NATIONAL SCIENCE FOUNDATION

Agency Information Collection Activities: Comment Request; Submission for OMB Review

AGENCY: National Science Foundation.
ACTION: Notice.

SUMMARY: Under the Paperwork Reduction Act of 1995, Pub. L. 104-13 (44 U.S.C. 3501 *et seq.*), and as part of its continuing effort to reduce paperwork and respondent burden, the National Science Foundation (NSF) is inviting the general public or other Federal agencies to comment on this proposed continuing information collection. This is the second notice for public comment; the first was published in the **Federal Register** on page 38326 in the Monday, July 23, 2001 [Vol. 66, No. 141] issue and one comment was received. NSF is forwarding the proposed renewal submission to OMB for clearance simultaneously with the publication of this second notice.

DATES: Written comments should be received by October 25, 2001, to be assured of consideration. Comments received after that date will be considered to the extent practicable.

ADDRESSES: Written comments regarding the information collection and requests for copies of the proposed information collection request should be addressed to Suzanne Plimpton, Reports Clearance Officer, National Science Foundation, 4201 Wilson Blvd., Rm. 295, Arlington, VA 22230, or by e-mail to splimpto@nsf.gov.

Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339 between 8 a.m. and 8 p.m., Eastern time, Monday through Friday.

SUPPLEMENTARY INFORMATION:

Title of Collection: Survey of Industrial Research and Development.

OMB Control No.: 3145-0027.

Expiration Date of Approval: December 31, 2001.

1. Abstract

The proposed continuing information collection involves the estimation of the expenditures on research and development performed within the United States by industrial firms. A mail survey, the Survey of industrial Research and Development, has been conducted annually since 1953. Industry accounts for over 70 percent of total U.S. R&D each year and since its inception, the survey has provided continuity of statistics on R&D expenditures by major industry groups and by source of funds. The survey is the industrial component of the NSF statistical programs that seeks to " * * * to provide a central clearinghouse for the collection, interpretation, and analysis of data on scientific and engineering resources and to provide a source of information for policy formulation by other agencies of the Federal government." as mandated in the National Science Foundation Act of 1950. Statistics from the survey are published in NSF's annual publication series Research and Development in Industry. The proposed collection will continue the survey for three years.

2. Expected Respondents

The survey will be mailed to a statistical sample of approximately 24,200 companies to collect information on the amount and sources of funds for and character of R&D performed and contracted out by industrial firms, and information on sales and employment of the firms themselves.

3. Burden on the Public

To minimize burden, over 90-percent of the companies selected for the Survey of Industrial Research and Development are asked to respond to the Form RD-1A, the abbreviated version of the basic survey questionnaire, Form RD-1. Further, only companies with five paid employees or more are asked to participate in the survey and extensive use is made of the descriptive codes and information on the establishment list that is the source of the survey sample to avoid sampling firms in industries that traditionally do not perform R&D. NSF, with input from the Bureau of the Census, the collection and compiling agent for the survey, estimates that the average annual reporting and record keeping burden on each Form RD-1A respondent will be 1 hour and on Form RD-1 respondents will be 18 hours. The annual burden is estimated at 51,400 hours, calculated as follows:

RD-1A respondents: 22,600
respondents × 1 response × 1 burden
hour = 22,600 hours/year.

RD-1 respondents: 1,600 respondents
 × 1 response × 18 burden hours = 28,800
 hours/year.

All respondents: 51,400 burden hours
 hours/year during CY 2002, 2003, and
 2004.

Dated: September 18, 2001.

Suzanne H. Plimpton,

NSF Reports Clearance Officer.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-369 and 50-370]

Duke Energy Corporation McGuire Nuclear Station, Unit Nos. 1 and 2; Notice of Consideration of Approval of Transfer of Operating Authority Under Facility Operating Licenses and Conforming Amendments and Opportunity for a Hearing

The U.S. Nuclear Regulatory
Commission (the Commission) is
considering the issuance of an order
under 10 CFR 50.80 approving the
transfer of operating authority under
Facility Operating Licenses Nos. NPF-9
and NPF-17 for McGuire Nuclear
Station, Unit Nos. 1 and 2, (McGuire)
currently held by Duke Energy
Corporation (DEC), which is the owner
of McGuire. DEC would continue to
own McGuire. The transfer of authority
to operate McGuire would be to a new
limited liability company, Duke Energy
Nuclear, LLC (DEN LLC). DEN LLC will
be a subsidiary of DEC, as a result of a
corporate restructuring of DEC. The
Commission is further considering
amending the licenses for
administrative purposes to reflect the
proposed transfer. If authorized to
operate the facility, DEN LLC will also
become a general licensee for the
Independent Spent Fuel Storage
Installation at McGuire, pursuant to 10
CFR 72.210. The facility is located in
Mecklenburg County, North Carolina.

According to an application for
approval filed by DEC, DEC's ownership
of McGuire would be unchanged and
DEC would continue to be responsible
for the costs associated with operating
and maintaining McGuire and for
decommissioning funding assurance.
DEN LLC would become a licensee,
authorized to operate the units. No
physical changes to the facility or
operational changes are being proposed
in the application.

The proposed amendments would
replace references to DEC in the licenses
as the operator of McGuire with
references to DEN LLC.

Pursuant to 10 CFR 50.80, no license
shall be transferred, directly or
indirectly, through transfer of control of
the license, unless the Commission
gives its consent in writing. The
Commission will approve an
application for the transfer of a license
if the Commission determines that the
proposed transferee is qualified to hold
the license, and that the transfer is
otherwise consistent with applicable
provisions of law, regulations, and
orders issued by the Commission
pursuant thereto.
