Description: The American Recovery and Reinvestment Act of 2009 (The Recovery Act) was signed into law by President Obama on February 17, 2009. Among other funding directed to the Department of Labor, the Recovery Act provides \$750 million for a program of competitive grants for worker training and placement in high growth and emerging industries, the American Recovery and Reinvestment Act (ARRA) High Growth and Emerging Industries (HGEI) grants. It is critical to record the impact of these Recovery Act resources, current information on participants in these grants, and the services provided to them. Therefore, to obtain a more robust look at participants and services provided with Recovery Act resources, the Employment & Training Administration (ETA) proposes a new information collection set for ARRA HGEI grantees.

Why Are We Requesting Emergency Processing? This collection comprises a participant and performance reporting strategy that will provide a more robust view of the impact of the Recovery Act funds, providing greater information on levels of program participation, the characteristics of the participants served and the types of services provided through ARRA HGEI programs. The performance reporting requirements in this package align with outcome categories identified in the Solicitation for Grant Applications (SGAs) used to award these grants, SGA/DFA PY–08–17, SGA/DFA PY–08–18, SGA/DFA PY–08–19, SGA/DFA PY–08–20, SGA/DFA PY–08–21 and SGA/DFA PY–09–01. This data collection will provide ETA with more comprehensive information on the status of individual grants and individuals that receive services and find employment through these grants, and the data collection will enable ETA to provide more targeted technical assistance to support improvement of grantee outcomes. ETA will provide

ARRA HGEI grantees with a data collection system that will support the collection of participant data for required reporting elements. ETA has already started awarding ARRA HGEI grants, and expects to award nearly all ARRA HGEI grants by February 2010, so the approval of this request is also necessary to allow ETA to provide an OMB approved reporting form quickly to ARRA HGEI grantees as their grant operations commence and to report performance accountability information immediately on the use of Recovery Act funds.

Departmental Clearance Officer.

By application dated January 29, 2010, the petitioner requested administrative reconsideration of the negative determination regarding workers' eligibility to apply for Trade Adjustment Assistance (TAA) applicable to workers and former workers of the subject firm. The determination was issued on December 10, 2009 and the Notice of Determination was published in the **Federal Register** on January 25, 2010 (75 FR 3932).

The initial investigation resulted in a negative determination based on the findings that imports of aluminum blanks and hoops did not contribute importantly to worker separations at the subject firm and no shift of production to a foreign source occurred.

In the request for reconsideration, the petitioner provided additional information regarding customers of the subject firm.

The Department has carefully reviewed the request for reconsideration and the existing record, and has determined that the Department will conduct further investigation to determine if the workers meet the eligibility requirements of the Trade Act of 1974.

Conclusion

After careful review of the application, I conclude that the claim is
