BILLING CODE 4410-FY-P

DEPARTMENT OF JUSTICE

Notice of Lodging of Proposed Modification to Consent Decree Under the Clean Water Act

On June 1, 2016, the United States Department of Justice filed, on behalf of the Environmental Protection Agency, a proposed Modification to the 2002 Consent Decree in *United States and the State of Maryland v. Mayor and the City Council of Baltimore, Maryland*, Civil Action No. 1:02-CV-01524-JFM, with the United States District Court for the District of Maryland ("proposed Modified Consent Decree.")

On September 30, 2002, the Court entered the 2002 Consent Decree between the parties resolving Plaintiffs' claims that the City of Baltimore violated the Clean Water Act (the "CWA"), 33 U.S.C. 1319(b) and (d), resulting from Baltimore's operation of its sewer system and wastewater control plant. Under the 2002 Consent Decree, Baltimore was required to eliminate any remaining combined sewers in the collections system, eliminate structures for sanitary sewer overflows (SSO), conduct thorough evaluations of the City's eight sewersheds, propose rehabilitation measures for each sewershed and implement such measures after approval. The 2002 Consent Decree provides for implementation completion by January 2016.

Baltimore did not meet the January 2016 deadline for all of the rehabilitation measures. This proposed Modified Consent Decree allows Baltimore more time to conduct the SSO work using a two-phased approach. Under the proposed Modified Consent Decree, the Phase I work is required to be completed by January 2021, and then Baltimore is required to submit a Phase II Plan for EPA approval by December 2022. The Phase II Plan must propose a schedule for work to be completed no later than December 2030. After the Phase II work Baltimore will conduct two years of post-implementation monitoring. If after the Phase II work is complete the Plaintiffs determine that additional work is necessary, they can require Baltimore to undertake additional remedial measures.
