to enhance/improve existing functions, share data across GSA and more efficiently utilize existing applications.

Use of Data To Provide Effective Outcomes/Weight 20%

Description—The solution displays in a way that is easy to understand, visually appealing, and will help drive understanding of current trends as well as recommendations.

Creativity/Innovation/Weight 10%

Description—The solution exceeds any internal capability that GSA has for analysis of data through its incorporation of creative design elements and innovative capabilities.

Valuable Information and Insights Regarding Data/Weight 20%

Description—The solver provides recommendations for additional data elements to be collected by the government. The solver identifies gaps in the data and utilizes external data sources and research to aid the Government in setting future data collection policies.

Challenge Goal and Objectives

Goal: Design and build an application, API, and/or data mashup while using GSA data that solves one of five GSA business problems provided at the Hack-a-thon.
Objectives:
—Utilize GSA data to create an application, API, and/or data mashup.
—Provide GSA a better understanding of use and needs of current and future data assets.
—Post all open source solutions on GitHub for future use by the government developer community and GSA.

Registration: Registration for this event will be accomplished online at the following link: *https:// www.eventbrite.com/e/us-general-services-administration-gsa-hack-a-thon-tickets-15637828165.* It shall remain open until Tuesday, May 5, 2015, at 11:59 p.m., Eastern Standard Time (EST). The event space is limited to the first 120 people; once registration is complete you shall receive a confirmation email.

All participants are required to check in with Security upon arriving at the GSA Central Office Building, 1800 F Street NW., Washington, DC 20405. A government-issued ID is required to gain access into the building. All participants must enter through the main entrance located on 18th Street.

Proceed through Security and follow the posted signs to the Conference Center, Rooms 1459–1461.

Check in at the Registration table on Friday, May 8, 2015, beginning at 9:00 a.m., Eastern Standard Time (EST). All participants must stop here to sign the required forms shown below:
• Gratuitous Service Agreement.

Dated: April 22, 2015.

Kris Rowley,
Director, Enterprise Information & Data Mgmt Ofc.

[30 Day–15–0792]

Agency Forms Undergoing Paperwork Reduction Act Review

The Centers for Disease Control and Prevention (CDC) has submitted the following information collection request to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act of 1995. The notice for the proposed information collection is published to obtain comments from the public and affected agencies.

Written comments and suggestions from the public and affected agencies concerning the proposed collection of information are encouraged. Your comments should address any of the following: (a) Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) Evaluate the accuracy of the agencies estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) Enhance the quality, utility, and clarity of the information to be collected; (d) Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.,* permitting electronic submission of responses; and (e) Assess information collection costs.

To request additional information on the proposed project or to obtain a copy of the information collection plan and instruments, call (404) 639–7570 or send an email to *omb@cdc.gov.* Written comments and/or suggestions regarding the items contained in this notice

should be directed to the Attention: CDC Desk Officer, Office of Management and Budget, Washington, DC 20503 or by fax to (202) 395–5806. Written comments should be received within 30 days of this notice.

Proposed Project

Environmental Health Specialists Network (EHS–NET) Program (OMB No. 0920–0792, expired 1/31/2015)— Reinstatement—National Center for Environmental Health (NCEH), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

The CDC is requesting OMB approval for a reinstatement (with changes) of this generic information collection plan. Due to the uncertainty about whether the EHS-Net program would receive continued funding, NCEH submitted a discontinuation request for this plan on January 23, 2015. This reinstatement will provide clearance for EHS-Net data collections conducted in the next three years to support a research program focused on identifying the environmental causes of foodborne illness.

This program is conducted by the Environmental Health Specialists Network (EHS-Net), a collaborative project of CDC, the Food and Drug Administration (FDA), the United States Department of Agriculture (USDA), and local and state sites. To date, EHS-Net has conducted four studies under this generic information collection plan. The data from these studies have yielded valuable findings and have been disseminated to environmental public health/food safety regulatory programs and the food industry in the form of presentations at conferences and meetings, scientific journal publications, and Web site postings.

NCEH intends to conduct EHS-Net data collections from 2015 through 2018 (approximately one per year). The program is revising the generic information collection request (ICR) to account for a likely change in the participating sites, to reduce the estimated burden, and to eliminate ineffective sample weighting analyses.

Reducing foodborne illness first requires identification and understanding of the environmental factors that cause these illnesses. We need to know how and why food becomes contaminated with foodborne illness pathogens. This information can then be used to determine effective food safety prevention methods. The purpose of this food safety research program is to identify and understand

environmental factors associated with foodborne illness and outbreaks.

