

whether they occur inside or outside the EEZ; (6) negative reports must be submitted for months when no HMS are collected; (7) applicants for EFP and SRP renewals must include with the application the previous year's year-end report and any delinquent reports for permits issued in prior years to obtain the new permit; and (8) prohibitions concerning the submission of false information and violations of the terms and conditions of EFPs and SRPs. Although unrelated to these provisions, the rule also addresses EFPs for the pelagic longline directed swordfish fishery, in that EFPs would no longer be required for vessels to delay offloading of swordfish when an approved vessel monitoring system (VMS) is operating on board the vessel.

In December 2003, NMFS published the Final Rule (68 FR 74747) implementing the Final Amendment 1 to the Fishery Management Plan for Atlantic Tunas, Swordfish and Sharks. While the rule focuses primarily on shark management measures, the issuance of EFPs and SRPs is also addressed where a separate display permitting system for HMS is to be developed apart from EFPs and SRPs issued for other purposes. This is an administrative change only, and current quotas as well as application and reporting requirements remain as established under the existing system.

Comments are also requested for the issuance of Chartering Permits to vessels fishing for HMS while operating under chartering arrangements within the EEZ of other nations. In November 2004, NMFS published the Final Rule requiring prior notification and approval from NMFS, via issuance of a Chartering Permit, before a vessel begins to fish under a chartering arrangement. These Chartering Permits would allow a U.S. fishing vessel to fish in a manner consistent with another country's regulations without violating U.S. regulations, and would ensure that such vessels report to the proper authorities, consistent with ICCAT recommendations. To date, NMFS has only received applications from and issued one of these Chartering Permits, which includes one pelagic longline vessel in a fleet of many thousands.

Final decisions on the issuance of any EFPs/SRPs/Display/Chartering Permits will depend on the submission of all required information about the proposed activities, NMFS' review of public comments received on this notice, consistency with conclusions in the Final Environmental Impact Statement (EIS) contained in the Final HMS FMP (64 FR 13575; March 19, 1999), Environmental Assessments

(EAs) or EISs, and any consultations with appropriate Regional Fishery Management Councils, states, or Federal agencies. NMFS does not anticipate any environmental impacts from the issuance of these EFPs other than impacts already assessed in the Final HMS FMP.

All requests for EFPs/SRPs/Display/Chartering Permits of a type or nature not addressed in this **Federal Register** Notice will have a separate Notice filed and separate public comment period.

BILLING CODE 3510-22-S

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[I.D. 110404E]

Endangered Species; File No. 1260

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Issuance of permit modification.

SUMMARY: Notice is hereby given that the NMFS Southeast Fisheries Science Center (SEFSC) has been issued a modification to scientific research Permit No. 1260.

ADDRESSES: The modification and related documents are available for review upon written request or by appointment in the following office(s):

Permits, Conservation and Education Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910; phone (301)713-2289; fax (301)713-0376; and Southeast Region, NMFS, 9721 Executive Center Drive North, St. Petersburg, FL 33702-2432; phone (727)570-5301; fax (727)570-5320.

FOR FURTHER INFORMATION CONTACT:

Patrick Opay or Ruth Johnson, (301)713-2289.

SUPPLEMENTARY INFORMATION: Notices were published in the Federal Register on July 15, 2004 (69 FR 42426) and July 19, 2004 (69 FR 42970) that modifications of Permit No. 1260, issued June 29, 2001 (66 FR 34621), had been requested by the above-named organization. The requested modification has been granted under the authority of the Endangered Species Act

of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*) and the regulations governing the taking, importing, and exporting of endangered and threatened species (50 CFR parts 222-226).

The modification to Permit No. 1260 authorizes the SEFSC to attach conventional or pop-up archival tag (PAT) satellite transmitters to the pygal region of up to 15 leatherback sea turtles (*Dermochelys coriacea*) that may be boated during the Pelagic Longline Fishery Observers project. Additionally, the SEFSC is authorized to handle, flipper and passive integrated transponder (PIT) tag, tissue sample and blood sample all turtles on all projects under Permit No. 1260 and now has the option of deploying either PAT or conventional satellite tags via a tether attachment to the 20 loggerhead sea turtles (*Caretta caretta*) for which satellite tagging was already authorized under the existing Pelagic Longline Fishery Observers project.

