Comments are requested regarding: Whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments regarding this information collection received by September 27, 2021 will be considered. Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website [www.reginfo.gov/public/do/PRAMain](http://www.reginfo.gov/public/do/PRAMain). ### Foreign Agricultural Service

*Title:* Specialty Sugar Certificate Application.

*OMB Control Number:* 0551–0025.

*Summary of Collection:* The collect of information is necessary to fulfill the legal obligations of the regulation at 15 CFR 2011 subpart B to issue specialty sugar certificates, letters to importers signed by the Foreign Agricultural Service (FAS) Certifying Authority, and ensuring that U.S. importers comply with the program's requirements. The regulation sets forth the terms and conditions under which the Certifying Authority in FAS issues certificates to importers allowing them to enter specialty sugars under the tariff-rate quota (TRQ) for refined sugar.

*Need and Use of the Information:* The collected information will be used to: (1) Determine whether applicants for the program meet the regulation's eligibility criteria; (2) ensure that sugar to be imported is specialty sugar and meets the requirements of the regulation; (3) audit participants' compliance with the regulation; and (4) prevent entry of world-priced program sugar from entering the domestic commercial market instead of domestic specialty sugar market. The Certifying Authority needs the information to manage, plan, evaluate, and account for program activities. Less frequent collection or no collection would impede administration of the specialty sugar certificate program and reduce or eliminate imports essential to U.S. organic food and beverage processors.

*Description of Respondents:* Business or other for-profit.

*Number of Respondents:* 45.

*Frequency of Responses:* Reporting: Annually.

*Total Burden Hours:* 90.
