error and the industry request, AMS is withdrawing the proposed rule and will publish a new proposed rule with the corrected carcass weight and formula.

Dated: June 17, 2016.

Elanor Starmer,

Administrator, Agricultural Marketing Service.

BILLING CODE 3410–02–P

DEPARTMENT OF ENERGY

10 CFR Part 460

Draft Environmental Assessment for Notice of Proposed Rulemaking, “Energy Conservation Standards for Manufactured Housing” With Request for Information on Impacts to Indoor Air Quality

AGENCY: Office of Energy Efficiency and Renewable Energy, U.S. Department of Energy.

ACTION: Notice of availability; request for public comment, and request for information.

SUMMARY: Section 413 of the Energy Independence and Security Act of 2007 (EISA) directs the U.S. Department of Energy (DOE) to establish energy conservation standards for manufactured housing. Section 413 further directs DOE to base its energy conservation standards on the most recent version of the International Energy Conservation Code (IECC) and any supplements to that document, except where DOE finds that the IECC is not cost effective or where a more stringent standard would be more cost effective, based on the impact of the IECC on the purchase price of manufactured housing and on total lifecycle construction and operating costs. On June 17, 2016, DOE published a notice of proposed rulemaking in the **Federal Register** pertaining to energy efficiency for manufactured housing.

Pursuant to the National Environmental Policy Act (NEPA) of 1969, DOE Office of Energy Efficiency and Renewable Energy (EERE) has prepared a draft environmental assessment (EA) to evaluate the environmental impacts of this proposed action. DOE is seeking public comment on the environmental issues addressed in the EA. In conjunction with issuance of this draft EA for public review and comment, DOE is issuing a request for information that will help it analyze potential impacts on indoor air quality (IAQ) from the proposed energy conservation standards, in particular sealing manufactured homes tighter.

DATES: Comments regarding this draft EA and/or information on IAQ must be received on or before August 15, 2016.

ADDRESSES: Written comments should be sent to Roak Parker at U.S. Department of Energy, 15013 Denver West Parkway, Golden, CO 80401, or by email at RulemakingEAs@ee.doe.gov.

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the draft environmental assessment should be directed to Roak
