

FOR FURTHER INFORMATION CONTACT: Pat Deibert, BLM National Sage-Grouse Conservation Coordinator; telephone: (720)-447-8107; address: 5353 Yellowstone Road, Cheyenne, WY, 82009; email: BLM_HQ_GRSG_Planning@blm.gov. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services for contacting Dr. Deibert. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION: The RODs/Approved RMP Amendments update how the BLM manages public lands in Colorado and Oregon that support Western communities and enhance conservation for Greater Sage-Grouse and more than 350 other wildlife species. The plan amendments in these two States are part of a rangewide approach, developed with 10 States, Tribes, local communities, and the public to enhance conservation for Greater Sage-Grouse and its habitat. While the Governors of Colorado and Oregon did not identify any inconsistencies with the plans, policies, or programs of their States or potential inconsistencies were resolved, the BLM made minor changes from the Proposed RMP to these RODs/Approved RMP Amendments to resolve potential inconsistencies raised by other States. The BLM made these minor changes to maintain a consistent rangewide approach to Greater Sage-Grouse management and promote coordination between the BLM and the States. The minor changes include clarifying that areas identified as Priority Habitat Management Areas with limited exceptions under the Proposed RMP will be identified only as Priority Habitat Management Areas. A further explanation of this and other changes can be found in the Oregon and Colorado RODs/Approved RMP Amendments.

The States of North Dakota, South Dakota, and California did not submit any administrative protests or identify any inconsistencies with State plans, policies, or programs, so the BLM has completed the administrative process for finalizing those plans, and is prepared to issue RODs for those three States. The BLM continues to work closely with wildlife managers in five other States to finalize decisions to conserve and improve habitat across the Greater Sage-Grouse's range. Until new

RODs are signed, the BLM will continue to manage Greater Sage-Grouse habitat on public lands in those eight States under the 2015 Greater Sage-Grouse RMP decisions.

This Greater Sage-Grouse planning process builds on existing direction related to Greater Sage-Grouse conservation, established in earlier planning efforts, responds to updated scientific information and changing land uses, and provides for consistent and effective rangewide conservation based on biological information that is responsive to locally relevant habitat variability. Upon finalization, these RMP Amendments update or will update goals, objectives, allocations, and management direction in 77 resource management plans in California, Colorado, Idaho, Montana, Nevada, North Dakota, Oregon, South Dakota, Utah, and Wyoming.

The BLM provided the Proposed RMP Amendments for public protest on November 15, 2024, for a 30-day protest period and received 60 unique protest letters. The BLM resolved all protests, compiling and documenting responses to protest issues in a Protest Resolution Report (see **ADDRESSES**). Through its review, the BLM determined that no changes from the Proposed RMP Amendments/Final EISs were necessary, although the BLM made minor changes for clarification and to improve implementation as described in the Oregon and Colorado RODs/Approved RMP Amendments.

The BLM provided the Proposed RMP Amendments to the Governors of California, Colorado, Idaho, Montana, Nevada, North Dakota, Oregon, South Dakota, Utah, and Wyoming for 60-day Governor's consistency reviews. As discussed above, the Governors of California, North Dakota, South Dakota, and Colorado did not identify any inconsistencies with State plans, policies, or programs. The BLM resolved all potential inconsistencies identified by the Governor of Oregon to the Governor's satisfaction. The BLM is continuing to work with Idaho, Montana, Nevada, Utah, and Wyoming to resolve any remaining asserted inconsistencies.

The BLM's Principal Deputy Director signed the RODs/Approved RMP Amendments, which are in effect upon signature.

(Authority: 40 CFR 1506.6; 43 CFR 1610.5–1)

Nada Wolff Culver,
Principal Deputy Director.

BILLING CODE 4331–27–P

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[PO4820000251]

Notice To Establish a New Recreation Fee Area on Public Lands Managed by the Salmon Field Office, Idaho

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of intent.

SUMMARY: Pursuant to the Federal Lands Recreation Enhancement Act (FLREA), the Bureau of Land Management (BLM), Salmon Field Office will establish a fee program for a reservable rental cabin known as Tarpons Roost, constructed on the Continental Divide near Lemhi Pass, in Lemhi County, Idaho.

DATES: Starting July 17, 2025, the BLM will have the option to initiate the proposed fees unless the BLM publishes a **Federal Register** notice to the contrary.

ADDRESSES: Copies of relevant supporting documents for this action may be reviewed at the BLM Salmon Field Office, 1206 South Challis St., Salmon, ID 83467; or the BLM Idaho Falls District Office, 1405 Hollipark Drive, Idaho Falls, ID 83401 and online at: <https://on.doi.gov/3qfe3l0>.

FOR FURTHER INFORMATION CONTACT: Travis Seaberg, outdoor recreation planner, BLM Salmon Field Office, email: BLM_ID_SalmonOffice@blm.gov; telephone: (208) 756–5400. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States.

SUPPLEMENTARY INFORMATION: The BLM is committed to provide and receive fair value for the use of developed recreation facilities and services in a manner that meets public use demands, provides quality experiences, and protects important resources. The BLM's policy is to collect fees at specialized recreation sites, or where the BLM provides facilities, equipment, or services, at Federal expense, in connection with outdoor use. To meet anticipated demands for services and maintenance at Tarpons Roost, the BLM will establish a fee program for cabin facility use. This fee will be used for the maintenance and yearly operations cost of Tarpons Roost. Starting July 17, 2025,

the BLM will initiate the approved \$75 per night expanded amenity fee.

