

POLICIES AND PRACTICES FOR RETRIEVAL OF RECORDS:

Records can be retrieved by name or other personal identifier.

POLICIES AND PRACTICES FOR RETENTION AND DISPOSAL OF RECORDS:

Records relating to events management will be retained for 6 years from the end of the fiscal year of the event in accordance with the NARA-approved GSA Records Schedule DAA-0269-2016-0007-0003—"Events Records".

ADMINISTRATIVE, TECHNICAL, AND PHYSICAL SAFEGUARDS:

Records in the system are protected from unauthorized access and misuse through a combination of administrative, technical and physical security measures. Administrative measures include but are not limited to policies that limit system access to individuals within an agency with a legitimate business need, and regular review of security procedures and best practices to enhance security. Technical measures include but are not limited to system design that allows authorized system users access only to data for which they are responsible; and use of encryption for certain data transfers. Physical security measures include but are not limited to the use of data centers which meet government requirements for storage of sensitive data.

RECORD ACCESS PROCEDURES:

If an individual wishes to access any data or record pertaining to him or her in the system after it has been submitted, that individual should consult the GSA's Privacy Act implementation rules available at 41 CFR part 105-64.2.

CONTESTING RECORD PROCEDURES:

If an individual wishes to contest the content of any record pertaining to him or her in the system after it has been submitted, that individual should consult the GSA's Privacy Act implementation rules available at 41 CFR part 105-64.4.

NOTIFICATION PROCEDURES:

If an individual wishes to be notified at his or her request if the system contains a record pertaining to him or her after it has been submitted, that individual should consult the GSA's Privacy Act implementation rules available at 41 CFR part 105-64.4.

EXEMPTIONS PROMULGATED FOR THE SYSTEM:

None.

HISTORY:

None.

Richard Speidel,

Chief Privacy Officer, Office of Enterprise Data & Privacy Management, General Services Administration.

BILLING CODE 6820-AB-P

GENERAL SERVICES ADMINISTRATION

[Notice—PBS-2024-07; Docket No. 2024-0002; Sequence No. 32]

Notice of Availability for the Final Environmental Impact Statement for the Buildings 202, 214 and 220 South State Street, Chicago, Illinois.

AGENCY: U.S. General Services Administration (GSA).

ACTION: Notice of availability (NOA).

SUMMARY: The GSA, in cooperation with the U.S. Federal Protective Service and in accordance with the National Environmental Policy Act (NEPA), announces the availability of the Final Environmental Impact Statement (EIS) for the future of 202, 214, and 220 South State Street, Chicago, Illinois. The Final EIS analyzed the potential environmental impacts of GSA's Proposed Action to address the future of the vacant buildings GSA owns at 202, 214, and 220 South State Street between Adams Street and Jackson Boulevard, adjacent to the Everett McKinley Dirksen U.S. Courthouse (Dirksen Courthouse) in downtown Chicago, Illinois. GSA considered two action alternatives (Alternative A, Demolition, and Alternative B, Viable Adaptive Reuse) and a No Action Alternative. The Final EIS states the purpose and need for the Proposed Action, analyzes alternatives considered, and assesses environmental impacts of each alternative, including avoidance, minimization, and mitigation measures. GSA has selected Viable Adaptive Reuse (Alternative B) as its Preferred Alternative.

DATES: Publication Period: The Final EIS is published with this notice of availability (NOA) in the **Federal Register** until Monday September 2, 2024. Written comments must be received by the last day of this publishing period (see **ADDRESSES** section of this NOA on how to submit comments). After this period, GSA will issue the Record of Decision (ROD).

ADDRESSES: Comments concerning the Final EIS should be directed to:

- *Email:* statstreet@gsa.gov. Please include 'Final EIS Publication' in the subject line of the message.
- *Mail:* ATTN: Joseph Mulligan, U.S. General Services Administration, 230 S Dearborn St., Suite 3600, Chicago, IL 60604.

Further information, including an electronic copy of the Final EIS, may be found online at this website: <https://www.gsa.gov/about-us/gsa-regions/region-5-great-lakes/buildings-and-facilities/illinois/chicago-202220-s-state-st-fps>.

SUPPLEMENTARY INFORMATION:**Proposed Action**

The Proposed Action is to address the future of the three vacant buildings at 202, 214 and 220 South State Street, east of the Dirksen Courthouse. The purpose of the Proposed Action is to address the security needs of the Dirksen Courthouse, respond to the Congressional intent and funding authorization provided in the 2022 Consolidated Appropriations Act, and manage Federal assets.

Preferred Alternative

GSA's Preferred Alternative is Viable Adaptive Reuse (Alternative B). GSA will pursue viable adaptive reuse under the NHPA section 111 outlease authority. GSA will issue a Request for Lease Proposals (RLP) to seek a reuse that meets the purpose and need for the proposed action.

The Viable Adaptive Reuse Alternative meets the purpose and need for the Proposed Action upon satisfying the security needs of the Dirksen Courthouse. Therefore, GSA will request market-driven redevelopment proposals with the following considerations. First, GSA shall consider and prioritize proposals that align with the viable adaptive reuse security criteria established for this proposed action and demonstrate the financial capability of the offeror to successfully execute. Second, GSA shall consider proposals with proposed deviations from the viable adaptive reuse security criteria that demonstrate the financial capability of the offeror to successfully execute. Any proposed deviation must be agreed to by GSA. There are no federal funds available for reuse or proposed deviations from the security criteria. The RLP will allow for redevelopment of all buildings and parcels at 202 through 220 South State Street or one, two, or all three buildings in a manner that addresses the purpose and need.

