SUPPLEMENTARY INFORMATION:

Title: Emergency Watershed Protection Program.

OMB Number: 0578-0030.

Expiration Date of Approval: March 31, 2005.

Type of Request: To request comments on a currently approved collection for which approval will expire.

Abstract: The primary objective of the Natural Resources Conservation Service (NRCS) is to work in partnership with the American people and the farming and ranching community to conserve and sustain our natural resources. The purpose of Emergency Watershed Protection Program (EWP) information collection is to provide EWP assistance to sponsors to undertake emergency measures to retard runoff and prevent soil erosion to safeguard lives and property from floods, drought, and the products of erosion on any watershed whenever fire, flood, or other natural disaster is causing or has caused a sudden impairment of that watershed.

The sponsor's request is submitted formally as a letter (now the Appendix to the NRCS-PDM-20A) to the NRCS State Conservationist for consideration. The NRCS-PDM-20, Damage Survey Report (DSR), is the Agency decision-making document that includes the economic, social, and environmental evaluation and the engineer's cost estimate.

This information collection allows the responsible Federal official to make EWP eligibility determinations and provide Federal cost-share payments to the sponsor. This request is necessary to implement the EWP Program for which NRCS has statutory authority.

The table below lists the forms in this collection, the uses for each document, and the applicable programs. These forms constitute this information collection and reflect the documents used by EWP sponsors to request participation in the recovery program.

Form number	Form title	OMB number	Program
NRCS-PDM-20	Damage Survey Report	0578-0030	EWP Recovery.
NRCS-PDM-20A	Appendix to the DSR, Request for Participation in the Program	0578-0030	EWP Recovery.

NRCS will ask OMB for 3-year approval within 60 days of submitting the request.

Estimate of Burden: Public reporting burden for this collection of information

is estimated to average 3.5 hours, or 117 minutes, per response.

Respondents: State government, State agency or a legal subdivision thereof, local unit of government, or any Native American Tribe or Tribal organization as defined in section 4 of the Indian Self-Determination and Education Assistance Act (25 U.S.C. 450b), with a legal interest in or responsibility for the values threatened by a watershed emergency. All of the foregoing entities must be capable of obtaining necessary land rights and capable of carrying out any operation and maintenance responsibilities that may be required.

Estimated Number of Respondents: 360.

Estimated Total Annual Burden on Respondents: 4,770 hours.

All responses to this notice will be summarized and included in the request for OMB approval.

All comments will also become a matter of public record.

Signed at Washington, DC, on November 4, 2004.

Bruce I. Knight,

Chief, Natural Resources Conservation Service.