The FLREA directs the Secretary of the Interior and Secretary of Agriculture to publish an advance notice in the **Federal Register** whenever new recreation fee areas are established under their respective jurisdictions. In accordance with BLM policy, the Salmon Field Office Recreation Fee Sites Business Plan explains the fee collection process and how fees will be used at this site. The BLM Idaho Resource Advisory Council, functioning as a Recreation Resource Advisory Committee, reviewed and concurred with the proposal to charge fees at Tarpons Roost in May 2024, following the FLREA guidelines. Fee amounts will be posted on-site and at the BLM Salmon Field Office. Copies of the business plan will be available at the BLM Salmon Field Office and BLM Idaho Falls District Office as listed in the **ADDRESSES** section. Any future adjustments in the fee amount will be made following the Salmon Field Office Recreation Fee Sites Business Plan and after consultation with the BLM Idaho Resource Advisory Council and other public notice.

Tarpons Roost was analyzed and approved in the 2018 Continental Divide Trail Cabin Environmental Assessment (DOI-BLM-ID-I040-2012-0034-EA) and subsequent Record of Decision, available at <https://eplanning.blm.gov/eplanning-ui/project/33052/510>. Recreation use fees would be consistent with other established fee sites in the area managed by the BLM and other Federal and State land management agencies.

(Authority: 16 U.S.C. 6803(b))

Robert Taylor,

Acting BLM Idaho Falls District Manager.

BILLING CODE 4331-19-P

DEPARTMENT OF THE INTERIOR

National Park Service

[NPS-WASO-NAGPRA-NPS0039362; PPWOCRADN0-PCU00RP14.R50000]

Notice of Intended Disposition: U.S. Department of Agriculture, Forest Service, Prescott National Forest, Chino Valley, AZ

AGENCY: National Park Service, Interior.

ACTION: Notice.

SUMMARY: In accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), the U.S. Department of Agriculture, Forest

Service, Prescott National Forest (PNF) intends to carry out the disposition of an associated funerary object removed from Federal or Tribal lands to the lineal descendants, Indian Tribe, or Native Hawaiian organization with priority for disposition in this notice.

DATES: Disposition of the associated funerary object in this notice may occur on or after February 18, 2025. If no claim for disposition is received by January 20, 2026, the associated funerary object in this notice will become unclaimed associated funerary object.

ADDRESSES: Sarah Clawson, Forest Supervisor, Prescott National Forest, 735 N. Highway 89, Chino Valley, AZ 86323, telephone (928) 443-8213, email sarah.clawson@usda.gov.

SUPPLEMENTARY INFORMATION: This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA. The determinations in this notice are the sole responsibility of the Prescott National Forest, and additional information on the associated funerary object in this notice, including the results of consultation, can be found in the related records. The National Park Service is not responsible for the identifications in this notice.

Abstract of Information Available

Based on the information available, one associated funerary object has been reasonably identified. A ceramic jar and human remains were discovered eroding out of an arroyo by a hiker near the Salt Mine Road (Verde Ranger District, Yavapai County, Arizona) on January 10, 2020. The jar was also removed that same day. The jar has been classified as Verde Brown plainware (Southern Sinagua) and is 20-25cm in diameter and approximately 20cm in height. The jar was found fractured, with about half of its entirety present. The human remains were stabilized in place in January 2020 and again in July 2021. The discovery location was assigned a site number, AR-03-09-05-933, and is being monitored by PNF archaeologists. The jar is currently secured in a safe location away from public view at the Verde Valley Archaeological Center, Camp Verde, Arizona.

Determinations

The Prescott National Forest has determined that:

- The one object described in this notice is reasonably believed to have been placed intentionally with or near individual human remains at the time of

death or later as part of the death rite or ceremony.

- The Hopi Tribe of Arizona has priority for disposition of the associated funerary object described in this notice.

Claims for Disposition

Written claims for disposition of the associated funerary object in this notice must be sent to the appropriate official identified in this notice under

ADDRESSES. If no claim for disposition is received by January 8, 2026, the associated funerary object in this notice will become an unclaimed associated funerary object. Claims for disposition may be submitted by:

1. Any lineal descendant, Indian Tribe, or Native Hawaiian organization identified in this notice.
2. Any lineal descendant, Indian Tribe, or Native Hawaiian organization not identified in this notice who shows, by a preponderance of the evidence, that they have priority for disposition.

Disposition of the associated funerary object in this notice may occur on or after February 18, 2025. If competing claims for disposition are received, the Prescott National Forest must determine the most appropriate claimant prior to disposition. Requests for joint disposition of the associated funerary object are considered a single request and not competing requests. The Prescott National Forest is responsible for sending a copy of this notice to the lineal descendants, Indian Tribes, and Native Hawaiian organizations identified in this notice and to any other consulting parties.

Authority: Native American Graves Protection and Repatriation Act, 25 U.S.C. 3002, and the implementing regulations, 43 CFR 10.7.

Dated: January 13, 2025.

Melanie O'Brien,

Manager, National NAGPRA Program.