The modification also authorizes the annual hoop netting or dip netting, measuring, weighing, flipper and PIT tagging, tissue biopsying, blood sampling and release of an additional 100 leatherback, 120 loggerhead, 100 green (*Chelonia mydas*), 50 hawksbill (*Eretmochelys imbricata*), 50 Kemp's ridley (*Lepidochelys kempii*) and 20 olive ridley (*Lepidochelys olivacea*) sea turtles. A subset of 20 of the leatherbacks, 20 of the loggerheads, 20 of the greens, 20 of the hawksbills, 20 of the Kemp's ridleys and 5 of the olive ridleys captured annually will have satellite transmitters attached to them. None of the activities authorized under this modification are expected to result in mortality. The research will be conducted in waters of the Atlantic Ocean (including the Caribbean) and Gulf of Mexico during the remainder of the permit which expires June 30, 2006. The purpose of the research is to gather the necessary information to implement NMFS management activities as required by the ESA and implementing regulations.

Issuance of this modification, as required by the ESA was based on a finding that such permit (1) was applied for in good faith, (2) will not operate to the disadvantage of the endangered and threatened species which are the subject of this permit, and (3) is consistent with the purposes and policies set forth in section 2 of the ESA.

Dated: November 5, 2004.

DEPARTMENT OF COMMERCE

Patent and Trademark Office

[Docket No. 2004-P-049]

Grant of Interim Extension of the Term of U.S. Patent No. 4,603,123; Piroxicam Betadex

AGENCY: United States Patent and
Trademark Office, DOC.

ACTION: Notice of interim patent term
extension.

SUMMARY: The United States Patent and
Trademark Office has issued a
certificate under 35 U.S.C. 156(d)(5) for
a one-year interim extension of the term
of U.S. Patent No. 4,603,123.

FOR FURTHER INFORMATION CONTACT:
Karin Ferriter by telephone at (571)
272-7744; by mail marked to her
attention and addressed to Mail Stop
Patent Ext., Commissioner for Patents,
P.O. Box 1450, Alexandria, VA 22313-
1450; by fax marked to her attention at
(571) 273-7744, or by e-mail to
Karin.Ferriter@uspto.gov.

SUPPLEMENTARY INFORMATION: Section
156 of Title 35, United States Code,
generally provides that the term of a
patent may be extended for a period of
up to five years if the patent claims a
product, or a method of making or using
a product, that has been subject to
certain defined regulatory review, and
that the patent may be extended for
interim periods of up to a year if the
regulatory review is anticipated to
extend beyond the expiration date of the
patent.

On October 25, 2004, patent owner
Chiesi Farmaceutici S.p.A. timely filed
an application under 35 U.S.C. 156(d)(5)
for an interim extension of the term of
U.S. Patent No. 4,603,123. The patent
claims the active ingredient piroxicam
betadex in the human drug product
Brexidol®. The application indicates
that a New Drug Application for
Brexidol® (piroxicam betadex) has been
filed and is currently undergoing
regulatory review before the Food and
Drug Administration for permission to
market or use the product commercially.

Review of the application indicates
that except for the permission to market or
use the product commercially, the
subject patent would be eligible for an

extension of the patent term under 35
U.S.C. 156, and that the patent should
be extended for one year as required by
35 U.S.C. 156(d)(5)(B). Since the
regulatory review period is anticipated
to continue beyond the expiration date
of the patent November 13, 2004,
interim extension of the patent term
under 35 U.S.C. 156(d)(5) is appropriate.

An interim extension under 35 U.S.C.
156(d)(5) of the term of U.S. Patent No.
4,603,123 is granted for a period of one
year from the expiration date of the
patent, i.e., until November 13, 2005.

Dated: November 4, 2004.

*Under Secretary of Commerce for Intellectual
Property and Director of the United States
Patent and Trademark Office.*

D. Michael Hutchinson,

*Acting Chairman, Committee for the
Implementation of Textile Agreements.*

Committee for the Implementation of Textile Agreements

November 8, 2004.

Commissioner,
*Bureau of Customs and Border Protection,
Washington, DC 20229.*

Dear Commissioner: This directive
amends, but does not cancel, the directive
issued to you on November 13, 2003, by the
Chairman, Committee for the Implementation
of Textile Agreements. That directive
concerns imports of certain cotton, wool,
man-made fiber, silk blend and other
vegetable fiber textiles and textile products,
produced or manufactured in Indonesia and
exported during the twelve-month period
which began on January 1, 2004 and extends
through December 31, 2004.

Effective on November 12, 2004, you are
directed to adjust the limits for the categories
listed below, as provided for under the
Uruguay Round Agreement on Textiles and
Clothing:

Category	Twelve-month restraint limit ¹
Levels in Group I	
347/348	3,246,042 dozen.
647/648	5,986,332 dozen.

¹ The limits have not been adjusted to ac-
count for any imports exported after December
31, 2003.

The Committee for the Implementation of
Textile Agreements has determined that
these actions fall within the foreign affairs
exception to the rulemaking provisions of 5
U.S.C. 553(a)(1).

Sincerely,
D. Michael Hutchinson,
*Acting Chairman, Committee for the
Implementation of Textile Agreements.*