Summary of Potential Impacts

The Final EIS identifies, describes, and analyzes the potential effects of

both the Action and No Action alternatives, including direct, indirect, and cumulative effects. GSA analyzed beneficial and adverse potential impacts of the following resources: cultural resources; aesthetic and visual resources; land use and zoning; community facilities; socioeconomic and environmental justice; greenhouse gas emissions; hazardous materials and solid waste; air quality; noise; health and safety; and transportation and traffic. The Final EIS considers measures that would avoid, minimize, or mitigate identified adverse impacts. The Final EIS identifies Viable Adaptive Reuse as the Environmentally Preferred Alternative.

National Historic Preservation Act

Consultation under section 106 of the NHPA is ongoing concurrently with the NEPA process. The Century Building (202 South State Street) and the Consumers Building (220 South State Street) are historic resources contributing to the Loop Retail Historic District, which are listed in the National Register of Historic Places (NRHP). In this Proposed Action, 214 South State Street is being treated as eligible for listing in the NRHP as a contributing resource to the Loop Retail Historic District. A draft Programmatic Agreement is included in the Final EIS. GSA will execute the Programmatic Agreement with the Illinois State Historic Preservation Officer and Advisory Council on Historic Preservation before issuing the Record of Decision.

William Renner,

Director, Facilities Management and Services Programs Division, Great Lakes Region 5, U.S. General Services Administration.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Agency for Healthcare Research and Quality

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: Agency for Healthcare Research and Quality, HHS.

ACTION: Notice.

SUMMARY: This notice announces the intention of the Agency for Healthcare Research and Quality (AHRQ) to request that the Office of Management and Budget (OMB) approve an extension of the currently approved information

collection project: “*Medical Office Survey on Patient Safety Culture Database*.” In accordance with the Paperwork Reduction Act of 1995, AHRQ invites the public to comment on this proposed information collection.

DATES: Comments on this notice must be received by September 30, 2024.

ADDRESSES: Written comments should be submitted to: Doris Lefkowitz, Reports Clearance Officer, AHRQ, by email at REPORTSCLEARANCEOFFICER@ahrq.hhs.gov.

FOR FURTHER INFORMATION CONTACT: Doris Lefkowitz, AHRQ Reports Clearance Officer, (301) 427-1477, or by email at REPORTSCLEARANCEOFFICER@ahrq.hhs.gov.

SUPPLEMENTARY INFORMATION:

Proposed Project

Medical Office Survey on Patient Safety Culture Database

In 1999, the Institute of Medicine called for health care organizations to develop a “culture of safety” such that their workforce and processes focus on improving the reliability and safety of care for patients (IOM, 1999; *To Err is Human: Building a Safer Health System*). To respond to the need for tools to assess patient safety culture in health care, AHRQ developed and pilot tested the Surveys on Patient Safety Culture® (SOPS®) Medical Office Survey with OMB approval (OMB NO.0935-0131; Approved July 5, 2007).

The survey is designed to enable medical offices to assess provider and staff perspectives about patient safety issues, medical error, and error reporting. The survey includes 38 items that measure 10 composites of patient safety culture. In addition to the composite items, 14 items measure staff perceptions of how often medical offices have problems exchanging information with other settings as well as other patient safety and quality issues. AHRQ made the survey publicly available along with a Survey User’s Guide and other toolkit materials in January 2009, on the AHRQ website.

The AHRQ SOPS Medical Office Database consists of data from the AHRQ Medical Office Survey on Patient Safety Culture and may include reportable, non-required supplemental items. Medical offices in the U.S. can voluntarily submit data from the survey to AHRQ, through its contractor, Westat. The SOPS Medical Office Database (OMB NO. 0935-0196, last approved on September 24, 2021) was developed by AHRQ in 2011 in response to requests

from medical offices interested in tracking their own survey results. Those organizations submitting data receive a feedback report, as well as a report of the aggregated, de-identified findings of the other medical offices submitting data. These reports are used to assist medical office staff in their efforts to improve patient safety culture in their organizations.

The goal of the Medical Office Survey on Patient Safety Culture Database is to promote improvements in the quality and safety of healthcare in medical office settings. The survey, toolkit materials, and database results are all made publicly available on AHRQ’s website. Technical assistance is provided by AHRQ through its contractor at no charge to medical offices, to facilitate the use of these materials for medical office patient safety and quality improvement.

This database:

- (1) Presents results from medical offices that voluntarily submit their data,
- (2) Provides data to medical offices to facilitate internal assessment and learning in the patient safety improvement process, and
- (3) Provides supplemental information to help medical offices identify their strengths and areas with potential for improvement in patient safety culture.

To achieve the goal of this project the following activities and data collections will be implemented:

(1) Eligibility and Registration Form—The medical office point-of-contact (POC) completes several data submission steps and forms, beginning with the completion of an online Eligibility and Registration Form. The purpose of this form is to collect basic demographic information about the medical office and initiate the registration process.

(2) Medical Office Site Information Form—The purpose of the site information form, also completed by the medical office POC, is to collect background characteristics of the medical office. This information will be used to analyze data collected with SOPS Medical Office Survey.

(3) Data Use Agreement—The purpose of the data use agreement, completed by the medical office POC, is to state how data submitted by medical offices will be used and provides privacy assurances.

(4) Data File(s) Submission—POCs upload their data file(s), using the medical office data file specifications, to ensure that users submit their data in a standardized way (e.g., variable names, order, coding, formatting). The number
