14 CFR Part 71

[Airspace Docket No. 02-AGL-08]

Proposed Modification of Class E Airspace; Circleville, OH

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking.

SUMMARY: This document proposes to modify Class E airspace at Circleville, OH. An Area Navigation (RNAV) Standard Instrument Approach Procedure (SIAP) to Runway (RWY) 23, has been developed for Ross County Airport. Controlled airspace extending upward from 700 feet above the surface of the earth is needed to contain aircraft executing this approach. This action would increase the area of the existing controlled airspace at Pickaway County Memorial Airport, by adding a radius of controlled airspace around Ross County Airport.

DATES: Comments must be received on or before August 24, 2002.

ADDRESSES: Send comments on the proposal in triplicate to: Federal Aviation Administration, Office of the Regional Counsel, AGL-7, Rules Docket No. 02-AGL-08, 2300 East Devon Avenue, Des Plaines, Illinois 60018.

The official docket may be examined in the Office of the Regional Counsel, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois. An informal docket may also be examined during normal business hours at the Air Traffic Division, Airspace Branch, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois.

The Proposal

The FAA is considering an amendment to 14 CFR part 71 to modify Class E airspace at Circleville, OH, by adding a radius of controlled airspace around the Ross County Airport, thus increasing the existing Class E airspace area for Pickaway County Memorial Airport. Controlled airspace extending upward from 700 feet above the surface of the earth is needed to contain aircraft executing instrument approach

procedures. The area would be depicted on appropriate aeronautical charts. Class E airspace areas extending upward from 700 feet or more above the surface are published in paragraph 6005 of FAA Order 7400.9J dated August 31, 2001, and effective September 16, 2001, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designations listed in this document would be published subsequently in the Order.

The FAA has determined that this proposed regulation only involves an establishment body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. Therefore this, proposed regulation—(1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a Regulatory Evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this proposed rule will not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Researcher Identification Cards

AGENCY: National Archives and Records Administration (NARA).

ACTION: Proposed rule.

SUMMARY: NARA is proposing to revise the general regulations concerning availability of records and donated historical materials to change the time period researcher identification cards are valid. NARA proposes to reduce the valid time period to increase NARA's ability to obtain accurate address and telephone information. This will allow NARA to contact researchers if necessary and will ensure better protection of NARA's holdings, buildings, personnel, and the public. This proposed rule will affect individuals who do research in archival materials at NARA facilities.

DATES: Comments are due by September 9, 2002.

ADDRESSES: Comments must be sent to Regulation Comment Desk (NPOL), Room 4100, Policy and Communications Staff, National Archives and Records Administration, 8601 Adelphi Road, College Park, MD 20740-6001. They may be faxed to 301-837-0319. You may also comment via the Internet to comments@nara.gov.

FOR FURTHER INFORMATION CONTACT: Jennifer Davis Heaps on 301-837-1801 or fax 301-837-0319, or comments@nara.gov.

SUPPLEMENTARY INFORMATION:

Individuals who conduct research in original archival materials at NARA facilities must complete a researcher application form in person and be

issued a researcher identification card. The current time period that these cards are valid is three years. Many of NARA's researchers are short-time visitors to one or more of its facilities. Over 90 percent of the respondents complete the application on a one-time basis for a specific research project. NARA proposes to reduce the valid time period to one year to increase NARA's ability to contact researchers if necessary and to ensure better protection of NARA's holdings, buildings, personnel, and the public. The information collection in § 1254.6, researcher identification application form, is subject to the Paperwork Reduction Act. The Office of Management and Budget (OMB) has assigned 3095-0016 as the control number for this information collection.

Please submit Internet comments within the body of your email message or as an attachment. Please also include "Attn: 3095-AB14" and your name and return address in your Internet message. If you do not receive notification that we have received your Internet message, contact the Regulation Comment Desk at 301-837-1801.

This proposed rule is not a significant regulatory action for the purposes of Executive Order 12866 and has not been reviewed by the Office of Management and Budget. As required by the Regulatory Flexibility Act, I certify that this proposed rule will not have a significant impact on a substantial number of small entities because it applies only to individuals. This proposed rule has no federalism or tribalism implications.
