

framework guiding every step. Grantees provide quarterly reports of their progress through the SPF. Each quarter's report consists of updates to the module(s) corresponding to the SPF steps that the grantee worked on during that quarter. Grantees are required to report on their activities, accomplishments, and barriers associated with cultural competence and reduction of health disparities twice a year, as part of the second- and fourth-quarter progress reports. Data on HIV/HCV testing and hepatitis vaccination are reported only in the aggregate (e.g. numbers tested and percent of tests that were positive). No individual-level information is collected through this instrument.

The Indirect Services Outcomes Data Tool collects annual data on community-level outcome measures. These data typically come from existing sources such as ongoing community surveys and administrative data collected by local agencies and institutions such as law enforcement, school districts, college campuses, hospitals, and health departments. The data are submitted to SAMHSA in the

form of community-level averages, percentages, or rates, and are used to assess the grantees' success in changing community norms, policies, practices, and systems through environmental strategies and information dissemination activities. As with the QPR, no individual-level information is collected through this instrument.

The third data collection instrument for which approval is being sought is intended to collect FY 2015 data on the HIV testing activities of the grantees. It will be used once only, immediately after the system goes online, in order to collect data for two of the seven HHS Core Indicators that SAMHSA/CSAP has agreed to report. Although this statement refers to it as a separate instrument for purposes of clarity in burden estimation, it has the same data fields as the HIV Testing Implementation section of the main Quarterly Progress Report tool and differs only in its reporting timeframe.

Although the main purpose of this data collection effort is to provide a standard and efficient system for SAMHSA's project officers to maintain a feedback loop with the grantees that

they manage and to respond to training and technical assistance needs in a timely fashion, the data will also be incorporated into the national cross-site evaluation. By combining this grantee-level implementation information and community-level outcome data with participant-level pre-post data, SAMHSA will be able to identify interventions and intervention combinations that produce the most favorable outcomes at the individual and community levels, and to investigate the interaction between participant- and grantee-level factors in predicting positive outcomes.

Respondent burden has been limited to the extent possible while allowing SAMHSA project officers to effectively manage, monitor, and provide sufficient guidance to their grantees, and for the cross-site evaluation to reliably assess program outcomes and successful strategies. The following table displays estimates of the annualized burden for data collected through the Quarterly Progress Reporting and Indirect Services outcomes data collection tools.

### Coast Guard

[Docket No. USCG–2013–0864]

### Certificate of Alternative Compliance for the M/V LEIGH ANN MORAN, 1261986

**AGENCY:** Coast Guard, DHS.

**ACTION:** Notice.

**SUMMARY:** The Coast Guard announces that a Certificate of Alternative Compliance was issued for the Uninspected Towing Vessel LEIGH ANN MORAN as required by statute.

**DATES:** The Certificate of Alternative Compliance was issued on September 28, 2015.

**ADDRESSES:** The docket for this notice is available for inspection or copying at

the Docket Management Facility (M–30), U.S. Department of Transportation, West Building Ground Floor, Room W12–140, 1200 New Jersey Avenue SE., Washington, DC 20590, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays. If you have questions on viewing or submitting material to the docket, call Renee V. Wright, Program Manager, Docket Operations, telephone 202–366–9826.

**SUPPLEMENTARY INFORMATION:**

## Background and Purpose

A Certificate of Alternative Compliance, as allowed for under 33 U.S.C. 1605 (c) and 33 CFR 81.18, has been issued for the M/V LEIGH ANN MORAN. The vessel's primary purpose is a to push a barge that will operate on mainly in the Gulf of Mexico. The unique design of the vessel did not lend itself to full compliance with Annex I of the Inland Rules Act.

The Commandant, U.S. Coast Guard, certifies that full compliance with the Inland Rules Act would interfere with the special functions/intent of the vessel and would not significantly enhance the safety of the vessel's operation. Placing the sidelights in the required position would interfere with the standard tug operations of the vessel.

The Certificate of Alternative Compliance authorizes the M/V LEIGH ANN MORAN to deviate from the requirements set forth in Annex I of the Inland Rules Act, and install the sidelights as shown on the JENSEN Naval Architects and Marine Engineers "NAV MAST STRUCT & LIGHT ARGMT" Drawing No. 170-01, Rev A, dated October 30, 2014.

This notice is issued under authority of 33 U.S.C. 1605(c), and 33 CFR 81.18.

Dated: October 20, 2015.