Environmental factors associated with foodborne illness include both food safety practices (*e.g.,* inadequate cleaning practices) and the factors in the environment associated with those practices (*e.g.,* worker and retail food establishment characteristics). To understand these factors, we need to continue to collect data from those who prepare food (*i.e.,* food workers) and on the environments in which the food is prepared (*i.e.,* retail food establishment kitchens). Thus, data collection methods for this generic package include: (1) manager and worker interviews/ assessments, and (2) observation of kitchen environments. Both methods allow data collection on food safety practices and environmental factors associated with those practices.

For each data collection, we will collect data in approximately 47 retail food establishments per site. Thus, there will be approximately 376 establishments per data collection (an estimated 8 sites X 47 establishments). We expect a manager/establishment response rate of approximately 60 percent; thus, we will need to attempt to recruit 627 managers/establishments via telephone in order to meet our goal of 376 establishments. Each manager will respond to the recruiting script only once for approximately three minutes. Thus, the maximum burden for the manager recruiting attempts will be 31 hours. We will collect interview/ assessment data from a manager in each establishment. Each manager will respond only once for approximately 30 minutes. Thus, the maximum burden for the manager interview/assessment will be 188. In total, the average burden for managers will be 219 hours (31 hours for recruiting plus 188 hours for the interview/assessment).

For each data collection, we will recruit a worker from each participating establishment to provide interview/ assessment data. Each worker will respond to the recruiting script only once for approximately three minutes. Thus, the maximum burden for the worker recruiting attempts will be 19 hours. We expect a worker response rate of 90 percent (339 workers). Each worker will respond only once for approximately 10 minutes. Thus, the maximum burden for the worker interview/assessment will be 57 hours. In total, the average burden per worker response will be 88 hours (19 hours for recruiting plus 57 hours for the interview/assessment).

There is no cost to respondents other than their time. The total estimated annual burden for each data collection will be 295 hours.

ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondents	Form name	Number of respondents	Number of responses per respondent	Average burden per response (in hours)
Retail managers	Manager Telephone Recruiting Script	627	1	3/60
Retail managers	Manager Interview/Assessment	376	1	30/60
Retail food workers	Worker Recruiting Script	376	1	3/60
Retail food workers	Worker Interview/Assessment	339	1	10/60

Leroy A. Richardson,

Chief, Information Collection Review Office, Office of Scientific Integrity, Office of the Associate Director for Science, Office of the Director, Centers for Disease Control and Prevention.

Centers for Medicare & Medicaid Services

[Document Identifier: CMS–10433]

Agency Information Collection Activities: Submission for OMB Review; Comment Request

ACTION: Notice.

SUMMARY: The Centers for Medicare & Medicaid Services (CMS) is announcing an opportunity for the public to comment on CMS' intention to collect information from the public. Under the Paperwork Reduction Act of 1995 (PRA), federal agencies are required to publish notice in the **Federal Register** concerning each proposed collection of information, including each proposed extension or reinstatement of an existing collection of information, and to allow a second opportunity for public comment on the notice. Interested persons are invited to send comments regarding the burden estimate or any other aspect of this collection of information, including any of the following subjects: (1) The necessity and utility of the proposed information collection for the proper performance of the agency's functions; (2) the accuracy of the estimated burden; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) the use of automated collection techniques or other forms of information technology to minimize the information collection burden.

DATES: Comments on the collection(s) of information must be received by the OMB desk officer by *May 28, 2015:*

ADDRESSES: When commenting on the proposed information collections, please reference the document identifier or OMB control number. To be assured consideration, comments and recommendations must be received by the OMB desk officer via one of the following transmissions:

OMB, Office of Information and Regulatory Affairs,
   Attention: CMS Desk Officer,
   Fax Number: (202) 395–5806 *OR*
   Email: *OIRA_submission@ omb.eop.gov.*

To obtain copies of a supporting statement and any related forms for the proposed collection(s) summarized in this notice, you may make your request using one of following:

1. Access CMS' Web site address at *http://www.cms.hhs.gov/ PaperworkReductionActof1995.*

2. Email your request, including your address, phone number, OMB number, and CMS document identifier, to *Paperwork@cms.hhs.gov.*

3. Call the Reports Clearance Office at (410) 786–1326.

FOR FURTHER INFORMATION CONTACT: Reports Clearance Office at (410) 786–1326.

SUPPLEMENTARY INFORMATION: Under the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3501–3520), federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. The term ''collection of information'' is defined in 44 U.S.C.
